New Blow at Warsaw Next

GERMANS TO FOLLOW UP LEMBERG VICTORY

Have Already Rushed Troops from Galacia for New Drive on Capital of Russian Poland

Today's War News Given in Summary.

With the Russians reported in general retreat along a wide front after their defeat at Lemberg, the Austro-German forces are planning to strike a new blow at Warsaw. But few Russian troops now remain on Austria-Hungary territory.

A review of the fighting early this month on Gallipoli peninsula, given out officially today in Paris, says that from June 1 to 8 the French and British forces carried Turkish positions over a depth of 150 to 500 yards along a section of the front of more than a mile.

Reports of yesterday's fighting on the Franco-Belgian front indicate that the battle in the Arras district, south of the Belgian border, has subsided. Along the remainder of the battle line no important changes are recorded.

Regarding the fighting on the Italian front, Rome reports repulses of Austrian attacks at a number of points.

London, June 24.—3:27 P. M.—A dispatch from Amsterdam to the Central News says that the Germans, following their victory in Galicia, have already made preparations for another attempt to capture Warsaw.

According to this dispatch, German troops from Galicia already have been transferred to the Bzura front, east of Warsaw.

With the exception of a small front along the river Dniester, all the armies of Russia are either within or on their own frontiers.

Heavy fighting was reported to the north of Lemberg even before the fall of this city, so that Grand Duke Nicholas, commander in chief of the Russian forces in the field, may have had some difficulty in withdrawing his men to their new lines along the river Bug.

Blames Munitions Shortage.

Military critics in London are admitting reluctantly today that the power of offensive has passed for some time from the hands of the Russians, while special dispatches from Petrograd declare that it may be even years before the Austro-German aggressiveness can be worn down. It is generally admitted that Russia, like England, is not suffering from lack of men, but that a shortage of munitions has prevented the initiation of the general allied offensive expected early this summer.

Heavy engagements marked the operations along the western front yester-

BURGLAR HALTS AT AIM OF ICE CREAM DIPPER

Mulberry, Ind., June 24.—Aiming an ice cream dipper as if it were a revolver, O. S. Reppert, a merchant here, captured a burglar whom he found in his store early today. As Reppert entered the store, the thief jumped through a window and started to run. Reppert, picking up the dipper, pointed it at the intruder, and cried "halt." The burglar stopped and was turned over to the police. He gave his name as Frank Harrell, "the United States."

BOYS JUMPING WAGONS KILLED

Edward Lahey Drops from One and Runs in Front of Automobile.

JOHN AUER FALLS UNDER COAL CART

Two Fatalities Occur Within Two Hours Wednesday Evening.

Two accidents less than two hours apart Wednesday evening resulted in the death of Edward Lahey, 10 years old, son of Mr. and Mrs. James J. Lahey, Freeman street, and Johnnie Auer, 3 years old, son of Mrs. Charles Lenz, 1433 Broadway.

The accident in which the Lahey boy met death occurred at 5:10 o'clock in front of his home on Freeman street, south of Taylor. The boy and a companion had been riding on the back of a market wagon driven by S. S. Coleman, which was going north. The automobile of Charles A. Wilding, 902 West Wayne street, president of the Tri-State Loan & Trust company, and driven by Mr. Wilding's daughter, Miss Margaret Wilding, was going south on Freeman street. As Miss Wilding went to go around the wagon the two boys jumped off, running directly in front of the automobile. The first boy saw the machine in time and ran back, but the Lahey boy kept on going with the result that he was struck by the heavy fender, and knocked to the street, one wheel of the automobile passing over his body. Mr. Wilding occupied the front seat with his daughter. They were on their way to the Country club, where they expected to spend the evening.

Boy Was Unconscious.

Miss Wilding brought the car to a stop as quickly as she could, but could not have stopped in time, according to eye witnesses, to have avoided striking the boy. The lad was unconscious when picked up by Mr. Wilding, who placed him in his machine and hurried him to the office of Dr. George B. Stemen, 1162 West Main street. The physician had not finished his examination when the boy breathed his last.

The little fellow was terribly injured about the head, the lower jaw was broken and he was bruised about the chest. There were also symptoms of brain concussion.

Coroner Edward H. Kruse ordered the body removed to the undertaking establishment of Getz & Cahill and will make a thorough investigation.

Immediately after he saw that no more could be done for the boy Mr. Wilding went to police headquarters and made a report of the accident, but inasmuch as it occurred outside of the city limits it was later reported to Sheriff A. C. Gladieux and the sheriff's forces

SPENDS DAY WITH HOUSE

President Wilson Hears Latter's Impression of the War Situation.

STOPS OFF ON HIS TRIP TO CORNISH

Two Close Friends Long in Earnest Discusion of Big Events.

New York, June 24.—President Wilson, enroute from Washington to his summer home at Cornish, N. H., stopped off at Roslyn, Long Island, to spend the day with his intimate friend, Colonel E. M. House, and to receive at first hand the latter's impression of the

COL. E. M. HOUSE

war situation in Europe and the developments incident thereto affecting the United States.

Col. House, ten days home from a four months' trip that carried him to London, Paris and Berlin, greeted the president warmly at the little station at Roslyn, and took him by automobile immediately to his country estate, where they were to spend the day free from interruption by visitors, in discussing Colonel House's trip and his conference abroad with high officials of the warring powers.

Were Left Alone.

The president and Col. House were left alone setting on the broad veranda, hidden from the roadway by towering trees and shrubbery, apparently in earnest conversation. Presently they rose and went for a stroll unattended, over the estate, the walk ending at a

DERNBERG STEAMER HAS BEEN RELEASED

Its Detention by British Cause of Considerable Speculation.

London, June 24.—(2:50 p. m.)—The Norwegian steamer Bergensfjord, together with Dr. Bernhard Dernburg has been released by the British authorities and will sail from Kirkwall, Scotland, tonight.

CAUSED MUCH SPECULATION.

New York, June 24.—In the absence of dispatches from London concerning the disposition of the Norwegian-American liner Bergensfjord, detained by the British authorities at Kirkwall, there was much speculation here today as to what had happened to Dr. Dernburg, former colonial secretary of the German empire, who sailed from this city aboard the steamer June 12, under guarantees of safe conduct given by representatives in America of the allied powers.

All that was definitely known here was that the Bergensfjord's voyage to Bergen, Norway, had been interrupted and that she had been taken into Kirkwall and detained there. This intelligence reached New York after a two days' delay by the British censors, the dispatch being filed last Monday and delayed in transmission till yesterday. The dispatch also stated that the Swedish steamer Varing, from Savannah for Swedish ports, likewise was detained by the British authorities.

In maritime circles the detention of the Bergensfjord, apart from the fact that Dr. Dernburg and his wife were aboard, was not regarded as of unusual significance, although in most cases where trans-Atlantic liners have been detained in the past, the delay has been longest on the westbound voyage.

THAW AS WITNESS AGAINST HIMSELF

Will Be Called by State in Hearing to Determine His Sanity.

New York, June 24.—Harry K. Thaw will be called by counsel for the state as a witness against himself in the hearing now in progress here to determine whether he is sane, according to an announcement today by Deputy Attorney General Frank K. Cook. The state's purpose in adopting this plan, it is understood, is to avoid the restrictions which would limit his cross-examination and to lay his story of the killing of Stanford White before the jury shortly before it retires to consider a verdict. Thaw's brief direct testimony yesterday dealt chiefly with his escape from Matteawan and subsequent incidents.

Thaw said before the taking of testimony began that he had no fear of Mr. Cook's examination.

"I do not care what he asks me," he said. He can go as far as he likes."

Conviction that Thaw is a rational man was expressed today by Gustave C. Roeder, a newspaper man; William L. Shurtleff, an attorney at Coaticook, Can.; John E. Smith, a Sherbrooke, Que., newspaper man; Robert A. Ewing, a Sherbrooke alderman, and others.

Indianapolis Art Association Defeats Relatives in Suit.

Indianapolis, Ind., June 24.—The bequest by the late John Herron of practically all his property to the Art association of Indianapolis, for the benefit of the John Herron Art institute, was held valid by Judge Thornton in the superior court. Distant heirs of Mr. Herron brought suit to set aside the bequest, which involves about $300,000.

PEACE HOPE NOW WANING

Little Likelihood of Mexican Factions Settling Their Differences.

CARRANZA WILL NOT HALT HIS CAMPAIGN

Army Under Gonzales Has Reached Suburbs of Mexico City.

Washington, June 24.—Official hope that the heads of the warring military factions in Mexico would settle their differences waned today. General Carranza's notice to the United States reiterating that he would not agree to a truce with General Villa pending a discussion of peace was responsible. He announces his intention of continuing his military career to crush his adversaries.

Gen. Carranza has all along declined to accept Gen. Villa's peace overtures as well as suggestions of foreign mediators in Mexico's internal troubles. His attitude, as expressed to the United States, therefore, was no surprise to officials in Washington.

EXPECTS ITS SURRENDER.

Gonzales and Carranza Army at Suburbs of Mexico City.

El Paso, Tex., June 24.—A Carranza army under General Pablo Gonzales, has reached the suburbs of Mexico City, according to a telegram received by the Carranza gency here today from Vera Cruz, dated yesterday.

Zapata forces in Mexico City have entrenched themselves, according to information reaching here today, from Gen. Pablo Gonzales. For this reason, the general says, and because he wishes to spare the city the horror of an attack, he has delayed his movement of occupation.

Gen. Gonzales reports he has food supplies for the civil poulation, which will be taken into the city as soon as possible. He expects the surrender of the capital by the Zapata forces, or their evacuation of it.

LAY CAPITOL CORNERSTONE.

Event Under Auspices of Masonic Fraternity in Missouri.

Jefferson City, Mo., June 24.—Between five and ten thousand persons came to Jefferson City today to witness the laying of the cornerstone of the new Missouri state capitol. The ceremonies were under the auspices of Masonic fraternity. The capitol is to cost between $3,000,000 and $4,000,000. The steel work has been finished.

1,200 AFTER DIXIE BEE LINE HIGHWAY

Evansville, Ind., June 24.—Over 1,200 men, representing seven counties in Kentucky, five in Indiana, two in Tennessee and two in Illinois, assembled here this morning and formed a temporary organization to select a route for the Dixie Bee Line highway from Chicago to Nashville, Tenn. The crowd was so much larger than was expected that it was necessary to secure a local theater in which to hold the meeting.

Each rival section through Kentucky and Tennessee carried large banners, showing maps of the proposed route. At the morning session Mayor Bosse, acting as temperary chairman, ruled that no speaker would be allowed to talk on the advantages of certain routes. The convention reconvened at 2 o'clock when the question of permanent organization was taken up.

DRAG MAUMEE FOR NEIREITER'S BODY

Chief Lenz Orders Search for Man Now Missing Over Week.

Pursuant to orders from Chief of Police Lenz the work of dragging the Maumee river below the Coombs street bridge in a search for the body of Henry Neireiter, who disappeared from his home in the rear of Emmaus school, on Broadway, more than a week ago, was begun with the police boat and drag-hooks Thursday morning. Station Master Joseph Degitz, of the police department, and Lieut. Theodore Walda, of the Central fire engine house, both of whom have had much experience in recovering dead from the Fort Wayne streams, were assigned to the work. They began at the Coombs street bridge, from which it was reported a man was seen to leap into the water the evening that Neireiter left his home with the statement that he was going to the river to go seining with two men. Nick Berg, who was reported to have seen the man leap from the bridge, has told Chief Lenz there is little in the story, but to satisfy Neireiter's family and friends the search was ordered.

A large crowd gathered on the Coombs street bridge and on the adjacent river banks as soon as the police boat was put in the water. Women seemed to predominate in the crowd and some of them were ready with precise information as to just what locations were most promising for finding the body. The river has been above normal stage for some time and there is a strong current that would be likely to take a body down stream. The first search was made among the stubs of old piling left after the bridge was completed.

The river was dragged from the Coombs bridge to a point four or five squares distant below the Anthony boulevard bridge without result. The search was then abandoned about noon. It is believed if any man had jumped in the river from the Coombs street bridge the body has been carried far down stream by this time.

RIDDLE TAKES STAND IN HIS OWN DEFENSE

Lima, Ohio, June 24.—Dorrance S. Riddle, 25, took the stand in his own defense here today in the first degree murder trial for the killing of his sweetheart, Susie Coleman, 16, and told his story of the crime.

He said he met the girl accidentally on the street on the night of the killing and that she grabbed him by the arm and started walking with him. She led him to the yards of the C., H. & D. railroad, he said, and accused him of being responsible for her condition, and when he denied it she struck him. Then he said he grabbed her and choked her. He said he did not intend to kill her.

LABOR COMMITTEE TO PRESENT ARGUMENTS

An interesting meeting of the board of school trustees will be held Friday evening in the office of Superintendent J. N. Study in the old high school building, at which time a committee representing the Fort Wayne Federation of Labor will be present.

The proposition to include a commercial course in the vocational school will be taken up. The trustees favor a commercial course in the high school on a four-year-basis, while the Federation of Labor is desirous of having the commercial course in the vocational school on a two-year-basis and will present arguments to Superintendent Study why in its opinion such a course should be established.

BONDS ARE AWATING SIX INDICTED MEN

Indianapolis, Ind., June 24.—Bonds signed by a security company waited in the sheriff's office for six men who were indicted by the Marion county grand jury for conspiracy and there were seven other capiases not served early today.

In addition to the seven others who are wanted by the sheriff there are three who have been accounted for, but one whom service has not yet been completed. One hundred and twelve men have given bonds.

John Cambron, who was in jail following his arrest Tuesday, was released on a bond signed by a surety company.

TAKES OATH OF OFFICE

Lansing Now in Wilson's Cabinet as Successor of Bryan.

CHOICE PLEASES IN WASHINGTON

Foreign Diplomats Call to Extend Congratulations to New Secretary.

Washington, June 24.—The United States government today notified all foreign governments of the appointment of Robert Lansing to be secretary of state. Notice was also sent to all diplomatic and consular representatives of the United States in foreign countries.

Mr. Lansing took the oath of office today as successor to William Jennings Bryan. High officials, diplomats and close personal friends were on hand to witness the ceremony and to extend their congratulations.

Formal Announcement Made.

Formal announcement of the selection of Mr. Lansing was made by President Wilson before his departure last night for New York. Mr. Lansing has served as secretary of state ad interim since June 8, when Mr. Bryan resigned. He had been counsellor of the state department for more than a year.

One of President Wilson's last official acts before he left last night was to sign Mr. Lansing's commission giving him a recess appointment. His nomination will be sent to the senate upon the reconvening of congress. It is not believed that his confirmation will be opposed.

Washington is Pleased.

The president's action in naming Mr. Lansing for secretary of state, came in for widespreal commendation here today. In all quarters satisfaction was expressed.

The new premier of the cabinet is generally regarded as peculiarly fitted for his important post, because of his long training in the intricacies of diplomacy, his grasp of international law affairs and skill in handling them. Mr. Lansing is a recognized authority on international law and is intimately acquainted with the details of his department. He has drafted many of the most important state documents in connection with the pending negotiations with Germany and Great Britain.

Today was diplomatic day at the state department and representatives of foreign governments in Washington called to felicitate Mr. Lansing upon his appointment. He is very popular among the diplomatic corps.

LAST MINUTE NEWS

ACTION WILL THROW 150,000 OUT OF WORK

Chicago, June 24.—Taking the lead in action which it is estimated will throw 150,000 men out of employment in this city, the Edward Hines Lumber company, the largest in Chicago, announced today that on Monday it will close its twenty yards. Other building material firms, it is said, will follow this example. The crisis is due to the rejection of arbitration by the carpenters, who have been on strike for nearly two months.

GERMANS SUCCEED IN CROSSING DNIESTER

Berlin, June 24.—(Via London, 5:55 p. m.)—A further victory for the Austrian-German forces in Galicia was announced today at army headquarters. The army of Gen. Von Linginsen, which has been meeting with stubborn opposition from the Russians, along the Dniester river front, has succeeded in crossing the river.

SOLDIERS GUARD THE DANGER ZONES

Further Shocks in Imperial Valley Inflict Little Damage.

El Centro, Cal., June 24.—People of the various towns affected by a series of earthquakes during the last thirty-six hours, began today the work of reconstructing wrecked and damaged buildings, which represented a property loss of approximately $1,500,000.

At Calexico, Mexicali, Heber and in this city military rule was still in force. The streets were rapidly cleared of the debris of fallen walls and scattered glass. All of the buildings declared unsafe were roped off and soldiers kept the people out of the danger zones.

The damage in the different cities is placed as follows:

El Centro, $750,000; Calexico, $150,000; Heber, $60,000; Mexicali, $50,000. At Brawley, Holtville and other smaller towns the total damage is estimated at $200,000 more.

Two More Shocks.

Two more shocks were felt last night, following the two during the day, and those of Tuesday night. Fire broke out in three places last night, but the damage from shakes was slight. None of the issues were caused by any of the earthquakes, but the damaged buildings were twisted and crumpled.

The damage to the vast irrigation systems in the Imperial valley, which supply 400,000 acres, is considered comparatively slight and will be repaired at once.

The dead at Mexicali, number eight, four Americans and four Mexicans. The number of injured is placed at a score.

The four shocks felt yesterday occurred between four and 11:45 a. m. The quakes are attributed to disturbances at Black Butte, an extinct volcano at the head of Volcano lake. The tremors appeared to have been most severe towards the south of lower California. Volcano lake and Laguna Salada, on the south side of the Cocopah mountains, were greatly disturbed.

The levee at Volcano lake was reported safe today.

PANIC SEIZES HOTEL GUESTS.

Pasadena, Cal., June 24.—Dr. E. B. Merchant, who is here today from El Centro, told of the panic which seized the guests in the Barbara Worth hotel there when the first earthquake shock occurred Tuesday night. He clung to a pillar in the hotel lobby he said, watching scores of people fighting at the doors of the hotel for a chance to escape into the street.

After the shock had subsided he hurried to the depot to board a train.

"The first shock lasted about forty seconds," said Dr. Merchant.

"It started as a tremor, grew lighter, then increased in force. The shock broke off a piece of the fire wall which crashed through the glass roof of the court of the hotel. The second shock occurred when our train reached Imperial. The cars were shaken and another panic ensued, in which men and women flung themselves through the doors and windows in an effort to escape."

DERNBURG CALLS HIS MISSION SUCCESSFUL

Says America Has Been Given Better Understanding of German Cause.

"Some of the allies might take offense at some of my statements and interfere with my journey," he was quoted as saying. The steamer Bergensfjord, on which Dr. Dernburg was a passenger, was due to arrive in Bergen today, but a delayed dispatch from London received here last night said that the vessel had been detained at Kirkwall, Scotland, where it was understood the passengers and crew were undergoing an investigation.

The Tribune quotes Dr. Dernburg as saying that his mission in the United States though curtailed, had been successful.

"I feel that the great American public has been given a clearer and better understanding of the German cause and the German aims of this war," he added. "Germany at the beginning of the war was so isolated that the underlying motives for, and the German viewpoint of the war might never have penetrated through the circle of isolation with which our enemies have tried to surround us. If I have succeeded in presenting to the great, intelligent body of Americans the basic facts of this war as Germany sees them, and upon which her gigantic struggle is based, the main object of my mission will have been accomplished.

New York, June 24.—An interview with Dr. Bernhard Dernburg, the former German colonial secretary published by the Tribune today, was obtained here, that paper says, on June 11 under the stipulation that it should not be printed until Dr. Dernburg's arrival in Bergen, Norway.

cided. Personally I desire nothing better than to go to the front by the side of my oldest boy—a lad of 17 years, who is going to join the colors just as soon as I get back. But there may be other things for me to do."

Dr. Dernburg said that he would go immediately to Berlin and confer with government officials there. He positively denied that he would carry on any propaganda work from any of the Scandinavian countries.

CONGRATULATED BY EMPEROR.

Norfolk, Va., June 24.—Captain Thierfelder, of the German auxiliary cruiser Kron Prinz Wilhelm, interned here, has received a message of congratulation from Emperor William for his ship's exploits, according to members of the crew. The men are wearing medals received from Berlin and Captain Thierichens has been promoted several points in grade.

NOW FALLING BACK ALONG WIDE FRONT

Czar's Forces in Flight Before Victorious Austro-Germans After Fall of Lemberg

London, June 24.—The fall of Lemberg is being followed, according to Berlin advices by a general Russian retreat over a wide front. In the Lemberg district, the victorious Austro-German armies are said to be driving the Russians eastward, while to the west the armies of Emperor Nicholas are falling back from the country northwest of Przemysl, near the Russian border, and as far north as the district of Kielce, in Russian Poland, about 100 miles south of Warsaw.

The Berlin dispatch says the Russians near Lemberg kept up their resistance to the last, their line being cut in the north and finally in the center, before the city.

Hostilities are continuing with varying degrees of intensity along the whole Italian front. An official communication from Rome states the Austrian attacks at several points were repulsed. The report mentions no further advances by the Italians, except for one small gain, and apparently the invasion of Austria has been checked by the reinforcements brought in from the Galician front.

The Turkish forces in the Caucasus, which recently have undertaken a new offensive movement, are said to have won a fresh victory. An announcement from Constantinople says the Turks captured positions along a front of nearly two miles in the fighting in the direction of Olti, the Russians fleeing eastward.

Seven British fishing vessels have been sunk by a German submarine off the coast of Scotland. Most of the crews were saved.

RESISTED TO THE LAST.

Russians Fought Bravely Despite Hopeless Situation.

Berlin, June 24.—(Via London 12:20 p. m.)—Details of the taking of Lemberg, while still meagre, show that the Russian troops put up a strong resistance to the very last, and this in spite of the fact that their situation was hopeless.

Before the city fell the armies under General von Mackenzen and Archduke Joseph Ferdinand had driven wedges deep into the northern section of the Russian line, even as far as Tanew, cutting this line into two detached parts. Under pressure from the northwest, and following especially an effective artillery bombardment by the army of General Boehm-Ermolli, the archduke completed the disaster by breaking the Russian center which was supported on Lemberg. At the same time General von Mackenzen pressed steadily on the soldiers of Emperor Nicholas, who were in full retreat along the line from Lemberg to Rawa Ruska. General Boehm-Ermolli assumed the pursuit of the enemy to the northeast and east of Lemberg.

As soon as the investment of Lemberg had been completed, according to the dispatches reaching Berlin, the Russians, threatened by the further advance of the Germans and the Austro-Hungarians, also began retreating from the angle in northern Galicia formed by the rivers San and Vistula, a section of territory which lies to the northwest of Przemysl as well as from the district around Kielce, in Russian Poland, about 100 miles to the south of Warsaw.

The victorious troops of the Germanic allies were given an ovation when they entered Lemberg. The city is described as having been little damaged, with the exception of a big fire in the western part, where the Russians ignited some petroleum and benzine tanks, the railroad station and a number of adjoining factories. The city apparently had not been touched by the artillery fire of the Russians and the Austrians.

Captured officers declare that even until very recently the fall of Lemberg had not been regarded as even a remote possibility by the Russians. The fortifications of the city had been modernized by them in every way.

The loss of Lemberg deprives the Russians of their last strong supporting point on Galician soil. The moral effect of the occupation also will be considerable. It is now being recalled in Berlin that three months ago Emperor Nicholas declared that the fall of Przemysl, in connection with the occupation of Lemberg, constituted an overpowering victory for the Slavs.

STRIKE AT MANY POINTS.

Austrians Seek to Repel Invasion by Italian Forces.

Rome, June 23.—(Via Paris, June 24, 8:15 a. m.)—The official statement issued tonight at the headquarters of the general staff of the Italian army was as follows:

"Along the entire front there has been an artillery duel between pieces of heavy and medium calibre. The enemy endeavored last night to attack particularly Monte Piano, Valgrande, Valpiccolo, Cresmaverso (situated between Pizzocollina and Zeillenkofel) and Crestaverde, which had been occupied by our troops yesterday.

"During the night of June 21-22 and continuing the following day the enemy made three desperate attacks against our position at Freikofel. All these attacks were repulsed successfully by the splendid fire of our military and the use of hand grenades. The enemy left two hundred bodies on the battlefield.

"In the bay of Plezzo preparations are being made by the Austrians for the installation of heavy artillery and along the neighboring heights convoys have been seen going from Plezzo toward the upper Isonzo.

"In the Monte Nero region and along the Isonzo the day of June 22 passed quietly."

Reports show that in 1913, 117,091 parcels weighing 50,319,360 pounds were sent through the Chinese mail. Modernization of the department is progressing rapidly.

DOCTORS DISCUSS VARIOUS DISEASES

American Medical Association Resumes Its Sectional Meetings.

San Francisco, Cal., June 24.—Sectional meetings were resumed today by the American Medical association, after its open meetings yesterday, at which the public was addressed on general aspects of health conservation by some of America's foremost physicians and surgeons.

Dr. Wm. Allen Pusey, of Chicago, discussed virulent blood diseases. Despite the general belief, he said, that certain specifics conquered one of the most feared of blood diseases, he had found it to be virtually incurable. An appalling spread of this disease has taken place in the last ten years, he asserted, and he predicted that the United States, if it did not find a means of applying a check, would face a situation similar to that of Mexico, where, he said, the majority portion of the population was afflicted.

"No disease is so seriously destroying the usefulness of youths and men in any locality as the hook-worm in its ravages on the people of the south," said Dr. John A. Witherspoon, of Nashville, Tenn.

"Its spread and effects are as speedy as they are disastrous."

Tuberculosis, malaria, yellow fever, cancer, diphtheria and typhoid fever were among the diseases discussed and the public was instructed how to avoid these maladies.

KILLED IN AUTO ACCIDENT.

Traction Claim Agent Meets Death Near Ben Davis.

Indianapolis, June 24.—Joseph H. Pierson, of Valley Mills, claim agent for the T. H. I. & E. Traction company, was killed late yesterday in an automobile accident. Pierson was on his way home from Indianapolis when a mile and a half south of Ben Davis his car turned over, pinioning him beneath. He was alone and the cause of the accident is not known.

Pierson was 45. He leaves a widow and a daughter, Miss Sarah Pierson, a teacher. He was a democrat, a school mate and friend of Mayor Bell, of Indianapolis, and served one term as state representative.

MUCH DIFFERENCE ASSERTS HOLY SEE

Vatican Says Its Official Documents Alone State Position Accurately.

Rome, June 23.—(Via Paris June 24, 4:40 a. m.)—The Osservatore Romano, the official organ of the vatican, publishes the following relative to the interview attributed to Pope Benedict by Louis Latapie in La Liberte of Paris:

"To put our readers and all discerning and impartial men of all nations on guard against arbitrary interpretation of the mind of the Holy See, we are unable to let pass without remark the account of the interview of a foreign journalist with the sovereign pontiff, published and commented upon in the newspapers.

"To cut short these interpretations and commentaries we recall that there is an essential difference between the official public documents of the Holy See and private publications. As to that which concerns the European conflict, the thought of the sovereign pontiff is not doubtful because it has been clearly expressed at different times in numerous pontifical documents, namely the encyclical of Nov. 1, 1914, the Christmas discourse to cardinals, the consistorial allocution of January 22, 1915, many letters from the pontiff to cardinals and prelates and the recent letter of May 20 to Cardinal Vannutelli, head of the Sacred college.

"These official public documents reflect exactly the ideas of the pope and Holy See, who accept all responsibility. The other documents, namely private publications, and also the one discussed today, can contain and do contain in fact, a number of inaccuracies.

"Several of these inaccuracies are so evident it is useless to point them out."

SHAPLAND MANAGER NEW UNION STORE

W. B. Shapland, formerly of Kendallville, has been named as manager of the Fort Wayne Union Co-operative Department store soon to open in the Randall building on Harrison street. Mr. Shapland was in charge of a general store at Butler some years ago and later was engaged in the real estate and insurance business at Kendallville.

The first meeting of boosters was held Wednesday evening on the fifth floor of the quarters to be occupied by the new store, there being an attendance of from 600 to 750. The name of the manager was announced at that time. A meeting of the stockholders will be held next Wednesday night.

MUNCIE CASES GO OVER TO OCTOBER

Supreme Court Delays Its Ruling in Alleged Graft Cases.

Indianapolis, June 24.—Whether Judge Ellis, of the Delaware circuit court, was within his rights when he disqualified the regular prosecutor and, upon recommendation of the grand jury, appointed a special prosecutor to conduct the alleged graft cases filed against Mayor Rollin H. Bunch, of Muncie, and other officials, including a deputy prosecutor, will not be determined by the supreme court until its October term.

Attorneys appeared before the court yesterday to present their arguments, but when it was determined that they had prepared their cases in haste and could not file their briefs in time to permit the court to arrive at a decision before it adjourned tomorrow for the summer, it was decided to wait until the October term.

Twenty days are to be given for the filing of a brief by the plaintiff, then twenty days are to be allowed the defendant to file an answer and an additional ten days will be given for the filing of a reply brief. With the situation as it is in the supreme court the status of all the Muncie cases will remain unchanged until the legal question submitted is decided.

The grand jury and Judge Ellis have favored the handling of the prosecution by a special prosecutor because Prosecutor J. Frank Mann is said to have expressed the belief that his deputy, Gene Williams, is guiltless. William A. Thompson was the special prosecutor named by the court. Whether he will be permitted to carry the prosecution to a conclusion is now to be determined by the supreme court, which, under a new act, has original jurisdiction in writs of mandamus.

JEWELERS IMPOSED UPON, THEY ASSERT

Indianapolis, June 24.—The jewelry mendation of the grand jury, appointed "imposed upon" business in the world at the meeting of the Indiana Retail Jewelers' association at the Hotel Severin yesterday afternoon. It was declared that in no other business do the proprietors and employes do so much "thank you" work, and it was agreed that fees, however small, should be asked for such services as straightening eye glasses, cleaning rings, etc.

The principal address of the afternoon was by John L. Shepherd, of New York, who had for his subject, "Mutts and Ginks." These epithets he attached to jewelers who will not join their state association, and who take the attitude "peace on earth, good will toward men—with the exception of my competitors." Shepherd urged all the jewelers to work for the passage of the Stephens bill.

"The inability of the jeweler to state what his goods shall be sold for, and what his profits shall be, is one of the greatest obstacles to the trade," he said, "and another is the great mail-order houses."

Walter H. Mellor, of Michigan City, a member of the executive committee of the National Jewelers' association, spoke on "Organization," and urged the jewelers to join their state associations.

NEWS OF FORT WAYNE'S NEIGHBORS

ELKS VISIT COLUMBIA CITY.

Columbia City, Ind., June 24.—Wednesday afternoon four auto loads of men arrived in this city from South Whitley, where they gave a street parade similar to the one given here. The men were members of the Elks' lodge of Huntington and were in the city in the interest of the Huntington Elks Big Day, July 5. The men formed in line in the west end of the city and marched down Van Buren street with the Huntington Elks band playing various selections. The band boys wore purple caps and coats and white trousers. They played several pieces while in front of the court house monument, and are planning on a big day in Huntington on July 5th. The advertising caravan visited North Manchester, South Whitley and this city yesterday. The instruments used by the band were for the most part paper horns.

BOY MAY RECOVER SIGHT.

Bluffton, Ind., June 24.—Relatives and friends of Joe Cupp, aged 19, son of Otto Cupp, of Uniondale, blind in one eye since the age of twelve, are hopeful that he may receive permanent restoration of his sight from treatment which he is now receiving from a Fort Wayne specialist. He became apparently totally blind last Sunday night, while riding a bicycle from Uniondale to his home one mile south of that place. It was long after nightfall when he discovered that he could not see and had to dismount. Delmar Lockwood came along and discovered him and took him home. He lost the sight of one eye when he was struck in the eye by an arrw thrown thrown by his brother.

MONTPELIER "WETS" ORGANIZE.

Montpelier, Ind., June 24.—Montpelier "wets" are actively at work in an effort to combat the activities of the "dry" workers there. It is reported that later in the campaign the liquor forces are to bring speakers to Montpelier. Whether this is true is not known, but the "wets" are also carrying on their fight in other ways as well. Following are the names of the officers of the "wet" organization: Jack Winings, president; Walter Bonge, vice president; T. C. Peterson and Orville Pursley, secretary and treasurer. The offices of Pursley & Peterson are used, in the main, as headquarters for meetings.

BLUFFTON MAN FLIMMED.

Bluffton, Ind., June 24.—Brooks White, a clerk at the J. H. Foncannon grocery on West Washington street, was the victim today of a clever shortchange artist, who flimmed him neatly out of $10, in a transaction that occurred about noon, at the grocery. Before White realized that he had been victimized the man who short changed him and a companion had departed in a Ford automobile, in which they had driven up to the grocery, and had a start of probably fifteen minutes before White tumbled to their game and notified the officers and had them seeking to trail the two autoists.

AUTO HITS GIRL; ARM BROKEN.

Huntington, Ind., June 24.—Lucile Menson, of six miles northwest of Markle, stepped in front of her brother's automobile and sustained a broken left arm when she was thrown to the pavement. Her brother was waiting for her at the court house on Warren street. As she came up to the car her brother stopped. The girl, from accounts of those that saw her, started to get into the rear seat, but changed her mind and went around in front of the machine. Her brother evidently thinking that she had gotten into the car started to go ahead and ran the girl down.

YOUTH OF 17 IS MISSING.

Bluffton, Ind., June 24.—Charles Tschannon, aged 17, son of Fred Tschannon, living near Craigville, is missing from his home and his father is seeking a trace of him. The boy rode his motorcycle to town Saturday night and left it here, returning to his home with a neighbor. He came back to town Sunday for his motorcycle and has not been seen since, although it was learned that he had been at Fort Wayne, came back to Bluffton and started in another direction.

AUTO LINE NOW RUNNING.

Montpelier, Ind., June 24.—The automobile line, which was started between this city and Marion by William Sinclair and sons, is going nicely. The first trip to Marion was made without any trouble. The roads are in good condition and good time was made. The honor of being the first passenger on the route fell to Mrs. McIntire, who went from this city to Roll. On the first trip Mr. Sinclair used a passenger car which was followed by a combination passenger and baggage car.

FIRST SETTLED; NOW SUES.

Huntington, Ind., June 24.—Declaring that he had been duped into settling for injuries sustained when he was knocked down and seriously hurt by an automobile driven by John Roush for only $35, George G. Byram filed suit in circuit court against Mr. Roush and Sid Hall, the owner of the car, asking $1,000 damages. The complaint, which was filed by Kreig & Sapp, names Z. T. Dungan as the man who "fraudulently represented he was their (Mr. and Mrs. Byram's) friend."

BAN ON OLD TOWN PUMP.

Wabash, Ind., June 24.—The old town pump may go. This will occur if the plans of the Tri Kappa sorority are carried out and the county dads act favorably upon their petition which is being circulated throughout the county to remove the old iron pump, which for more than a quarter of a century has stood on the northwest corner of the court house lawn, and supplant it with a modern drinking fountain. The petition has almost a hundred signers.

CONFESSES OTHER THEFTS.

Van Wert, O., June 24.—Sheriff Herman Gunsett has returned from Columbus where he had taken Millard Matthews to the Ohio penitentiary to serve an indeterminate term. On the way down, Matthews told the sheriff the inside of a number of thefts that have been pulled off in Harrison township, and as a result Mr. Gunsett, accompanied by former Sheriff H. B. Wilson, made a trip to that vicinity to investigate Matthew's story.

CANCER PROVES FATAL.

Huntington, Ind., June 24.—Henry Myers, of Warren township, died at his home near the Bethesda church. At the time of his death he was 67 years old, having been born in Ohio, February 24, 1848. Death was caused by abdominal cancer. Mr. Myers was united in marriage to Mary Jane Sprinkel, of Wabash county, December 28, 1870. To this union were born nine children, of whom four died in infancy.

RETURNS TO HOSPITAL.

Columbia City, Ind., June 24.—Miss Blanche Garrison, of this city, who underwent an operation at the Lutheran hospital in Fort Wayne some weeks ago, has been again taken to the hospital by her parents, Mr. and Mrs. Zack Garrison and Dr. E. V. Nolt. She will remain there for a few days' treatment and if she does not recover as rapidly as desired may undergo another operation.

NEW FACTORY FOR GOSHEN.

Goshen, Ind., June 24.—Edward I. Pearson and Lloyd H. Holdeman, of Leipsic, O., were here conferring with members of the Commercial club relative to locating a magneto manufacturing concern in this city. They will return in a short time to make some demonstrations of an ignition apparatus which Mr. Pearson has patented and which is in great demand by many auto companies.

The New Secretary of State

President Wilson's selection of Robert Lansing as secretary of state to fill the vacancy occasioned by the resignation of Mr. Bryan at a most critical time appears to be not only an excellent one from the standpoint of qualification, but we believe it will be immensely popular with the country at large.

The country is willing to admit that it has not known a great deal of Mr. Lansing, but what it has seen it likes thoroughly. For a good many years Mr. Lansing has been quietly and efficiently doing a lot of important work for Uncle Sam. He has not been in the limelight, but his familiarity with international affairs and international law is freely acknowledged, and he is a "big" man altogether out of proportion to the minimum of attention he has attracted.

It will be noted, also, that he has been chosen without having had the backing of powerful friends or especial political support. It is clear that the president selected Mr. Lansing solely upon the basis of efficiency, and not because of his "pull" or because of the belief that any particular section of the country should be accorded "recognition" of that sort.

The premiership of the cabinet is, in many respects, next in importance to the presidency itself. Just at this time the place in invested with especially important responsibilties and a complexity of intricate problems which do not attach to it in times when the world is at peace. Mr. Lansing will have the complete confidence of not only the administration, but of the country at large. It believes he is big enough for the job, and it rather likes the way he takes hold of affairs.

The case of Charles L. Goetz, former mayor of South Bend, whose death has just occurred at Hot Springs, Ark., after an illness extending over something like a year, is another illustration of the possibilities that may be seized upon by the apt young man. It is recalled that Mr. Goetz came to South Bend on a freight train, "beating" his way with scarcely a cent on earth. Twenty-nine years later he was inaugurated mayor of the city, and had acquired a fortune in the manufacture of cigars. Long prominent in politics and frequently mentioned for the governorship of the state, it was nevertheless a disappointment in politics that is believed to have hastened his death. Surmounting many difficulties and discouragements in life for himself, he was unequal to the task of smiling under a blow to his political hopes and aspirations for another whom he desired to succeed him in the mayoralty chair.

The elimination of the grade crossing of the Goshen road and the Grand Rapids and Indiana railway, just north of Fort Wayne, which has just been ordered by the public utilities commission, will remove a danger that has been recognized for many years. The Goshen road is one of the extensively traveled highway, used by hundreds of people daily in travel to and from the city, and the possibility of accident at the crossing is always acute. The grade separation will be worth all it may cost to both the county and the railroad in removing the liability to fatality at a most dangerous point.

Arguing in Washington over the proposed freight rate advances asked by western railroads, the attorneys have reached the issue as to who really pays the freight on grain—the farmer or the consumer, and the verbal contest seems likely to result in a tie. Neither side is disposed to yield a point beyond the reluctant admission that the railroad doesn't pay it.

An Indianapolis man was held prisoner in a telephone booth at Winona Lake for two hours because the self-locking door of the cabinet insisted on working overtime. The really interesting part of the incident, however, is whether or not the toll operator charged him up for the entire time the booth was occupied.

A good many of those young fellows you now see hustling along the street looking worried are doubtless from the new crop of college graduates seeking business men who are eager to award jobs to persons who ran 100 yards in ten seconds and jumped six feet two inches over a pole.

Harry Thaw has now gone on the witness stand in his own behalf and admitted that he is sane. And Mr. Thaw is clearly of the opinion that that ought to settle the thing without further unnecessary fooling with the testimony of the learned and bespectacled alienists.

SEEKING SOLACE, WOMAN RISKS LIFE IN PHILIPPINE JUNGLE.

Mrs. T. B. McClintic and daughter, Thomasia.

San Francisco, June 22.—After many exciting adventures in the southern portion of the Philippine islands, where she sought solace following the death of her husband, Mrs. T. B. McClintic, who before her marriage three years ago was prominent in Washington social circles, is in San Francisco today. Accompanied by her small daughter, Thomasia, she arrived on the steamer Mongolia.

Mrs. McClintic, who is the daughter of the late Charles F. Drexel, of Washington, early in 1912 married Dr. Thomas B. McClintic, of the United States public health service, who was one of the foremost experts in the treatment of fevers in this country. Her married life was brief. Two months after the wedding Dr. McClintic went to Montana to combat an epidemic of Rocky Mountain spotted fever and himself fell a victim to the malady and died. A year later Mrs. McClintic told her friends she would seek to forget in another country and left for the Philippines, where her brother is president of a bank.

During her stay Mrs. McClintic visited many of the wildest and most inaccessible points in the islands—places that no white woman had seen before. Many of her trips were by mule back.

"Most of the time I was on the islands of Mindanao and Jolo," said Mrs. McClintic, "but I also visited several of the smaller islands of the group where there are no white settlements.

"A good many advised me repeatedly that I was going into danger, but I never got into any serious difficulties. I think I saw the most primitive natives in the islands but they never molested me. The only way to describe the 'expedition' is that they were interesting."

TO DECIDE A CHILD'S FUTURE.

(Indianapolis News.)

Science progresses. Dr. Marion Pritchard von David, of Boston, has perfected a machine that determines the vocational tendency of a child. Potential doctors, lawyers, merchants, bankers, artists need lose no time hereafter in finding themselves. The machine does that for them. The child merely plunges his hands into cups of mercury, answers a few questions and rises from the test to receive a curve map showing irrefutably the sort of work toward which his entire system tends. He can not deceive the machine and the machine cannot deceive him. He may be satisfied or not, but his destiny is disclosed; he knows what he ought to do.

Harassed parents, confronted by doubts and perplexities as to a suitable career for eldest or youngest, boy or girl, will greet the new apparatus with delight. To them its value, if only for the relief it may afford, is incalculable. It relieves them of a tremendous weight of responsibility. It puts an end, moreover, to family disputes having source in the choice of a lifework for either son or daughter. There will be no denying the verdict of the machine. The world, too, will be better off for the invention, for, while it operates, there will be no misfits in business or professional life, no discontent, no regrets—nothing, in short, except blissful satisfaction in doing the work that one is by nature and inclination best qualified to do. Chance is eliminated; error descends to the irreducible minimum.

Still, though by no means intending to be discouraging, we wonder whether this machine, even granting it is everything claimed for it, will prove successful. Is it not, after all, contrary to human nature? May not Johnny, determined to become a circus bareback rider, rebel violently against the general perversity of things inanimate when the apparatus informs him that he ought to be a missionary to China? And what will fond and proud father have to say when, after building up a big business for his only son to take over and build bigger, the offspring dips his fingers into the mercury cups only to learn that nature has cut him out to be an imagist poet? We fancy that in such instances—which are the rule, in one form or another—the machine will not prevail. Things, in other words, will go on very much as they go on at present. Youth will find its way and find itself as it does now—by the general sifting, settling process of experience.

THAT JOLIET TRAGEDY.

(Grand Rapids Press.)

Joliet prison, which is to Illinois what the prison at Jackson is to Michigan, enjoyed the honor rule. The warden's wife is dead and her body scorched and mutilated as the result of a diabolical crime, in connection with which several trusties have been incarcerated pending investigation.

The conclusion of the average man would be that the system is a fizzle. That is also the conclusion of the 1,800 prisoners who, enraged at the atrocious crime and at the prospect of losing their privileges as the result of one man's refusal to "play the game on the square," sought to lynch the chief suspect.

Not so the warden. Bereaved and heartbroken the man declares his continued belief in the plan of placing committed men on their honor. Because his wife has been killed by a friend he is not willing to admit that all the constructive work they did together for the inmates during two years of "honor rule" penology has been so much wasted time. Even in his hour of direst trial continued faith in human nature comes to the rescue of Warden Allen. There speaks a man.

RIP VAN WINKLE WINS.

Mock Trial is Held by Sons of Veterans Wednesday Evening.

Rip Van Winkle was awarded damages in the sum of $5,000 at the mock trial conducted Wednesday evening by Captain James B. White camp, Sons of Veterans, in the G. A. R. hall in the Lincoln Life building. Attorney Frank Emrick presided as judge, with Attorneys Louis Crosby and David Hogg as opposing counsel. C. P. Josse and T. W. Blair acted as assistant counsel.

The title of the case was Rip Van Winkle vs. Herman Winkelmeyer, a criminal action involving the charge of putting knockout drops into the jug from which Rip drank and was put to sleep for twenty years. There was also a suit for damages involved in which Winkelmeyer, the saloonkeeper, was sued for $20,000 for being the cause of Rip's downfall.

Winkelmeyer turned out to be W. F. Geller, while Cyril Chandler played the part of Rip. Frank Chalfant took the part of Dr. George Washington, etc., Gugo, the celebrated druggist. Both sides pleaded their case most eloquently and forcefully and it was some little time before the jury could determine upon an equitable verdict. Finally, however, they found for poor Rip, awarding him damages in the sum of $5,000.

Music was furnished by Miss Elsie Josse and Aaron Huguenard, pianists.

Goodyear Fortified Tires
Cost Users $5,000,000 Less

Our last price reduction—made February 1st—will save Goodyear users about five million dollars this year. And that was our third reduction in two years, totaling 45 per cent.

Yet Note This

Yet Goodyear Fortified Tires embody many extras. Five are costly features found in no other tire. The rest are found in few.

If we omitted those extras, we could save on this year's probable output $1,635,000. We could add that to our profits, yet Goodyear tires would look as good as now.

This year's improvements alone will cost us $500,000 this year. All to give you extra wear. And we shall spend $100,000 on research this year to find more improvements still.

They Are Yours

These extras belong to you. They mean less rim-cuts, less blowouts, less loose treads. They mean more rubber, more fabric, more mileage, less trouble. Most tire users know that, so Goodyear tires far outsell any other.

Prove it yourself this summer. It will bring you tire contentment.

Any dealer, if you ask him, will supply you Goodyear tires. Men are now adopting Goodyear tires faster than we can supply them. We have never seen anything like it.

Purpose of Flood Prevention Petitions

Some Fort Wayne citizens have suggested that unless the exact methods to be employed to obtain relief from flood waters are outlined by the leaders of the movement it will be difficult, if not impossible, to procure the required number of signatures to the petitions. It is pointed out that there are many taxpayers who will not support the project unless the particular method they favor is adopted. A moment of reflection will convince any person that the leaders, were they so disposed, could not indicate positively what plan will be followed. Reasons why they could not are plentiful and obvious. The very reason for the creation of a flood prevention board is to delegate authority for a comprehensive investigation to determine what method or methods will be the most effective, yet the most economical, to accomplish the end in view. Before the board can decide upon a plan it will be necessary for them to employ competent engineers who will study the flood problem as it affects the whole county and evolve a method which will solve it. Until the petitions are properly signed there is no body vested with authority or means to make such an investigation that is necessary before a definite plan can be outlined. The gentlemen who will comprise the board do not pretend to know just what plan will best dispose of the difficulty at the least possible expense. That is the big and intricate problem which must be worked out after a body commissioned to deal with the matter comes into official existence. The all-important feature of the flood prevention movement at this time is the signing of petitions. After that is done the responsibility will shift to the joint board. Boost the interests of yourself and the community by signing the petition.

SUMMER SCHOOL OF MISSIONS UNDER WAY

Daily Sessions to Be Held for Entire Week at Winona Lake.

Winona Lake, Ind., June 24.—The eleventh annual session of the Summer School of Missions convened here yesterday. Meetings will be held every day and evening for a week. The school is held under the auspices of the interdenominational committee of the central west for missions, and represents the women's boards of missions of seventeen denominations. About five hundred delegates are expected. The principal speakers will be Mrs. D. B. Wells, of Chicago; Mrs. J. F. Fisher, of Cleveland; Miss Angy Manning Taylor, of the Moody Bible institute, Chicago; Miss Ruth Shipley, of Wyoming, Ohio; Mrs. Abbie H. J. Upham and Miss Elizabeth I. Cameron. There will be a number of returned foreign missionaries at this school and they will take part in the meetings. Mrs. Winifred Wirtz Dague, a gifted leader of song, will direct the music.

Miss Elinor J. Atkinson, of Indianapolis, has opened the Swiss Terrace hotel, and will have charge of it during the season. This hotel is one of the headquarters for the school of mission delegates.

Capt. George Reddick, of Faribaut, Minn., is on the grounds. He has opened up his cottage, the Tippecanoe, and he will be superintendent of admissions, as in former years.

Dr. Chas. Little and wife of Wabash returned to their home yesterday, after having spent a few days at the park.

The bowling alley will be under the management of Sam Graves this summer. The premises have been renovated and made attractive and Sam says his place of business will be the magnetic spot of Winona this season.

James Fristoe and family, of Decatur, are at home in their Winona cottage, the Frisleod, on Park avenue.

Miss Nelle Stuart has opened Bethany lodge and will be the matron of this building, which is used for a Bethany dormitory during the coming season.

No sooner had Captain Pine arrived at Winona than there were evidences on every hand of his artistic work. The bathing pier has been transformed into a miniature world's exposition. The pier is decorated from one end to the other with graceful banisters of stucco material. At the extreme end is a magnificent column surmounted by an American eagle. From the beak of the eagle floats a large Winona pennant, which is surrounded by electric lights. At the middle of the pier the captain has constructed a monstrous lion. Other embellishments on the pier and about the bathing house suggest the presence of the man who in former years created the scenic displays for the Winona venetian night.

Trustee Lloyd D. Claycombe is known to be the moving force back of the extensive improvements that are going on throughout the park, and visitors will be agreeably surprised when they arrive within the gates this year.

Mrs. Lincoln G. Dickey, who has been in the south for several weeks, traveling with Mr. Dickey on his Redpath circuit itinerary, has returned to her home at Winona. Prof. E. O. Excell has announced that Mrs. Dickey will be his principal solo singer for the coming season.

W. P. Carmichael and family have leased the Sunshine cottage on the island and are now occupying it.

Carl Beyer has resumed his old position of superintendent of the park. He has a force of workmen now engaged in building the platform for the Hiawatha Indian performance. Carl is a man of exceptional judgment in such work as will be his this summer. He studies to accommodate the people, while at the same time he carries on the general work pertaining to the park management.

Willis Melching and family, of Ossian, are visiting with Marshall R. A. Hatfield.

Evangelist Milford H. Lyon has closed his meeting at Terre Haute and is taking a week's rest at his home in Winona.

SUFFER FRIGHTFUL LOSSES.

Few of Princess Pat's Canadian Regiment Have Escaped Death.

Ottawa, Ont., June 24.—How the regiment of the Princess Patricia's Canadian light infantry suffered tremendous losses and was all but wiped out in the Ypres-St. Eloi Salient, is described at great length in an eye-witness account from Sir Max Aitken, the Canadian record officer, cabled to the military department here last night by the war office in London.

Sir Max Aitken recounts the activities of the regiment from Sunday, August 23, 1914, when it left Ottawa.

"Few indeed, are left of the men," the Canadian record officer says, "who met in Lansdown park, Ottawa, to receive the regimental colors nearly a year ago."

Wyatt—Steinbacher.

Miss May Esther Steinbacher, daughter of Mr. and Mrs. John Steinbacher, and Mr. Clarence Wyatt, son of Mrs. Mary Wyatt, were married at St. Patrick's church on Wednesday morning, by Rev. J. F. Delaney. A cousin of the bride, Miss Edith Diebold, of Arcola, and Mr. William Steinbacher, a brother to the bride, were bridesmaid and groomsman. The bride was gowned in a white crepe de meteor made with trimmings of chiffon and a bolero of lace. She wore a veil with a wreath of swansonia holding it to her hair. The bride carried a white prayerbook with marker of ribbon and swansonia. The bridesmaid wore a pale green silk trimmed with lace and velvet ribbon and a hat of white chiffon trimmed in pink roses. A bouquet of pink roses were the bridesmaid's flowers. After the church service the wedding party were served a breakfast at the home of the bride's parents, 418 West Creighton avenue. Covers were laid for twenty. The bride and groom are taking a short trip and will be at home as soon as they return in a newly furnished residence at 459 St. Martin's street. The groom is a machinist.

Miss Sander's Pupils Play.

The following pupils of Miss Emma Sander, appeared in one of two recitals in Elks' hall, one on Tuesday evening and the other on Wednesday afternoon, to admiring audiences of friends and relatives of the children. There were a number of performers who manifested much natural musical feeling and ability to learn quickly that contributed to the success of their playing and everyone did as well as he or she knew how, which always counts for much. Mr. Simon, violinist, pupil of Mr. Bouillett, played violin obligatos to two of the piano numbers and Miss Ottilia Sander and Miss Miller did the most advanced work of the program. Those who took part Tuesday evening were Misses Billman, Higgins, Schaper, Katherine Myers, Bicknes, Lucas, Kanning, Audrey Stickley, Hollopeter, Miller, Heine, Randall, Koehlinger, Powell, Roussey, Mrs. Long, Mrs. R. Koerber, Alice Rabus, Francis Quidor, Emma Oetting and Esther Ortlieb played the sextette from "Lucia." On Wednesday afternoon the children who played were Melville Blaising, Hilda Auman, Norman Briggs, Kathleen Nelson, Blanche Romy, Helen Crum, Audrey Zeddis, Loretta Kickley, Alma Schele, Helen Mikesell, Margareth Heine, Robert Koerber, Olga Myers, Audrey Stickley, Elizabeth Powell, Sarah Grace Randall, Lola Billaman, Trilby Miller.

FINE PROGRAM AT ELKS' HALL.

Recital of Advanced Students Assisted by Bailhe-Stoeber Trio.

Advanced students and faculty members of the European School of Music, assisted at the close of their part of the program by the Bailhe-Stoeber Trio, gave a splendid program Wednesday evening in Elks' hall. Numbers for voice by Miss Pauline Heckman and Miss Marjorie Dailey, for the violin by Miss Georgette Bonelli, Miss Lillian Good, Miss Eunice Renner, Miss Clara Lange, Miss Christine Pepe and Charles Thornberg for the cello by Mario Mauri and for the piano by Henrietta Wasman, Jane Anderson, Mable Hiser and Helene Spindler, were all evidences of most thorough preparation in the direction of genuine musicianship. There was no sloppy work, in the way of blurred technique, inderterminate handling of chords, irregular and shallow tones on any instrument. Not every violin performer kept always to perfect pitch nor did all piano pupils always obtain the perfectly rounded and deep tone that the most of their work displayed. But there was in every instance evidence of clear thinking and a knowing how to do. The entire program was more than creditable. In the case of Miss Christine Pepe, for instance, there was a marked improvement in tone work. The St. Saens prelude with its long sustained legato melody was far more difficult to Miss Pepe than something with many runs, thrills, etc., and it did her friends good to hear her. All the singing was very good. Miss Heckman is from Decatur and her voice is pleasing and promising. Miss Dailey's attractive stage presence and sweet voice brought her an encore. Miss Lange showed marked improvement in violin work while young Mr. Alexander, whose talent has been in evidence for two years only, is doing fine work and continuing to progress in every way. Miss Good, Miss Renner and little Georgette Bonelli are other less advanced but musical and intelligent violin pupils. Miss Jane Anderson did beautiful piano work and won praise on all sides by her rendition of Chopin's first ballade. Miss Wasman played a Beethoven sonate very well. Miss Mamel Hiser, a teacher at the school, played an exacting and difficult technical number, and displayed a very well developed technique of wrist, arm and hand. Her runs were as clear as those of an artist. Miss Helene Spindler played the Moszkowski concert waltz in splendid style from every viewpoint of pianoforte accomplishment. A brilliance of execution and a rhythmic grace of expression in bringing out charming melody of the work were noted characters of Miss Spindler's playing. The audience was delighted with her performance. The Bailhe-Stoeber Trio closed the program by playing the extase by Ganne and the air de ballet by Chaminade, both of which were entirely artistic.

MADAME SCHUMANN-HEINK'S ADVICE TO JUNE BRIDES.

"Can You Do What You Contract to Do When You Marry the Man of Your Choice?" Asks Most Beloved Singer.

The Famous Diva.

"Why do you 'pick on me?'" says the bride of June, with her cherry lips pursed up in a pout. "Does a successful marriage depend upon me entirely?"

"No, my dear child, the dearest chap in the world also needs to improve much before a perfect marriage (which is a heavenly state) can be attained. But to you I am dictating these articles."

Can you do what you contract to do when you marry the man of your choice?

Remember, if he fails in his part and does not support you, you have redress; according to law you can get a divorce for non-support, but if you do not spend judiciously the money that he earns, if you know nothing of the real duties of home-making and are careless; if you neglect through selfishness or want of knowledge the children that are born to you—he can do nothing. He can only grit his teeth and make the most of a bad bargain.

It is perhaps a most unpopular thing to say the truth—is usually unpopular—but it is, nevertheless, a fact that there are things more conductive to a happy marriage than love—respect, comradeship, friendliness, knowledge and acceptance of responsibility, trust, loyalty, forbearance, understanding, justice, self-sacrifice these are very necessary if you would carry out your part of the marriage contract.

And if to these you can add love with all its rapture, all its tenderness, all its unspeakable joy—then marriage will for you mean happiness that is rarely found on this somewhat unsatisfactory planet. **(Another Schumann-Heink Article Tomorrow.)**

AT THE TEMPLE.

DUTY OR SELF INDULGENCE?

"The Third Degree" Hinges on Which a Woman Will Choose.

A conscience fully alive to its mission lashing her on to make a clean breast of the part she played in the suicide and self indulgence binding and gagging her into silence, Mrs. Howard Jeffries, sr., (Miss Alma Powell) the young stepmother of the youth wrongfully accused of murder in the Klein drama, "The Third Degree," which is being presented at the Temple by the Paycen Stock players, furnishes one of the interesting studies of this soul wringing drama.

The Paycen players are making a decided hit in Fort Wayne. W. B. Merrill whose life practically has been spent in theaters and who for several years handled a stock company in a big Pittsburg house, is particularly enthusiastic over the Paycen Players. "I've seen many a stock company in the cities, handled some myself in my twenty odd years in the theatrical business, and I remove my hat and make my best salaam to the Paycen Players. They are the best combination I ever saw," Mr. Merrill said.

AT THE JEFFERSON.

"HYPOCRITES" AN ALLEGORY.

Paramount Drama at Jefferson Adopts Popular Style in Unusual Way.

The success of the allegorical drama upon the legitimate stage has prompted Lois Weber, one of the most efficient motion picture scenario writers in the world to adapt this popular form of dramatic expression to the screen, taking full advantage of those broader limitations made possible by the widened scope of the picture drama. In writing her epochal allegory, "Hypocrites," Miss Weber has departed somewhat from conventional lines, and instead of using symbolical figures like Intoxication, Fraility, Youth, etc., as in the stage success, "Experience," she uses her symbolic figures as expression of more spiritual motifs, centralizing the action of the drama around the character of "The Naked Truth." This role is given a most poetic interpretation by Marguerite Edwards, who has braved the criticism of the prudish element by appearing nude during the progression of the story.

EMBROIDERY FOR THE YOUNGSTERS

ORIGINAL DESIGNS

Boy's Dombey Suit

By Madame Jean

THE best possible finish the proud mother can give her boy's suit— for the little fellows who are hovering between school age and babyhood—is hand embroidery.

The Dombey suit, a combination of shirt and trousers, usually fashioned of two shades, the waist white and the trousers of a contrasting color is especially adaptable to handwork treatment. Take a suit, for instance, of two shades of linen, the waist of white and the trousers of brown. The collar and cuffs are worked in brown of the padded design. Sometimes scallops are used for finishing the edges, sometimes the rolling edge is finished with a border of plain buttonholing.

Worn with white socks with a brown top and low shoes of either white buckskin or russet leather and a Milan hat, the small boy presents a picture which will be widely admired and approved for good taste and judgment.

(The above designs and more than 400 other transfer patterns from The World Famous Embroidery Outfit, with a complete equipment to make them, including hoops, needles, bodkins, stiletto and booklet, telling how to make all the stitches, can be secured from this paper at the nominal cost of 48 cents (7 cents extra for postage with mail orders) by clipping one Embroidery Coupon from this paper, coupon appearing in the paper every day.)

CITY MOTHERS' BUREAU—CONFIDENTIAL ORGANIZATION FOR CITY'S WOMEN.

MRS. ALETHA GILBERT.

Los Angeles, Cal., June 22.—It remains to this city to have started a new civic betterment ball rolling in the establishment of a City's Mothers' Bureau.

The object of this organization is to prevent delinquency and protect dependents.

The city mother in chief, the first of her kind in the country, is Mrs. Aletha Gilbert, who has served, previously, as a police woman for years.

She is officially appointed by the chief of police and approved by the police commission and city council. She has an advisory board of eleven well known women who serve without pay.

This advisory board is called the City Mothers' Bureau, and while it is a branch of the police department, clothed with police authority, its offices are located away from the depressing atmosphere and environment of the police station.

It is a haven for troubled mothers and erring or ignorant girls who need advice or police protection.

The bureau is strictly confidential and does away with women having to face a morbid, curious crowd and the fear of publicity.

First offenses are reported to the home instead of the court. The conditions of wayward girls are bettered by placing them in private homes. Employment is found for those who wish it.

One of the greatest accomplishments of the organization which is just in its infancy now, is the establishing of a series of municipal dances given under the auspices of the bureau and chaperoned by the city mothers.

These affairs have caught the public fancy and apparently filled a long standing want, for the dancing parties held every Saturday night in the centrally located hall, are largely attended.

The next step will be to erect a free municipal amusement hall. Plans are being made to build an industrial school where young girls who are dependent, through neglect of parents, or who are without parents, can be taught to be self-supporting and take up any vocation to which they may aspire.

This place is intended to be a shelter, also, for the girl who has taken her first step in the wrong direction, but who is not really bad at heart. Mrs. Gilbert, who is a wonderful woman for the difficult position allotted to her, says she believes that the money for this school will be forthcoming when the scope and intent of the work of the City Mothers' Bureau is fully appreciated and understood.

"No definite limits are placed upon our activities," she says. "Our work extends along very broad lines. Where we see that conditions can be improved by a city ordinance, or a nuisance abated, we have been very successful in getting the city fathers to cooperate with us."

SPENDS DAY WITH HOUSE

(Continued from Page 1).

vine covered pergola where they entered and sat down.

During the stroll through the sunshine, the president and his host appeared to be engrossed in their discussion. The president asked many questions and listened in silence for long periods to Col. House's replies. No part of their conversation was divulged but it was generally known to members of the president's party that the topics were the European war and its developments, the attitude of foreign governments toward the United States, how the masses of the warring nations regarded the struggle and the prospects for peace.

What He Had to Tell.

What Col. House had to tell the president was gained from a trip started January 30, when he sailed from New York, and ended with his return here June 15, from Liverpool. During his stay abroad, Col. House visited Sir Edward Grey, the British minister of foreign affairs at London, and after a month's stay in London, departed for Paris, where it was reported he delivered a letter from President Wilson to President Poincare, of France. From Paris Col. House went to Berlin. He was received there by Ambassador Gerard and after a two weeks' stay called on the German imperial chancellor, Von Bethmann Hollweg. He then returned to Paris and later went to London. During his trip abroad it was several times reported that he was acting as President Wilson's personal emissary, but was denied both by the president and Col. House.

It was recalled, in connection with the president's visit today that he had conferred with Col. House before the Mexican crisis of 1914. The information placed before the president by Col. House then was believed to have been considered carefully by the president in formulating his policy toward Mexico.

Visit Bryant Home.

Shortly before luncheon the president and Col. House, their arms linked, took a walk over the country road for a mile to the home of Harold Godwin, a personal friend of both, whose house was once occupied by William Cullen Bryant. The president was shown over the house. During the better part of their walk the president and Colonel House apparently were engaged in serious conversation. The afternoon was to be devoted to a resumption of the conference, varied by an hour or so of the president's favorite pastime, golf, or an automobile trip over the Long Island roads. Tonight the president was to resume his trip to Cornish.

Dr. Cary T. Grayson, the president's naval aide, accompanied him. Miss Margaret Wilson, his daughter, who was in New York, expected to join him at Roslyn later in the day.

BOYS JUMPING WAGONS KILLED

(Continued from Page 1).

are assisting the coroner in the investigation.

The Auer Accident.

Shortly before 7 o'clock the accident occurred that resulted in the death of Johnnie Auer, 8-year-old son of Mrs. Charles Lenz, 1433 Broadway, when he was crushed under the wheels of a wagon belonging to the Kaough Coal company that was being towed behind another wagon at Broadway and Wilt streets. The youngster's neck was broken and head crushed, death, it is believed, being almost instantaneous.

Nosh Runnion, 1529 Franklin avenue, was the driver of the team and seated with him was Bruce Wachter, 1320 Marion street, his helper. They did not know that an accident had occurred until they were about seventy feet from the corner. Their attention was called to the boy by Eldon Leo Scott, a neighbor and playmate of the victim, who with the Auer boy's little six-year-old brother, was standing on the sidewalk.

A Morbid Crowd.

The body was picked up and placed in the rear seat of an automobile that had stopped in front of the residence of Dr. F. J. Schulz, and some one spread a blanket over it. In the course of five minutes a crowd of a thousand people had gathered, and traffic on Broadway was completely tied up.

Women with babies in their arms pushed against the side of the automobile bearing the broken little body, and lifted the coverlet that their own children should miss none of the details of the horror. The police surrounded the machine and although an occasional person broke through and peered at the body, the morbid crowd was kept a distance back.

Coroner Edward Kruse arrived within five minutes after the accident occurred and ordered the body removed to the Klachn and Melching morgue.

Sister Died Recently.

Johnny Auer's year-old half sister died three months ago, and his father was killed on the Pennsylvania company seven years ago. One brother, the mother and the step-father, Charles Lenz, of the Electric works, survive.

Eldon Leo Scott and Johnny Auer were playing on the sidewalk together with Johnny's younger brother. The Scott youngster, who lives two doors from the Lenz home, rubbed his tear-reddened eyes and told of the accident.

"A Good Hop."

"We were playing on the sidewalk, the three of us," he said, "and Johnny saw the wagons coming. He said, 'Oh, there's a good hop,' and ran out in the street and climbed on in front of the second wagon. Then something broke and the front wheel runned over his head. I started to run over to him and he said "Help" very weak, and then the other wheel runned over him and he was quiet. He got whipped once for hopping wagons, and so did I."

Inquest at 4 O'Clock.

Coroner Kruse will hold an inquest at 4 o'clock Thursday afternoon over the body of the Lahey boy and will be assisted in the questioning by Prosecutor H. H. Hilgemann. The inquest over the body of the Auer boy will be held Friday afternoon.

A large number of witnesses have been subpoenaed for both inquests. From the evidence gathered up to the present time the coroner is of the opinion that both accidents were unavoidable. A report that the Wilding machine had skidded fifty-one feet was thoroughly investigated, but no evidence could be found that such was the case.

GERMANS TO FOLLOW UP LEMBERG VICTORY

day. The French were the objects of vigorous counter-attacks by the Germans who are seeking to recover the positions lost by them in the month of June. Each side reports slight advances but the relative positions have been little changed.

The lack of naval news of the last few days has been relieved by the admiralty announcement that the armored cruiser Roxburgh torpedoed in the North Sea, was so little damaged that she was able to proceed under her own steam.

HAVEN'T ASKED FOR PEACE.

No Hostile Government Has Made Request, Says Berlin.

Berlin June 24.—(By Wireless to Sayville—The Overseas News agency today gave out the following:

"The official Nord Deutsche Allgemeine Zeitung declares that, notwithstanding reports to the contrary, during the whole war no hostile government has approached Germany, directly or indirectly with peace offers.

"The imperial government knows nothing of the readiness of hostile government to make peace.

"In political circles the fall of Lemberg is considered a crushing defeat, morally and politically for Pan-Slavism. Whether it will result in the breaking down of Russia's military operations is questionable. The Russians probably will attempt to concentrate fresh forces behind another line of defense further back.

"Lemberg suffered little damage. The only harm done by the Russians when they withdrew from the city was to set fire to large tanks containing naphtha and benzine.

"In Vienna the whole population turned out to celebrate the victory. The venerable emperor was cheered loudly as he drove to the cathedral to attend a thanksgiving service. Later he received a delegation representing the nobility of Galicia, which extended congratulations.

"In Munich there was a great public celebration. In the square before the city hall the mayor addressed a crowd, which paraded in front of the castle. The queen and princesses appeared on the balcony.

"Reports from the front say that at noon Monday, Austrian troops solemnly entered Lemberg amidst the enthusiasm of the people, who gave the soldiers flowers and refreshments. The Russian general staff reported officially that on that same day there was shell fire in the direction of Lemberg.

"A message from Vienna says Emperor Joseph received the Spanish ambassador, who delivered a cordial autograph letter from King Alfonso."

Official report from Berlin and Vienna announcing the fall of Lemberg fixed the date as Tuesday, June 22.

TRACING BOMB LEFT AT CARNEGIE'S HOME

New York, June 24.—Acting Captain Tunney, of the detective bureau, announced today that a large squad of detectives is working throughout the city in an effort to trace back to its maker, the bomb found last night inside the iron railing on the grounds of Andrew Carnegie's Fifth avenue home.

Certain brand markings on the three sticks of dynamite which were bound together and formed the bomb gave promise that it would not be difficult to trace the explosive. The dynamite, to which was attached a fuse that had been lighted but had gone out, was found last night by servants. During Mr. Carnegie's absence from town at Bar Harbor, Maine, the house has been left in their care.

TWO HELD WITHOUT BAIL.

Fire Insurance Promoters Under Arrest at Gary.

Gary, Ind., June 24.—John H. Lucas and Charles Russell, of Chicago, fire insurance promoters, were arrested here yesterday and held without bail pending arrival of postoffice inspectors from Cincinnati.

Records seized showed companies promoted by the men have issued 1,100 policies covering risks of about $3,000,000. The police say letters demanding payment for fire losses were among the effects seized. Illinois, Indiana and many southern states furnished policy holders. Lucas says the companies are co-operative.

A lady who bought one of our $5.00 wash suits yesterday for $1.50, said to the clerk: "This is surely the store that does things."

ASKS RECEIVER TO HELP RUN SALOON

Partner in New Haven Enterprise Finds Self in Bad Way.

Edward L. Girardot, a partner in the saloon of Girardot & Johns, at New Haven, has asked the superior court to appoint a receiver for his business associate, Joseph J. Johns, with directions to come into the place and help run it. The suit is for the appointment of a receiver and dissolution of partnership and it makes Joseph J. Johns, William L. Meyer and Amiel C. Gladieux, sheriff of Allen county, defendants. Meyer sued Johns and got a judgment against Johns' interest in the business, which he will sell to satisfy the judgment if not interfered with. Girardot says the business is suffering from the litigation and wants to unload Johns as a partner and have his share in the business sold and his interest in the license transferred.

Notes of the Courts.

In the suit of the J. W. Butler Paper company, of Chicago, vs. the Indiana Printing company, of Fort Wayne, J. M. Rothschild has petitioned the superior court for an order upon the receiver of the defendant company to employ an accountant to audit the books of the concern.

The suit of Archie Reynolds vs. the Berghoff Brewing association has been dismissed from the superior court.

The appellate court of Indiana has denied a rehearing to the appellants in the suit of Hanna Pottlitzer, et al., vs. the Citizens' Trust company, of Fort Wayne, a cause that was tried in the Allen superior court and appealed to the higher tribunal.

The circuit court jury that has heard the testimony in the suit of Esther A. Smith against the city of Fort Wayne for damages for personal injuries received because of a defective sidewalk, retired at 2 o'clock Thursday afternoon.

Judgment for $996 was given the plaintiff by the superior court in the suit of M. C. Smith vs. the Hampton Stock Farm company, in an action for garnishment.

WILL INSPECT THE COUNTY FARM.

Amos W. Butler, secretary of the state board of charities and corrections, and Dr. J. N. Hurty, secretary of the state board of health will come to Fort Wayne Friday morning to inspect the new Allen county farm and the institutions already established upon it. Accompanied by County Auditor Johnson, who has made the arrangements for the trip, Judge John W. Eggeman, of the circuit court, the members of the board of county commissioners and the county council, the visitors will leave at 10 o'clock for the farm. The recently established home for boys and girls and the colony for the tuberculosis patients will be the special objects of the visit. Upon the recommendations of the visiting officials will largely depend, it is believed, the early provision of suitable buildings for both institutions, which are now quartered in farm houses that were acquired with the land of the new county farm eight miles north of Fort Wayne.

JOHNSON HAS A NAROW ESCAPE

Interurban Car Hits Auto Driven by Poor Farm Superintendent.

W. H. Johnson, superintendent of the Allen County Poor farm miraculously escaped serious injury and possibly a sudden death at 1:45 o'clock Thursday afternoon when the 2 o'clock limited interurban of the Bluffton division of the Fort Wayne and Northern Indiana Traction company struck his automobile reducing the rear end to splinters and hurling it aside in a deep ditch.

Mr. Johnson was just leaving the institution and had nearly gotten across the tracks when the heavy interurban car struck the back of the machine and threw it a distance of twenty feet beside the road. Luckily no one was in the rear seat and Mr. Johnson, who was the only occupant, clung to the steering wheel and suffered nothing more than a few very slight bruises.

The interurban car stopped and when the men in charge saw that no one was hurt they proceeded to the city. The auto is damaged beyond repair the only thing remaining is the engine, one wheel and the fore part of the body.

NO BAD WORDS WERE USED COURT FINDS

A dispute over a line fence was aired in the court of Justice of the Peace Henry J. Grabner Thursday when Charles Fletter was tried on the charge of profanity preferred by his next door neighbor, Mrs. Mary Grimm.

Mrs. Grimm and Fletter have lived on adjoining lots on Hale avenue for a number of years. On June 4 Fletter went out to measure the posts and the ground preparatory to erecting a new fence, when, according to the testimony, Mrs. Grimm came out and ordered him to quit. But Fletter didn't quit. Instead, he kept singing while Mrs. Grimm kept talking. Mrs. Grimm alleges that he called her a vile name, but six other witnesses testified that no profanity was used, with the result that the court found Fletter not guilty.

OSBORNE BREAKS IN EIGHTH AND LOSES

Six Runs Pile Up Against the Big Fellow in One Inning.

Wheeling, W. Va., June 24.—Arch Osborne, whose portside paddle has broken up the hitting streaks of a score of Central leaguers in the past couple of weeks, spent seven and one-quarter remarkable innings on the mound for Fort Wayne. Then the Smokes got to him and before he could recover consciousness six runs had piled up in the frame.

Scoreless and almost hitless up till the sixth, both teams worked furiously and in that inning each tallied one. Then came another pair of frames with nothing doing and then the Wheeling aggregation spilled the beans. Osborne hit Johnson, and was so unnerved that he walked O'Day and Nespo grounded. Reilly singled and Johnson scored and Meister doubled to left, scoring O'Day and Nespo. Anderson scored Meister with a single. Anderson was sacrificed to third and scored when Withrow singled. Johnson, up for the second time in the inning, went out.

Holderman and Hartle got in with a double and a single in the ninth and attempted to rally the slumping Cubs. Holderman got home safely, Hartle being caught off first. Score:

COBB WILL STEAL 100.

Clyde Milan, of Washington, holds the modern base stealing record with 88 thefts, acquired back in 1912.

But this record is almost sure to fade unless Ty Cobb drops a leg somewhere between now and October. Cobb collected 38 steals in 56 games. At this same impetus he will lay in a supply of pilfered bases well over 100.

The two fastest people in the American league are Bert Shotten and Fritz Maisel. Both are batting around the much admired .300, which shows how often they are getting on. Yet Cobb has stolen nearly as many bases as Shotten and Maisel together.

Among others endowed with speed and the batting eye, Cobb has stolen almost as many bases as Collins, Speaker, Jackson, Milan and Strunk put together—and only one less than the combined steals of the three leading base runners in the National.

GEORGE WILTSE GETS TINWARE

New York, June 24.—George Wiltse, former pitcher of the New York Nationals, was unconditionally released as manager of the Jersey City club of the International league. Wiltse was made manager of the club last winter. It is said President Barrow has been dissatisfied with the bad showing made by the Jersey City club. The new manager, it is reported, will be a former manager of an American association team. Joe Yeager, an infielder procured from the Montreal club, is acting manager.

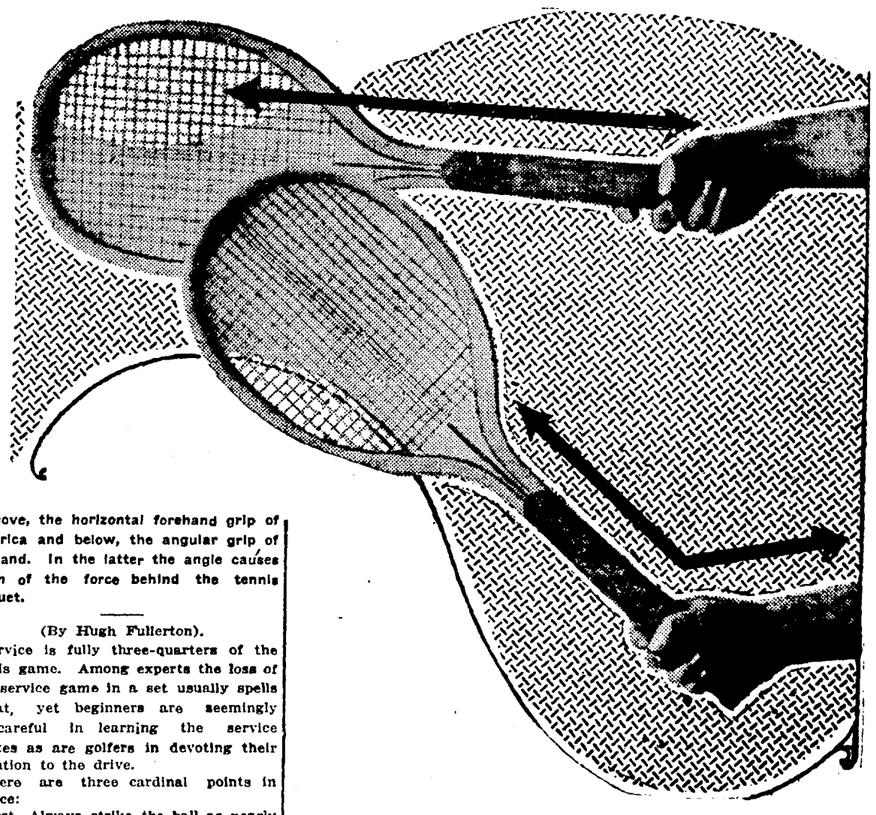
BELL LOSES OUT WITH SMOKES.

(Wheeling Daily News).

Rebel Bell is to be let out, along with Bero and Mullaney. Shriver was forced to cut down his club and from early indications he is doing the right carving.

A large class of candidates will be initiated next Monday evening by Camp No. 4167, Modern Woodmen of America, in Aldine hall.

IT'S SERVICE THAT COUNTS IN TENNIS! GET STARTED RIGHT.



Above, the horizontal forehand grip of America and below, the angular grip of England. In the latter the angle causes much of the force behind the tennis racquet.

(By Hugh Fullerton).

Service is fully three-quarters of the tennis game. Among experts the loss of one service game in a set usually spells defeat, yet beginners are seemingly as careful in learning the service strokes as are golfers in devoting their attention to the drive.

There are three cardinal points in service:

First—Always strike the ball as nearly with the exact center of the racket as possible.

Second—Do not try to drive the ball downward at an angle into the service court.

Third—Keep the ball above the net and make the errors over the line rather than into the net.

Save against remarkably expert players the one serving should win almost all his own service games. To lose on faults is bad service. A ball two feet above the net will strike inside the service court, and with practice the stroke may be lowered to a few inches above the top of the net.

To drive properly hold the ball between the thumb and two forefingers of the left hand, and toss it into the air so that it is on a line with the left eye, directly above the upturned face.

As the ball descends strike it squarely with the wrist, arm and racket held in a direct line, finishing the sharp sweeping stroke with a follow through that brings the racket almost to the ground.

The stance in service is important. Stand on the ball of the right foot. As the ball is struck shift the left foot forward and throw the weight onto that foot, aiding the follow through stroke.

The forehand cut service is the "out curve" of tennis. The ball is struck as in straight service save that the racket is drawn across the ball at an angle at the instant of contact, causing it to spin in the air, and when it strikes the ground it takes the "reverse" and breaks at an angle.

Probably the most effective of all the service strokes is the upper cut, commonly referred to as the American service. The ball is struck with a sharp upward cut.

The introduction of this American stroke caused a loud guffaw from the British experts at first because of the peculiar posture of players who bent far backward in striking the ball so as to draw the racket more sharply across the ball.

It was used with every variation of the positive and the reverse cuts, and before long was adopted by many of the English, and practically all the Australian and Canadian players.

COULD YOU BE A CRACK HIGH JUMPER WITH ONE LEG? HERE'S ONE!

This boy is the sensation of interscholastic athletic meets this year. He's R. Kriss, of Shaw high school, East Cleveland, O., who, regardless of the fact that he possesses only one good leg, has proved himself a high jumper nearly the equal of the best.

Kriss, who lost his left leg nearly up to the knee by flipping cars when just a little fellow, can do 5 feet 6 inches over the bar. Of course, high school athletes frequently go over the 6-foot mark, but Kriss' showing is quite remarkable anyway.

He hops speedily up to the bar, then his right leg springs him for the jump. He takes the weight of the fall on his one good leg and rarely loses his balance coming down. Picture above shows him clearing the bar and below, alighting on the ground.

HERE'S NEW WAY OF DOPING THEM

(By Hugh Fullerton).

Anson used to say "If every man on any team runs out every hit as hard as he can all season that team will win five or more games than it does."

This spring I commenced to keep some odd dope on baseball. I confess I started it merely to see whether the players were going to loaf as they did last season, or whether they were going to hustle and try to make the games interesting. Each day I get the papers of each big league city and read the accounts of the games. Here are some figures:

AMERICAN LEAGUE.

Detroit	1	St. Louis	1
Chicago	4	Boston	9
New York	3	Cleveland	11
Washington	7	Philadelphia	7

NATIONAL LEAGUE.

St. Louis	5	Chicago	11
New York	8	Brooklyn	13
Cincinnati	6	Pittsburg	3
Boston	4	Philadelphia	3

FEDERAL LEAGUE.

Brooklyn	8	Kansas City	8
Chicago	9	Pittsburg	11
Newark	7	St. Louis	2
Baltimore	12	Buffalo	12

These figures are the number of times the newspaper reports have charged that players failed to run out hits that they might have beaten. Of course, there may have been many more instances in which the failure to run out hits did not seem important enough to mention and again one reporter may be more critical than another.

However, Detroit's scribes are rather severe on such things and Cleveland is not unduly severe or critical. The fact that only one man, and he a pitcher, is accused of loafing, shows that Detroit is hustling and on its toes.

That Boston is accused in nine cases is bad enough in itself, but the figures show more than that. Seven of the Red Sox' nine offenses were committed during the discouraging early season slump.

A Mistake Made By Many.
Don't wait for rheumatism to indicate diseased kidneys. When you suffer pains and aches by day and sleep disturbing bladder weakness by night, feel tired, nervous and run down, the kidneys and bladder should be restored to healthy, strong and regular action. It is a mistake to postpone treatment. Foley Kidney Pills put the kidneys in sound, healthy condition and keep them active and strong. Begin taking today. Good results follow the first dose. PITCHERS WHO HIT ARE USEFUL ARTICLES

But They're Just About as Scarce as Umpires Who Can See.

(Kansas City Star).

Nothing is half so useful, after all, as a pitcher who can hit—a pitcher who can bat 'em out and even win his own games by stepping into that old ball when hits are badly needed. Such a pitcher gives the team employing him advantage over a team with a hitless hurler—it amounts to matching nine men against eight, and, in addition, handicapping the eight, with a drag on their machinery—a ninth member who not only cannot smite but will insert a strikeout or a double play into whatever rallies the eight are trying to spring.

Long ago it was one of Uncle Anson's hobbies to have pitchers who could hit. He maintained that the game was played by nine men on a side, and that the whole nine should be able to crack that pellet when required. Many a time uncle turned away some clever pitcher simply because he could do nothing but pitch.

Nowadays that's all most managers ask of a pitcher—that he shall be a fa... specialist in his own particular line, leaving the batting to the other fellows. Not so with Anson. He never in all his long career could see things that way, and to the very last insisted that his pitchers must do their share of the whacking. And uncle seemed, somehow or other, to get pitchers who could do it, too, and not fall away in their own department, either.

When Luby won the twenty straight in 1890 the fact that Luby also led the league in batting helped materially along the road. Ad Gumbert, another of Anson's pitchers, was a terrific hitter. John E. Tener, now president of the National league, could bat with royal vigor. Seldom did uncle have a pitcher who fell below .220—and a pitcher who can hit .200, comparatively light as that may seem, is going to help win a lot of games that would be lost by some fellow hitting only .120.

ONE FOR PERSONAL LIBERTY SQUAWKERS.

When several of the cigarette-smoking members of the Nationals opened their salary envelopes a few days ago they were astounded to find a ten dollar note missing and a notice explaining that Manager Griffith had inflicted a fine because of the use of cigarettes. It seems that ever since the edict against the cigarettes was issued last spring some of those who have found it hard to quit have been taking a draw on the quiet, but none of them got away from the Old Fox. He, however, was mum on the subject for the purpose of making the offenders more bold, which they became, but the fining of $10 a crack is sure to bring about a remarkable reform.

Queen Mary, of England, writing in a confession album, records that the quality she most admires in a man is that of modesty.

What Causes Sore Feet?

Aching, Burning, Sweaty Feet, Corns, Callouses and Sore Bunions.

Science has proven that nearly all foot troubles originate in the common cause of injured or congested tissues. The thousands of victims of daily foot torture will welcome this information of a simple home treatment (known to best foot doctors) that acts through the pores, removes the cause, and gives instant relief. "Dissolve two spoonfuls of Calocide compound in a basin of warm water. Soak the feet in this, gently rubbing the sore parts." The effects are marvelous. All pain goes instantly and the feet feel delightful. Corns and callouses can be peeled right off; bunions, aching feet, sweaty feet, get immediate relief. Don't waste time on questionable remedies; get the genuine Calocide from any drug store, but don't be persuaded to take something else instead. There is nothing even similar to Calocide. A twenty-five-cent package is said to be enough to cure the worst feet. Medical Formula laboratories, Dayton, O.

NEW PREMIER OF U.S. IS OLD HAND AT GAME

Lansing Has Long Taken Uncle Sam's Side in Foreign Controversy.

Washington, D. C., June 24.—For twenty-three years fighting Great Britain has been the job of Robert Lansing, who has just been selected by President Wilson as secretary of state. He has been Uncle Sam's lawyer in almost every piece of arbitration required between England and the United States since 1892. Since that time, when he was appointed associate counsel for the United States in the fur seal controversy he has been almost constantly in the service of the United States government.

More than that, he is generally acknowledged to have a longer and broader experience in international tribunals than any other living lawyer.

Lansing was born at Watertown, N. Y., October 17, 1864, entered Amherst college in 1882 and graduated in 1886. He studied law in Watertown for three years and then organized, with a cousin, the law firm of Lansing & Lansing, with which he was connected until 1907.

In 1890 he married Eleanor Foster, only daughter of John W. Foster, who succeeded James G. Blaine as Benjamin Harrison's secretary of state. In 1892 Foster appointed Lansing as associate counsel for the United States in the Behring sea arbitration, the difference arising with England over the rights of seal hunting.

He was counsel for the United States before the Behring claims commission in 1896 and in 1897 and later in 1903 was associated with Elihu Root, then secretary of war, as counsel before the Alaskan boundary commission in London.

He attended the session of the international tribunal in Paris in 1893; in 1894 served as counsel for the Mexican and Chinese legations at Washington. During the years of 1898-99 he represented private parties before the Canadian joint high commission and in 1900-01 again served as counselor for the Mexican and Chinese.

He acted for private clients in the Venezuelan asphalt disputes of 1905 and as counsel for the United States in the Atlantic fisheries arbitration at The Hague in 1908.

He continued to serve as agent of the United States before the America and British claims commission until his appointment as counsellor of the state department in March, 1914.

Lansing now is in his fifty-first year, hale and vigorous. As a state department official he has developed a direct, decisive manner of dealing with public questions. Known as a hard student of international law, his impress has been felt on all questions that have come up in the stressful period since he became counselor for the department.

His first duties were connected with the shaping of diplomatic policies arising from the successive events in the revolution in Mexico. With the outbreak of the war in Europe the position which Lansing had taken became one of the highest importance in the conduct of our foreign policies. With his aid a complete reorganization of the state department was promptly undertaken and every resource available was offered for the consideration and disposal of many trying problems that arose.

The use of submarines, aeroplanes, wireless telegraph, the many novel problems in regard to neutrality, communication and transportation, and all the manifold developments in a world catastrophe with nearly a dozen nations involved made the tasks devolving on the chief law and diplomatic officer of the state department gigantic in scope and responsibility.

Through all the vicissitudes of the war year Lansing has been a most dependable quantity in the state department. President Wilson has looked to him officially and privately for help continually. Night and day he has been at the president's call.

Only a Few Can Go.

Those who are so fortunate that expense does not have to be considered are now going to health resorts to get rid of the impurities in the system that cause rheumatism, backache, swollen, aching joints and stiff, painful muscles. If you are one of those who cannot go, yet feel that you need relief from such pain and misery, try Foley Kidney Pills. They restore the kidneys to healthful activity and make you feel well and strong. Dreier Drug Co.—Adv.

STRANGER SISTERS MEET.

Had Never Seen Each Other, Though Living Only Few Miles Apart.

San Diego, June 24.—Living less than five miles apart for several years, and each in ignorance of the existence of the other, and finally to meet at the home of a mutual friend, is the unique experience that has been enjoyed by two sisters, Mrs. Frank Barber, of San Marcos, and Mrs. George Burnham, of Temecula. Mrs. Burnham came to California from Ohio before her sister was born. For a time she corresponded with the family, and then letters ceased. Recently Mrs. Barber visited at the home of Mrs. J. E. Putnam, also a friend of Mrs. Burnham. The discovery of the relationship of Mrs. Burnham and Mrs. Barber was made by Mrs. Putnam in the course of a conversation. Keeping the two sisters in ignorance of their relationship to each other, Mrs. Putnam invited them to a house party. For more than half a day the two sisters fraternized before Mrs. Putnam made her discovery known. Now the two are making plans for a joint visit to the old home in Ohio.

HELEN CLARKE DANCING IN "NOBODY HOME" AT THE MAXINE ELLIOTT THEATER.

New York, June 19.—There's "Nobody Home," at Maxine Elliott's theater.

In its syncopated skittishness the Broadway silly season simmers over. There's no reason to the libretto, and certainly little enough rhyme; but there are many pretty girls, clad—to a certain extent—in the prettiest costumes of the early summer fashion.

With dress, dance, lightsome music, and girls—what more does Broadway in hot weather want?

Besides, there's the Charlie Chaplin chorus, a unique stunt which was just waiting to be pulled, and the producers of "Nobody Home" deserve credit for the laughter-winning way in which they've done it.

PENNSY ANNOUNCED MORE CHANGES

E. T. Whiter Becomes Assistant General Manager of the Lines West.

News from Pittsburg today announces three changes in the ranks of the general officers of the Pennsylvania, with a probability of other changes soon. E. T. Whiter has been appointed assistant general manager, a newly created office; W. C. Downing has been appointed general superintendent of the Northwest system, succeeding Mr. Whiter, and Isaac W. Greer has been appointed general superintendent of the Central system, succeeding Mr. Downing. These appointments leave the office of superintendent of the Cleveland division, held for some time by Mr. Greer, open, and the transfer or promotions that may follow the appointment to that position may extend away down the line and affect several men.

SEMI-ANNUAL INVENTORY.

Pennsy and G. R. & I. Start the Work Tomorrow.

The semi-annual inventory on the Pennsylvania and Grand Rapids and Indiana roads starts tomorrow and will be conducted along lines which governed the work in previous years. The men engaged at it handle the work on some other division than that on which they are employed. C. P. Cherry, division storekeeper of the Western division, has taken charge of the inventory work at Denison, Ohio; Shop Clerk J. H. Hobrock, of this city, will take charge of the work at Logansport, and G. Wonnell, of the Panhandle, at Columbus, will have charge of the work at Fort Wayne. The Fort Wayne division of the G. R. & I., which has no general store department at Fort Wayne, will send a party over the line on a gasoline motor car. This work will be under the supervision of J. A. Jaques, assistant engineer of the Akron division, and with him will be Supervisor E. R. Wright and Chief Clerk A. M. Hoffman, of Division Engineer C. L. Barnaby's office.

HAMLET ELEVATOR BURNED.

Structure Completely Ruined and Loss $65,000.

The large elevator at the side of the Pennsylvania tracks at Hamlet and owned by Farmers' United Grain & Elevator company, was completely consumed by fire which started in the boiler room at 10:45 o'clock yesterday. The meagre fire fighting organization at Hamlet being unable to handle the fire, called upon the Knox fire department, six miles from Hamlet, which promptly responded. The flames had gotten under such headway when the Knox company arrived that the best they could do was to prevent the spread of the flames. The east end of the Pennsylvania depot building and the sides of several residences near the scene were badly scorched by the heat. The elevator and its contents, it is said, were valued at $65,000, with some insurance.

TO MICHIGAN FOR BRIDE.

Willard A. Stockbridge Surprises His Associates.

The associates of W. A. Stockbridge, electrical engineer of the Pennsylvania motive power offices, were greatly surprised this morning when they heard that he had gone to Constantine, Mich., for a bride. The marriage ceremony was performed this morning and Mr. and Mrs. Stockbridge immediately left Constantine on a wedding tour which will include visits at Richmond, Va., Washington, Philadelphia and New York. They expect to return to Fort Wayne about the 10th of July.

FORMERLY LIVED HERE.

BOY OF 9 SAVES LAD OF 7.

Jumps Into River and Grasps Drowning Friend by Hair.

Philadelphia, June 24.—When nine-year-old Johnny Mullaney saw another boy fall into the Delaware river from a railroad pier, at Noble street, he didn't lose a second diving after him.

He caught hold of the boy's hair as the lad, Haleck Lazynsky, seven years old, was sinking, and with sturdy one-hand strokes swam with him to a ladder running up the piling. There he rested a moment, and then, tugging with all his might, drew the boy after him to the understructure of the pier.

Ten minutes later a patrol wagon, summoned by companions, clanged up. The cops found Johnny vigorously rolling the other lad in an effort to resuscitate him. It took doctors at the Roosevelt hospital three hours to complete the job, but they give all the credit to Johnny's first aid.

The little rescuer lives at 532 New Market street; the rescued, at 606 North Front street.

SPECIAL NEED FOR FLOOD COMMISSION

If Government Co-operates Must Have Legal Body to Work With.

With the prospect of government co-operation and aid in the huge task of creating means to prevent floods in Fort Wayne and Allen county the need of creating a drainage district and flood commission, as provided in the recent act of the legislature, is more than ever imperative. If the government is going to co-operate it must have some legally constituted body to work with and the law very definitely provides for that. Of course the government could co-operate with the city of Fort Wayne but that would mean a rather cumberous arrangement and the necessity of the city to issue bonds and bear the entire burden of the cost save what the federal government may assume. Under the law the cost will be distributed over a much wider district and the burden will fall heavily upon nobody. This is the view taken at the city hall.

TO PAVE SOUTH CALHOUN.

Board Will Adopt Resolutions at Its Meeting Thursday Evening.

The principal business of the board of works at its meeting Thursday evening will be the adoption of a resolution for paving Calhoun street from McKinnie avenue to a point 921 feet south. The cost of this improvement will be borne entirely by the interests promoting the new Lafayette Place addition on the east side of Calhoun street and the Harrison Hill addition on the west side of Calhoun street directly opposite. A strip of land 150 feet wide fronting Calhoun street between McKinnie avenue and a point 921 feet south has just been annexed to the city by the council for the purpose of permitting the paving of Calhoun street.

The board will confirm assessment rolls for the paving of Wilt and Harmer streets and Savilla avenue, which have been completed, and for the building of a sewer in the Pfeiffer Place addition in the north part of the city.

COLLECTING PUMP FEES.

The city is now prosecuting a campaign for the collection of the $5 fee required under an ordinance for maintaining gasoline pumps on sidewalks, a license measure that had been more or less a dead letter for a good while. Police Lieutenant Harry Grimme and Building Inspector Clerk Andrew App are making the collections. A list is being made of all drug stores, groceries and other places that are still maintaining the old wooden cabinets that recently were outlawed by ordinance by the council. These will have to be removed.

OFFERS 'GATOR FOR ZOO.

The park commissioners have under consideration acceptance of an offer of Fred G. Mensch, agent for the Wells Fargo Express company at Houston, Texas, to present a six-foot alligator to the zoological garden that is designed for the city. The tender came in a letter to Charles J. Steiss, secretary of the park board, from Mr. Mensch, who is a son of Frank Mensch, a grocer in Bloomingdale.

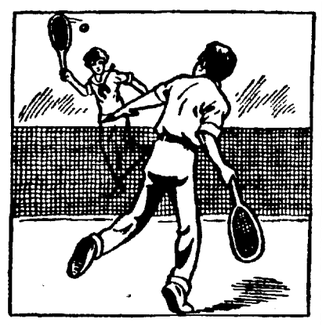
HURT WHILE PLAYING TENNIS



A FEW DAYS AGO an article in these columns called attention to the fact that many people receive serious personal injuries at this time of the year for the reason that it is during the vacation period that we do the things which are unusual and which subject us to increased liability to accidental harm.

The former article told of one man who was badly hurt while on a vacation in Michigan; another was hurt at an amusement resort; one was thrown from the seat of a breaking plow; another was hurt at a game of amateur baseball, and another received severe injuries while diving.

Fortunately, all of the men mentioned in the former article carried insurance in the Fort Wayne Mercantile Accident Association. Mr. L. H. Ransom, secretary of the Mercantile, referring to the condition, said:

"Yes, each spring and early summer brings its story of disaster. In this connection, it may be well to say that we do not accept professional athletes, nevertheless we pay a good many claims to persons who are hurt during the playing of games.

"Over at North Dover, O., for instance, Fred Beach was severely hurt while playing tennis. He slipped and lacerated the tendons and muscles of his ankle. Dr. Gustave Hausser, of Cincinnati, collided with another player during a football game and fractured several ribs. E. S. Hammond, of Chicago, with Swift & Co., slipped while bowling and was severely hurt. These are but few of the recent claims we have paid to people who were hurt during their play spells. We would urge every one who is eligible to become a member of the Mercantile, which provides the best protection at the lowest cost."

The Mercantile phone is No. 249

CHICAGO GRAIN AND PROVISIONS.

Chicago, June 24.—Wheat ran up in price today on account of heavy rains and winds in the southwest, making harvest progress more and more difficult. Opening prices, which ranged ⅜@½c to 1⅜c up, were followed by a little reaction and then by an advance that in some cases reached higher than before.

The close was heavy at ⅜c to ⅞@1c net decline.

Corn hardened with wheat. Professional speculators, however, were free sellers on the upturn. After opening unchanged to a quarter and ⅜c higher, the market receded to a moderate extent but again became firm.

The close was steady at ¾c to 1@1⅛c under last night.

Oats showed relatively less strength than wheat and corn. Cash concerns led the selling.

Provisions tended to sag. Demand was not at all urgent.

THE DAY ON WALL STREET.

New York, June 24—United States Steel was the only stock to show so much as a fractional gain at the outset of today's trading, all other leading shares recording declines. Canadian Pacific was especially weak, soon falling two points to 147, its lowest quotation in seven years. United States Rubber was the heaviest industrial, losing over three points on fairly large offerings. Bethlehem Steel and General Motors were among the few specialties to show resistance to the declining tendency. High grade railways and coppers also were lower. The general list reacted further toward the end of the first half hour.

There was a further decline in rubber to almost six points from yesterday's close on intimations of a reduction of the dividend and allied stocks, including Goodrich, and the motor shares were down one to two an one-half points. The market evinced a disposition to break away from this depressing influence before midday. Reading and some other representative issues making full recovery. Bonds were irregular.

Selling became general in the last hour, coppers and specialties leading the decline. The closing was heavy.

"TRADE" HUSBANDS; ALL NOW FRIENDS

Cincinnati, O., June 24.—Probably the last chapter has been written in Indiana's prize marital mixup, in which Cupid's darts broke up two prominent Harrison (Ind.) families and then united the members into two new families through the process of double elopements, double divorces and double weddings. Yesterday the Court of Domestic Relations here completed the sundering of old love ties between Harry E. Burk, Harrison's druggist, and his wife, Mrs. Burk had eloped to St. Joseph, Mo., with Dr. O. D. Maddux, an Indiana veterinarian. The Kansas City (Mo.) divorce previously obtained by Mrs. Burk was discountenanced by today's court action. The former Mrs. Maddux was a witness for Burk. She had been the first to sue for a divorce, having been granted a decree last July in the courts here. Mrs. Maddux is now the wife of Burk and Mrs. Burk is the wife of Dr. Maddux. The Madduxes have removed to Washington Court House, O. All parties to the new marital arrangement are again declared to be good friends.

OFFICIAL FORECASTS.

For Fort Wayne and vicinity: Showers this afternoon or tonight, warmer; Friday fair.

For Indiana: Showers this afternoon or tonight, warmer; Friday fair.

For Ohio: Probably showers tonight and Friday; warmer tonight.

For Lower Michigan: Showers this afternoon or tonight, warmer; Friday fair, warmer.

WEATHER CONDITIONS.

The pressure is low in the extreme northeast, and a troug hof low pressure overlies the western slope of the Rocky mountains. High pressure prevails over the central valleys and off the Pacific coast. This distribution of pressure has given local thundershowers in the western plains states, upper lake region and northeastern sections, also in the extreme northwest. Except in a few localities the changes in temperature have been unimportant. The weather is warmer than the seasonal average in northern Utah and the south, but in the districts in the northern half of the ccuntry east of the Rockies temperatures are low for the time of year.

From the conditions prevailing this morning showers may be expected this afternoon or tonight, with higher temperature tonight. Friday will be fair, with no marked change in temperature.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

JORDAN HARD ROAD THROUGH INDIANA

Walter Weingartner, of Cleveland, O., bought a second-hand automobile in Lafayette and started to wheel home. He equipped his machine with a hand-made front tag of the dealers' license breed, cranked his machine and whirled away on the upper course of the well-known Wabash river. At Peru his delinquency in the matter of tags was noted by a hawk-eyed cop and he was arrested and paid a fine. Then he deposited money to be forwarded to Columbus, O., for a license and tags and again fared forth on his happy way home. The trip was without known adventure until Thursday morning when he tried to slip through Fort Wayne. Officer Earnest Paul lamped the badly tagged car and hit the trail. He found the car near the Scottish Rite cathedral, and not far away was Walter, who with the grace born of experience submitted to arrest in a quiet way. He will try to explain to Judge Kerr Friday morning.

REMARKABLE OPERATION.

Guy Popp is on the Road to Recovery as a Result.

A remarkable operation was recently performed on Guy Popp at the St. Joseph hospital by Drs. McKeeman and McOscar that has proven successful. Popp was recently injured in the rolling mill when a piece of block was hurled by the machinery, striking him in the abdomen. The blow resulted in the rupture of the bowel in several places and at one place the bowel had been torn for some distance.

The doctors placed the torn member in the form of a loop, after which incisions were made on each side below and the bowel joined together. In this manner a short circuit was made, the incisions permitting nature to do the rest. Popp is recovering rapidly and will soon be able to be up and around again.

The annual Flower Day will be observed in Fort Wayne next Saturday, the proceeds going for the benefit of the Anti-Tuberculosis league. A hundred or more girls will sell bouquets on the streets and every person approached with the request to buy a bouquet is urged to comply.

Any young lady who is desirous of assisting in the work may be enrolled by calling Mrs. J. R. Meriwether, 369 Black.

HINES LEFT TOWN.

Shortly after being released from the county jail Wednesday, after serving eleven days on a charge of vagrancy, Frank Hines was arrested on the charge of surety of the peace, preferred by John Lothamar and taken before Justice of the Peace August C. Nierman. The justice gave him his choice of being bound over to the circuit court, with the prospects of a year in the county jail, or leaving town. Hines left town.

PAIR OF POOLROOM GAMBLERS IN JAIL

William Bates and Leroy Johnson Quarrel and One Squeals.

"O hum, it's dull. Ah wish Ah was in jail or something," said William Bates, a colored man, to himself, Wednesday evening. Then he threw his snare on LeRoy Johnson, another colored man, and they went to Monty Curry's Lafayette street saloon for colored men and began to play pool for two bits a game side stakes. Bates says he lost two games to Johnson and paid. Then he won three games of Johnson and that colored gentleman welched. Mr. Bates didn't like this and said so. He says that Johnson went out and got his gang and besides that displayed a knife. Then Bates turned a perfectly neat trick by calling the police, who arrested him and Johnson and charged them with gambling. Both pleaded guilty in the city court Thursday morning and each drew a fine of $10 and costs and went to jail for fifteen days.

"Got yourself arrested, didn't you?" queried Prosecutor Callahan of Bates.

"I suah did and jes' done wished mahself in jail," said Bates, as the pair were taken back to a cell.

Young Cochran Pays Heavy Fine.

Wilbur Cochran, the 18-year-old youth whose degenerate conduct at his boarding house on Killea street caused a mob to gather Sunday afternoon and threaten him with summary justice, was up Thursday morning on a continuance and testimony for the defense was heard. His uncle and aged grandmother were present from Burket, Kosciusko county, to testify to his good character at home. It was developed that his father is dead, his mother an invalid and that his grandmother has reared him. She is assisting in paying his expenses in a business college here and the boy works at a restaurant for his board. Cochran denied the story told by residents at Killea and Harrison streets but there was no doubt of his guilt and Judge Kerr fined him $25 and costs, which the grandmother paid. The lad was taken home by his relatives.

Stole a Valuable Robe.

Frank Touhey was fined $10 and costs and given thirty days in jail on his plea of guilty to a charge of petit larceny. He stole a valuable fur robe from the livery stable of Mertz & Durraw on Harrison street, and was arrested by Detective Sergeants Immel and Rundell. He said he intended to return the property, which is worth about $20.

Fined for Selling Bad Fruit.

Jared Voors, who resides on the Maysville road about three miles from the city, was found guilty of selling decomposed fruit and was fined $1 and costs, which he paid. The case was prosecuted by the city health department on complaint of Henry C. Myers, the well known horseman, 302 Douglas avenue, who bought a crate of cherries of Voors and found that a large part of them were in a bad state of decay. A similar charge against Moses Jacobs, a city fruit vender, for selling decayed strawberries, was continued to Monday. Dr. George Fry, chief inspector for the health department, and Charles Jones, his chief deputy, brought about both cases and were important witnesses.

Other City Court Cases.

Wesley France, 504 Locust street, charged with assault and battery on his wife, was continued for a few days, it being reported the woman was too ill to leave her home.

Steve Kickrig, the foreign youth who was arrested some nights since while prowling about the Pennsylvania pay car as it stood on a side track and got his head split in an encounter with Pennsylvania Policeman Strasser, was fined $5 and costs on a vagrancy charge. It was thought that there was an attempt to rob the pay car. Kickrig's companions escaped.

Curtis Fryback, held on a loitering charge and suspected to be a deserter from the United States navy, was again continued and went to jail in default of $100 bond.

John Jones, a drunk, who neglects his family, was fined $1 and costs and went to jail for eleven days, and Elmer Hart, another drunk, who raised a disturbance on the street at 1 o'clock in the morning, was given a chance to be good and turned loose.

Hilda Walker, charged with adultery with Bill Hensinger, a parol violator, who has gone back to Jeffersonville, was shown mercy and the case continued indefinitely.

George Ottney, Ray Orth and Phil Saincome, arrested for loitering, were turned loose to get out of town.

POLICE NOTES

The Ford automobile owned by Councilman Harvey M. Brown, of Columbia City, who drove here Tuesday night with some friends, was found on the streets, where it had been abandoned by the joy-riders, who stole it. The car was taken from in front of the Lyric theater.

The theft of a gold watch from the basement of the James H. Smart public school, is reported by Prof. S. H. Pettit, the owner of the timepiece.

Moose Lodge Expects to Have One of the Finest Homes in Country.

Gustave Lindemann, who was recently awarded the contract for the new Moose building, to be erected at Wayne and Webster streets, announced Wednesday evening at the regular meeting of the Loyal Order of Moose, No. 22, that he will start work on the new structure next Monday. Dictator James E. Ford will dig the first shovelful of dirt and David C. Sto—, secretary, will throw it onto the wagon.

The trustees of the lodge, Wednesday, gave Samuel M. Foster a check for $40,000, the price paid for his property.

Try This For
Removing Hairs
Hairs on the face, arms or neck can be very easily and safely removed by a simple solution that dissolves them entirely, leaving the skin soft and smooth as velvet. Get an ounce of sulfo solution from your druggist, apply with finger tips, keeping the hairs moist for a few minutes, you will soon see them shrivel up and dissolve away. Any druggist will sell you sulfo solution; it is a little expensive, but one ounce will be all you will ever need, as the hairs very rarely return after this first application.

GERMANS TO FOLLOW UP LEMBERG VICTORY

Have Already Rushed Troops from Galacia for New Drive on Capital of Russian Poland

Today's War News Given in Summary.

With the Russians reported in general retreat along a wide front after their defeat at Lemberg, the Austro-German forces are planning to strike a new blow at Warsaw. But few Russian troops now remain on Austria-Hungary territory.

A review of the fighting early this month on Gallipoli peninsula, given out officially today in Paris, says that from June 1 to 8 the French and British forces carried Turkish positions over a depth of 150 to 500 yards along a section of the front of more than a mile.

Reports of yesterday's fighting on the Franco-Belgian front indicate that the battle in the Arras district, south of the Belgian border, has subsided. Along the remainder of the battle line no important changes are recorded.

Regarding the fighting on the Italian front, Rome reports repulses of Austrian attacks at a number of points.

London, June 24.—3:27 P. M.—A dispatch from Amsterdam to the Central News says that the Germans, following their victory in Galicia, have already made preparations for another attempt to capture Warsaw.

According to this dispatch, German troops from Galicia already have been transferred to the Bzura front, east of Warsaw.

With the exception of a small front along the river Dniester, all the armies of Russia are either within or on their own frontiers.

Heavy fighting was reported to the north of Lemberg even before the fall of this city, so that Grand Duke Nicholas, commander in chief of the Russian forces in the field, may have had some difficulty in withdrawing his men to their new lines along the river Bug.

Blames Munitions Shortage.

Military critics in London are admitting reluctantly today that the power of offensive has passed for some time from the hands of the Russians, while special dispatches from Petrograd declare that it may be even years before the Austro-German aggressiveness can be worn down. It is generally admitted that Russia, like England, is not suffering from lack of men, but that a shortage of munitions has prevented the initiation of the general allied offensive expected early this summer.

Heavy engagements marked the operations along the western front yester-

BURGLAR HALTS AT AIM OF ICE CREAM DIPPER

Mulberry, Ind., June 24.—Aiming an ice cream dipper as if it were a revolver, O. S. Reppert, a merchant here, captured a burglar whom he found in his store early today. As Reppert entered the store, the thief jumped through a window and started to run. Reppert, picking up the dipper, pointed it at the intruder, and cried "halt." The burglar stopped and was turned over to the police. He gave his name as Frank Harrell, "the United States."

BOYS JUMPING WAGONS KILLED

Edward Lahey Drops from One and Runs in Front of Automobile.

JOHN AUER FALLS UNDER COAL CART

Two Fatalities Occur Within Two Hours Wednesday Evening.

Two accidents less than two hours apart Wednesday evening resulted in the death of Edward Lahey, 10 years old, son of Mr. and Mrs. James J. Lahey, Freeman street, and Johnnie Auer, 8 years old, son of Mrs. Charles Lenz, 1433 Broadway.

The accident in which the Lahey boy met death occurred at 5:10 o'clock in front of his home on Freeman street, south of Taylor. The boy and a companion had been riding on the back of a market wagon driven by S. S. Coleman, which was going north. The automobile of Charles A. Wilding, 902 West Wayne street, president of the Tri-State Loan & Trust company, and driven by Mr. Wilding's daughter, Miss Margaret Wilding, was going south on Freeman street. As Miss Wilding went to go around the wagon the two boys jumped off, running directly in front of the automobile. The first boy saw the machine in time and ran back, but the Lahey boy kept on going with the result that he was struck by the heavy fender, and knocked to the street, one wheel of the automobile passing over his body. Mr. Wilding occupied the front seat with his daughter. They were on their way to the Country club, where they expected to spend the evening.

Boy Was Unconscious.

Miss Wilding brought the car to a stop as quickly as she could, but could not have stopped in time, according to eye witnesses, to have avoided striking the boy. The lad was unconscious when picked up by Mr. Wilding, who placed him in his machine and hurried him to the office of Dr. George B. Stemen, 1162 West Main street. The physician had not finished his examination when the boy breathed his last.

The little fellow was terribly injured about the head, the lower jaw was broken and he was bruised about the chest. There were also symptoms of brain concussion.

Coroner Edward H. Kruse ordered the body removed to the undertaking establishment of Getz & Cahill and will make a thorough investigation.

Immediately after he saw that no more could be done for the boy Mr. Wilding went to police headquarters and made a report of the accident, but inasmuch as it occurred outside of the city limits it was later reported to Sheriff A. C. Gladieux and the sheriff's forces

SPENDS DAY WITH HOUSE

President Wilson Hears Later's Impression of the War Situation.

STOPS OFF ON HIS TRIP TO CORNISH

Two Close Friends Long in Earnest Discusion of Big Events.

New York, June 24.—President Wilson, enroute from Washington to his summer home at Cornish, N. H., stopped off at Roslyn, Long Island, to spend the day with his intimate friend, Colonel E. M. House, and to receive at first hand the latter's impression of the

COL. E. M. HOUSE

war situation in Europe and the developments incident thereto affecting the United States.

Col. House, ten days home from a four months' trip that carried him to London, Paris and Berlin, greeted the president warmly at the little station at Roslyn, and took him by automobile immediately to his country estate, where they were to spend the day free from interruption by visitors, in discussing Colonel House's trip and his conference abroad with high officials of the warring powers.

Were Left Alone.

The president and Col. House were left alone setting on the broad veranda, hidden from the roadway by towering trees and shrubbery, apparently in earnest conversation. Presently they rose and went for a stroll unattended, over the estate, the walk ending at a

STEAL AUTOS AT RATE OF $100,000 A YEAR

Kansas City, June 24.—Thefts of motor cars worth $500,000 in the last three years are charged to members of an organization, the leaders of which, the police declared today, are held at police headquarters.

The work of the gang, Chief of Detectives Ghent said today, has extended from Chicago to San Francisco, and has taken in many large cities, as well as a score of smaller ones in Missouri, Kansas and Oklahoma. Seven men compose the organization, according to Chief Ghent.

The three alleged leaders were arrested last night while overhauling a valuable car belonging to Chas. A. McNeese, of Kansas City.

DERNBERG STEAMER HAS BEEN RELEASED

Its Detention by British Cause of Considerable Speculation.

London, June 24.—(2:50 p. m.)—The Norwegian steamer Bergensfjord, together with Dr. Bernhard Dernburg has been released by the British authorities and will sail from Kirkwall, Scotland, tonight. e

CAUSED MUCH SPECULATION.

New York, June 24.—In the absence of dispatches from London concerning the disposition of the Norwegian-American liner Bergensfjord, detained by the British authorities at Kirkwall, there was much speculation here today as to what had happened to Dr. Dernburg, former colonial secretary of the German empire, who sailed from this city aboard the steamer June 12, under guarantees of safe conduct given by representatives in America of the allied powers.

All that was definitely known here was that the Bergensfjord's voyage to Bergen, Norway, had been interrupted and that she had been taken into Kirkwall and detained there. This intelligence reached New York after a two days' delay by the British censors, the dispatch being filed last Monday and delayed in transmission till yesterday. The dispatch also stated that the Swedish steamer Varing, from Savannah for Swedish ports, likewise was detained by the British authorities.

In maritime circles the detention of the Bergensfjord, apart from the fact that Dr. Dernburg and his wife were aboard, was not regarded as of unusual significance, although in most cases where trans-Atlantic liners have been detained in the past, the delay has been longest on the westbound voyage.

THAW AS WITNESS AGAINST HIMSELF

Will Be Called by State in Hearing to Determine His Sanity.

New York, June 24.—Harry K. Thaw will be called by counsel for the state as a witness against himself in the hearing now in progress here to determine whether he is sane, according to an announcement today by Deputy Attorney General Frank K. Cook. The state's purpose in adopting this plan, it is understood, is to avoid the restrictions which would limit his cross-examination and to lay his story of the killing of Stanford White before the jury shortly before it retires to consider a verdict. Thaw's brief direct testimony yesterday dealt chiefly with his escape from Matteawan and subsequent incidents.

Thaw said before the taking of testimony began that he had no fear of Mr. Cook's examination.

"I do not care what he asks me," he said. He can go as far as he likes."

Conviction that Thaw is a rational man was expressed today by Gustave C. Roeder, a newspaper man; William L. Shurtleff, an attorney at Coaticook, Can.; John E. Smith, a Sherbrooke, Que., newspaper man; Robert A. Ewing, a Sherbrooke alderman, and others.

HERRON BEQUEST IS VALID.

Indianapolis Art Association Defeats Relatives in Suit.

Indianapolis, Ind., June 24.—The bequest by the late John Herron of practically all his property to the Art association of Indianapolis, for the benefit of the John Herron Art institute, was held valid by Judge Thornton in the superior court. Distant heirs of Mr. Herron brought suit to set aside the bequest, which involves about $200,000.

PEACE HOPE NOW WANING

Little Likelihood of Mexican Factions Settling Their Differences.

CARRANZA WILL NOT HALT HIS CAMPAIGN

Army Under Gonzales Has Reached Suburbs of Mexico City.

Washington, June 24.—Official hope that the heads of the warring military factions in Mexico would settle their differences waned today. General Carranza's notice to the United States reiterating that he would not agree to a truce with General Villa pending a discussion of peace was responsible. He announces his intention of continuing his military career to crush his adversaries.

Gen. Carranza has all along declined to accept Gen. Villa's peace overtures as well as suggestions of foreign mediators in Mexico's internal troubles. His attitude, as expressed to the United States, therefore, was no surprise to officials in Washington.

EXPECTS ITS SURRENDER.

Gonzales and Carranza Army at Suburbs of Mexico City.

El Paso, Tex., June 24.—A Carranza army under General Pablo Gonzales, has reached the suburbs of Mexico City, according to a telegram received by the Carranza gency here today from Vera Cruz, dated yesterday.

Zapata forces in Mexico City have entrenched themselves, according to information reaching here today, from Gen. Pablo Gonzales. For this reason, the general says, and because he wishes to spare the city the horror of an attack, he has delayed his movement of occupation.

Gen. Gonzales reports he has food supplies for the civil poulation, which will be taken into the city as soon as possible. He expects the surrender of the capital by the Zapata forces, or their evacuation of it.

LAY CAPITOL CORNERSTONE.

Event Under Auspices of Masonic Fraternity in Missouri.

Jefferson City, Mo., June 24.—Between five and ten thousand persons came to Jefferson City today to witness the laying of the cornerstone of the new Missouri state capitol. The ceremonies were under the auspices of Masonic fraternity. The capitol is to cost between $3,000,000 and $4,000,000. The steel work has been finished.

1,200 AFTER DIXIE BEE LINE HIGHWAY

Evansville, Ind., June 24.—Over 1,200 men, representing seven counties in Kentucky, five in Indiana, two in Tennessee and two in Illinois, assembled here this morning and formed a temporary organization to select a route for the Dixie Bee Line highway from Chicago to Nashville, Tenn. The crowd was so much larger than was expected that it was necessary to secure a local theater in which to hold the meeting.

Each rival section through Kentucky and Tennessee carried large banners, showing maps of the proposed route. At the morning session Mayor Bosse, acting as temporary chairman, ruled that no speaker would be allowed to talk on the advantages of certain routes. The convention reconvened at 2 o'clock when the question of permanent organization was taken up.

DRAG MAUMEE FOR NEIREITER'S BODY

Chief Lenz Orders Search for Man Now Missing Over Week.

Pursuant to orders from Chief of Police Lenz the work of dragging the Maumee river below the Coombs street bridge in a search for the body of Henry Neireiter, who disappeared from his home in the rear of Emmaus school, on Broadway, more than a week ago, was begun with the police boat and drag-hooks Thursday morning. Station Master Joseph Degitz, of the police department, and Lieut. Theodore Walda, of the Central fire engine house, both of whom have had much experience in recovering dead from the Fort Wayne streams, were assigned to the work. They began at the Coombs street bridge, from which it was reported a man was seen to leap into the water the evening that Neireiter left his home with the statement that he was going to the river to go seining with two men. Nick Berg, who was reported to have seen the man leap from the bridge, has told Chief Lenz there is little in the story, but to satisfy Neireiter's family and friends the search was ordered.

A large crowd gathered on the Coombs street bridge and on the adjacent river banks as soon as the police boat was put in the water. Women seemed to predominate in the crowd and some of them were ready with precise information as to just what locations were most promising for finding the body. The river has been above normal stage for some time and there is a strong current that would be likely to take a body down stream. The first search was made among the stubs of old piling left after the bridge was completed.

The river was dragged from the Coombs bridge to a point four or five squares distant below the Anthony boulevard bridge without result. The search was then abandoned about noon. It is believed if any man had jumped in the river from the Coombs street bridge the body has been carried far down stream by this time.

RIDDLE TAKES STAND IN HIS OWN DEFENSE

Lima, Ohio, June 24.—Dorrance S. Riddle, 25, took the stand in his own defense here today in the first degree murder trial for the killing of his sweetheart, Susie Coleman, 16, and told his story of the crime.

He said he met the girl accidentally on the street on the night of the killing and that she grabbed him by the arm and started walking with him. She led him to the yards of the C., H. & D. railroad, he said, and accused him of being responsible for her condition, and when he denied it she struck him. Then he said he grabbed her and choked her. He said he did not intend to kill her.

LABOR COMMITTEE TO PRESENT ARGUMENTS

An interesting meeting of the board of school trustees will be held Friday evening in the office of Superintendent J. N. Study in the old high school building, at which time a committee representing the Fort Wayne Federation of Labor will be present.

The proposition to include a commercial course in the vocational school will be taken up. The trustees favor a commercial course in the high school on a four-year-basis, while the Federation of Labor is desirous of having the commercial course in the vocational school on a two-year-basis and will present arguments to Superintendent Study why in its opinion such a course should be established.

BONDS ARE AWATING SIX INDICTED MEN

Indianapolis, Ind., June 24.—Bonds signed by a security company waited in the sheriff's office for six men who were indicted by the Marion county grand jury for conspiracy and there were seven other capiases not served early today.

In addition to the seven others who are wanted by the sheriff there are three who have been accounted for, but one whom service has not yet been completed. One hundred and twelve men have given bonds.

John Cambron, who was in jail following his arrest Tuesday, was released on a bond signed by a surety company.

THOUSAND GET DIPLOMAS.

Annual Commencement Exercises at University of Michigan.

Ann Arbor, Mich., June 24.—One thousand graduates received diplomas at the seventy-first annual commencement exercises of the University of Michigan today. Dr. Wm. O. Thompson, president of Ohio State university, delivered the commencement day address.

TAKES OATH OF OFFICE

Lansing Now in Wilson's Cabinet as Successor of Bryan.

CHOICE PLEASES IN WASHINGTON

Foreign Diplomats Call to Extend Congratulations to New Secretary.

Washington, June 24.—The United States government today notified all foreign governments of the appointment of Robert Lansing to be secretary of state. Notice was also sent to all diplomatic and consular representatives of the United States in foreign countries.

Mr. Lansing took the oath of office today as successor to William Jennings Bryan. High officials, diplomats and close personal friends were on hand to witness the ceremony and to extend their congratulations.

Formal Announcement Made.

Formal announcement of the selection of Mr. Lansing was made by President Wilson before his departure last night for New York. Mr. Lansing has served as secretary of state ad interim since June 8, when Mr. Bryan resigned. He had been counsellor of the state department for more than a year.

One of President Wilson's last official acts before he left last night was to sign Mr. Lansing's commission giving him a recess appointment. His nomination will be sent to the senate upon the reconvening of congress. It is not believed that his confirmation will be opposed.

Washington is Pleased.

The president's action in naming Mr. Lansing for secretary of state, came in for widespreal commendation here today. In all quarters satisfaction was expressed.

The new premier of the cabinet is generally regarded as peculiarly fitted for his important post, because of his long training in the intricacies of diplomacy, his grasp of international law affairs and skill in handling them. Mr. Lansing is a recognized authority on international law and is intimately acquainted with the details of his department. He has drafted many of the most important state documents in connection with the pending negotiations with Germany and Great Britain.

Today was diplomatic day at the state department and representatives of foreign governments in Washington called to felicitate Mr. Lansing upon his appointment. He is very popular among the diplomatic corps.

TWO KILLED; TWO INJURED.

Chicago Contributes Still Another Automobile Fatality.

Chicago, June 24.—O. W. Franklin, 35 years old, of Burlington, Iowa, and Mrs. Eva Landaal, 25, of Chicago, were killed, and J. Wicker, of High Point, Iowa, and Miss Mattie Briggs, Chicago, were severely injured here today when the automobile in which they were said to be returning from Cedar Lake, Ind., struck a peddler's wagon.

LAST MINUTE NEWS

ACTION WILL THROW 150,000 OUT OF WORK

Chicago, June 24.—Taking the lead in action which it is estimated will throw 150,000 men out of employment in this city, the Edward Hines Lumber company, the largest in Chicago, announced today that on Monday it will close its twenty yards. Other building material firms, it is said, will follow this example. The crisis is due to the rejection of arbitration by the carpenters, who have been on strike for nearly two months.

GERMANS SUCCEED IN CROSSING DNIESTER

Berlin, June 24.—(Via London, 5:55 p. m.)—A further victory for the Austrian-German forces in Galicia was announced today at army headquarters. The army of Gen. Von Linginsen, which has been meeting with stubborn opposition from the Russians, along the Dniester river front, has succeeded in crossing the river.

SOLDIERS GUARD THE DANGER ZONES

Further Shocks in Imperial Valley Inflict Little Damage.

El Centro, Cal., June 24.—People of the various towns affected by a series of earthquakes during the last thirty-six hours, began today the work of reconstructing wrecked and damaged buildings, which represented a property loss of approximately $1,500,000.

At Calexico, Mexicali, Heber and in this city military rule was still in force. The streets were rapidly cleared of the debris of fallen walls and scattered glass. All of the buildings declared unsafe were roped off and soldiers kept the people out of the danger zones.

The damage in the different cities is placed as follows:

El Centro, $750,000; Calexico, $150,000; Heber, $60,000; Mexicali, $50,000. At Brawley, Holtville and other smaller towns the total damage is estimated at $200,000 more.

Two More Shocks.

Two more shocks were felt last night, following the two during the day, and those of Tuesday night. Fire broke out in three places last night, but the damage from shakes was slight. None of the issues were caused by any of the earthquakes, but the damaged buildings were twisted and crumpled.

The damage to the vast irrigation systems in the Imperial valley, which supply 400,000 acres, is considered comparatively slight and will be repaired at once.

The dead at Mexicali, number eight, four Americans and four Mexicans. The number of injured is placed at a score.

The four shocks felt yesterday occurred between four and 11:45 a. m. The quakes are attributed to disturbances at Black Butte, an extinct volcano at the head of Volcano lake. The tremors appeared to have been most severe towards the south of lower California. Volcano lake and Laguna Salada, on the south side of the Cocopah mountains, were greatly disturbed.

The levee at Volcano lake was reported safe today.

PANIC SEIZES HOTEL GUESTS.

Pasadena, Cal., June 24.—Dr. E. B. Merchant, who is here today from El Centro, told of the panic which seized the guests in the Barbara Worth hotel there when the first earthquake shock occurred Tuesday night. He clung to a pillar in the hotel lobby he said, watching scores of people fighting at the doors of the hotel for a chance to escape into the street.

After the shock had subsided he hurried to the depot to board a train.

"The first shock lasted about forty seconds," said Dr. Merchant.

"It started as a tremor, grew lighter, then increased in force. The shock broke off a piece of the fire wall which crashed through the glass roof of the court of the hotel. The second shock occurred when our train reached Imperial. The cars were shaken and another panic ensued, in which men and women flung themselves through the doors and windows in an effort to escape."

DERNBURG CALLS HIS MISSION SUCCESSFUL

Says America Has Been Given Better Understanding of German Cause.

"Some of the allies might take offense at some of my statements and interfere with my journey," he was quoted as saying. The steamer Bergensfjord, on which Dr. Dernburg was a passenger, was due to arrive in Bergen today, but a delayed dispatch from London received here last night said that the vessel had been detained at Kirkwall, Scotland, where it was understood the passengers and crew were undergoing an investigation.

The Tribune quotes Dr. Dernburg as saying that his mission in the United States though curtailed, had been successful.

"I feel that the great American public has been given a clearer and better understanding of the German cause and the German aims of this war," he added. "Germany at the beginning of the war was so isolated that the underlying motives for, and the German viewpoint of the war might never have penetrated through the circle of isolation with which our enemies have tried to surround us. If I have succeeded in presenting to the great, intelligent body of Americans the basic facts of this war as Germany sees them, and upon which her gigantic struggle is based, the main object of my mission will have been accomplished.

New York, June 24.—An interview with Dr. Bernhard Dernburg, the former German colonial secretary published by the Tribune today, was obtained here, that paper says, on June 11 under the stipulation that it should not be printed until Dr. Dernburg's arrival in Bergen, Norway.

cided. Personally I desire nothing better than to go to the front by the side of my oldest boy—a lad of 17 years, who is going to join the colors just as soon as I get back. But there may be other things for me to do."

Dr. Dernburg said that he would go immediately to Berlin and confer with government officials there. He positively denied that he would carry on any propaganda work from any of the Scandinavian countries.

CONGRATULATED BY EMPEROR.

Norfolk, Va., June 24.—Captain Thierfelder, of the German auxiliary cruiser Kron Prinz Wilhelm, interned here, has received a message of congratulation from Emperor William for his ship's exploits, according to members of the crew. The men are wearing medals received from Berlin and Captain Thierichens has been promoted several points in grade.

NOW FALLING BACK ALONG WIDE FRONT

Czar's Forces in Flight Before Victorious Austro-Germans After Fall of Lemberg

London, June 24.—The fall of Lemberg is being followed, according to Berlin advices by a general Russian retreat over a wide front. In the Lemberg district, the victorious Austro-German armies are said to be driving the Russians eastward, while to the west the armies of Emperor Nicholas are falling back from the country northwest of Przemysl, near the Russian border, and as far north as the district of Kielce, in Russian Poland, about 100 miles south of Warsaw.

The Berlin dispatch says the Russians near Lemberg kept up their resistance to the last, their line being cut in the north and finally in the center, before the city.

Hostilities are continuing with varying degrees of intensity along the whole Italian front. An official communication from Rome states the Austrian attacks at several points were repulsed. The report mentions no further advances by the Italians, except for one small gain, and apparently the invasion of Austria has been checked by the reinforcements brought in from the Galician front.

The Turkish forces in the Caucasus, which recently have undertaken a new offensive movement, are said to have won a fresh victory. An announcement from Constantinople says the Turks captured positions along a front of nearly two miles in the fighting in the direction of Olti, the Russians fleeing eastward.

Seven British fishing vessels have been sunk by a German submarine off the coast of Scotland. Most of the crews were saved.

RESISTED TO THE LAST.

Russians Fought Bravely Despite Hopeless Situation.

Berlin, June 24.—(Via London 12:20 p. m.)—Details of the taking of Lemberg, while still meagre, show that the Russian troops put up a strong resistance to the very last, and this in spite of the fact that their situation was hopeless.

Before the city fell the armies under General von Mackeuzen and Archduke Joseph Ferdinand had driven wedges deep into the northern section of the Russian line, even as far as Tanew, cutting this line into two detached parts. Under pressure from the northwest, and following especially an effective artillery bombardment by the army of General Boehm-Ermolli, the archduke completed the disaster by breaking the Russian center which was supported on Lemberg. At the same time General von Mackenzen pressed steadily on the soldiers of Emperor Nicholas, who were in full retreat along the line from Lemberg to Rawa Ruska. General Boehm-Ermolli assumed the pursuit of the enemy to the northeast and east of Lemberg.

As soon as the investment of Lemberg had been completed, according to the dispatches reaching Berlin, the Russians, threatened by the further advance of the Germans and the Austro-Hungarians, also began retreating from the angle in northern Galicia formed by the rivers San and Vistula, a section of territory which lies to the northwest of Przemysl as well as from the district around Kielce, in Russian Poland, about 100 miles to the south of Warsaw.

The victorious troops of the Germanic allies were given an ovation when they entered Lemberg. The city is described as having been little damaged, with the exception of a big fire in the western part, where the Russians ignited some petroleum and benzine tanks, the railroad station and a number of adjoining factories. The city apparently had not been touched by the artillery fire of the Russians and the Austrians.

Captured officers declare that even until very recently the fall of Lemberg had not been regarded as even a remote possibility by the Russians. The fortifications of the city had been modernized by them in every way.

The loss of Lemberg deprives the Russians of their last strong supporting point on Galician soil. The moral effect of the occupation also will be considerable. It is now being recalled in Berlin that three months ago Emperor Nicholas declared that the fall of Przemysl, in connection with the occupation of Lemberg, constituted an overpowering victory for the Slavs.

STRIKE AT MANY POINTS.

Austrians Seek to Repel Invasion by Italian Forces.

Rome, June 23.—(Via Paris, June 24, 8:15 a. m.)—The official statement issued tonight at the headquarters of the general staff of the Italian army was as follows:

"Along the entire front there has been an artillery duel between pieces of heavy and medium calibre. The enemy endeavored last night to attack particularly Monte Piano, Valgrande, Val piccolo, Cresmaverso (situated between Pizzocollina and Zellenkofel) and Crestaverde, which had been occupied by our troops yesterday.

"During the night of June 21-22 and continuing the following day the enemy made three desperate attacks against our position at Freikofel. All these attacks were repulsed successfully by the splendid fire of our military and the use of hand grenades. The enemy left two hundred bodies on the battlefield.

"In the bay of Plezzo preparations are being made by the Austrians for the installation of heavy artillery and along the neighboring heights convoys have been seen going from Plezzo toward the upper Isonzo.

"In the Monte Nero region and along the Isonzo the day of June 22 passed quietly."

Reports show that in 1913, 117,091 parcels weighing 50,319,360 pounds were sent through the Chinese mail. Modernization of the department is progressing rapidly.

DOCTORS DISCUSS VARIOUS DISEASES

American Medical Association Resumes Its Sectional Meetings.

San Francisco, Cal., June 24.—Sectional meetings were resumed today by the American Medical association, after its open meetings yesterday, at which the public was addressed on general aspects of health conservation by some of America's foremost physicians and surgeons.

Dr. Wm. Allen Pusey, of Chicago, discussed virulent blood diseases. Despite the general belief, he said, that certain specifics conquered one of the most feared of blood diseases, he had found it to be virtually incurable. An appalling spread of this disease has taken place in the last ten years, he asserted, and he predicted that the United States, if it did not find a means of applying a check, would face a situation similar to that of Mexico, where, he said, the majority portion of the population was afflicted.

"No disease is so seriously destroying the usefulness of youths and men in any locality as the hook-worm in its ravages on the people of the south," said Dr. John A. Witherspoon, of Nashville, Tenn.

"Its spread and effects are as speedy as they are disastrous."

Tuberculosis, malaria, yellow fever, cancer, diphtheria and typhoid fever were among the diseases discussed and the public was instructed how to avoid these maladies.

KILLED IN AUTO ACCIDENT.

Traction Claim Agent Meets Death Near Ben Davis.

Indianapolis, June 24.—Joseph H. Pierson, of Valley Mills, claim agent for the T. H. I. & E. Traction company, was killed late yesterday in an automobile accident. Pierson was on his way home from Indianapolis when a mile and a half south of Ben Davis his car turned over, pinioning him beneath. He was alone and the cause of the accident is not known.

Pierson was 45. He leaves a widow and a daughter, Miss Sarah Pierson, a teacher. He was a democrat, a school mate and friend of Mayor Bell, of Indianapolis, and served one term as state representative.

MUCH DIFFERENCE ASSERTS HOLY SEE

Vatican Says Its Official Documents Alone State Position Accurately.

Rome, June 23.—(Via Paris June 24, 4:40 a. m.)—The Osservatore Romano, the official organ of the vatican, publishes the following relative to the interview attributed to Pope Benedict by Louis Latapie in La Liberte of Paris:

"To put our readers and all discerning and impartial men of all nations on guard against arbitrary interpretation of the mind of the Holy See, we are unable to let pass without remark the account of the interview of a foreign journalist with the sovereign pontiff, published and commented upon in the newspapers.

"To cut short these interpretations and commentaries we recall that there is an essential difference between the official public documents of the Holy See and private publications. As to that which concerns the European conflict, the thought of the sovereign pontiff is not doubtful because it has been clearly expressed at different times in numerous pontifical documents, namely the encyclical of Nov. 1, 1914, the Christmas discourse to cardinals, the consistorial allocution of January 22, 1915, many letters from the pontiff to cardinals and prelates and the recent letter of May 20 to Cardinal Vannutelli, head of the Sacred college.

"These official public documents reflect exactly the ideas of the pope and Holy See, who accept all responsibility. The other documents, namely private publications, and also the one discussed today, can contain and do contain in fact, a number of inaccuracies.

"Several of these inaccuracies are so evident it is useless to point them out."

SHAPLAND MANAGER NEW UNION STORE

W. B. Shapland, formerly of Kendallville, has been named as manager of the Fort Wayne Union Co-operative Department store soon to open in the Randall building on Harrison street. Mr. Shapland was in charge of a general store at Butler some years ago and later was engaged in the real estate and insurance business at Kendallville.

The first meeting of boosters was held Wednesday evening on the fifth floor of the quarters to be occupied by the new store, there being an attendance of from 600 to 750. The name of the manager was announced at that time. A meeting of the stockholders will be held next Wednesday night.

MUNCIE CASES GO OVER TO OCTOBER

Supreme Court Delays Its Ruling in Alleged Graft Cases.

Indianapolis, June 24.—Whether Judge Ellis, of the Delaware circuit court, was within his rights when he disqualified the regular prosecutor and, upon recommendation of the grand jury, appointed a special prosecutor to conduct the alleged graft cases filed against Mayor Rollin H. Bunch, of Muncie, and other officials, including a deputy prosecutor, will not be determined by the supreme court until its October term.

Attorneys appeared before the court yesterday to present their arguments, but when it was determined that they had prepared their cases in haste and could not file their briefs in time to permit the court to arrive at a decision before it adjourned tomorrow for the summer, it was decided to wait until the October term.

Twenty days are to be given for the filing of a brief by the plaintiff, then twenty days are to be allowed the defendant to file an answer and an additional ten days will be given for the filing of a reply brief. With the situation as it is in the supreme court the status of all the Muncie cases will remain unchanged until the legal question submitted is decided.

The grand jury and Judge Ellis have favored the handling of the prosecution by a special prosecutor because Prosecutor J. Frank Mann is said to have expressed the belief that his deputy, Gene Williams, is guiltless. William A. Thompson was the special prosecutor named by the court. Whether he will be permitted to carry the prosecution to a conclusion is now to be determined by the supreme court, which, under a new act, has original jurisdiction in writs of mandamus.

JEWELERS IMPOSED UPON, THEY ASSERT

Indianapolis, June 24.—The jewelry mendation of the grand jury, appointed "imposed upon" business in the world at the meeting of the Indiana Retail Jewelers' association at the Hotel Severin yesterday afternoon. It was declared that in no other business do the proprietors and employes do so much "thank you" work, and it was agreed that fees, however small, should be asked for such services as straightening eye glasses, cleaning rings, etc.

The principal address of the afternoon was by John L. Shepherd, of New York, who had for his subject, "Mutts and Ginks." These epithets he attached to jewelers who will not join their state association, and who take the attitude "peace on earth, good will toward men—with the exception of my competitors." Shepherd urged all the jewelers to work for the passage of the Stephens bill.

"The inability of the jeweler to state what his goods shall be sold for, and what his profits shall be, is one of the greatest obstacles to the trade," he said, "and another is the great mail-order houses."

Walter H. Mellor, of Michigan City, a member of the executive committee of the National Jewelers' association, spoke on "Organization," and urged the jewelers to join their state associations.

NEWS OF FORT WAYNE'S NEIGHBORS

ELKS VISIT COLUMBIA CITY.

Columbia City, Ind., June 24.—Wednesday afternoon four auto loads of men arrived in this city from South Whitley, where they gave a street parade similar to the one given here. The men were members of the Elks' lodge of Huntington and were in the city in the interest of the Huntington Elks Big Day, July 5. The men formed in line in the west end of the city and marched down Van Buren street with the Huntington Elks band playing various selections. The band boys wore purple caps and coats and white trousers. They played several pieces while in front of the court house monument, and are planning on a big day in Huntington on July 5th. The advertising caravan visited North Manchester, South Whitley and this city yesterday. The instruments used by the band were for the most part paper horns.

BOY MAY RECOVER SIGHT.

Bluffton, Ind., June 24.—Relatives and friends of Joe Cupp, aged 19, son of Otto Cupp, of Uniondale, blind in one eye since the age of twelve, are hopeful that he may receive permanent restoration of his sight from treatment which he is now receiving from a Fort Wayne specialist. He became apparently totally blind last Sunday night, while riding a bicycle from Uniondale to his home one mile south of that place. It was long after nightfall when he discovered that he could not see and had to dismount. Delmar Lockwood came along and discovered him and took him home. He lost the sight of one eye when he was struck in the eye by an arrw thrown thrown by his brother.

MONTPELIER "WETS" ORGANIZE.

Montpelier, Ind., June 24.—Montpelier "wets" are actively at work in an effort to combat the activities of the "dry" workers there. It is reported that later in the campaign the liquor forces are to bring speakers to Montpelier. Whether this is true is not known, but the "wets" are also carrying on their fight in other ways as well. Following are the names of the officers of the "wet" organization: Jack Winings, president; Walter Bouge, vice president; T. C. Peterson and Orville Pursley, secretary and treasurer. The offices of Pursley & Peterson are used, in the main, as headquarters for meetings.

BLUFFTON MAN FLIMMED.

Bluffton, Ind., June 24.—Brooks White, a clerk at the J. H. Foncannon grocery on West Washington street, was the victim today of a clever shortchange artist, who flimmed him neatly out of $10, in a transaction that occurred about noon, at the grocery. Before White realized that he had been victimized the man who short changed him and a companion had departed in a Ford automobile, in which they had driven up to the grocery, and had a start of probably fifteen minutes before White tumbled to their game and notified the officers and had them seeking to trail the two autoists.

AUTO HITS GIRL; ARM BROKEN.

Huntington, Ind., June 24.—Lucile Menson, of six miles northwest of Markle, stepped in front of her brother's automobile and sustained a broken left arm when she was thrown to the pavement. Her brother was waiting for her at the court house on Warren street. As she came up to the car her brother stopped. The girl, from accounts of those that saw her, started to get into the rear seat, but changed her mind and went around in front of the machine. Her brother evidently thinking that she had gotten into the car started to go ahead and ran the girl down.

YOUTH OF 17 IS MISSING.

Bluffton, Ind., June 24.—Charles Tschannon, aged 17, son of Fred Tschannon, living near Craigville, is missing from his home and his father is seeking a trace of him. The boy rode his motorcycle to town Saturday night and left it here, returning to his home with a neighbor. He came back to town Sunday for his motorcycle and has not been seen since, although it was learned that he had been at Fort Wayne, came back to Bluffton and started in another direction.

AUTO LINE NOW RUNNING.

Montpelier, Ind., June 24.—The automobile line, which was started between this city and Marion by William Sinclair and sons, is going nicely. The first trip to Marion was made without any trouble. The roads are in good condition and good time was made. The honor of being the first passenger on the route fell to Mrs. McIntire, who went from this city to Roll. On the first trip Mr. Sinclair used a passenger car which was followed by a combination passenger and baggage car.

FIRST SETTLED; NOW SUES.

Huntington, Ind., June 24.—Declaring that he had been duped into settling for injuries sustained when he was knocked down and seriously hurt by an automobile driven by John Roush for only $35, George G. Byram filed suit in circuit court against Mr. Roush and Sid Hall, the owner of the car, asking $1,000 damages. The complaint, which was filed by Kreig & Sapp, names Z. T. Dungan as the man who "fraudulently represented he was their (Mr. and Mrs. Byram's) friend."

BAN ON OLD TOWN PUMP.

Wabash, Ind., June 24.—The old town pump may go. This will occur if the plans of the Tri Kappa sorority are carried out and the county dads act favorably upon their petition which is being circulated throughout the county to remove the old iron pump, which for more than a quarter of a century has stood on the northwest corner of the court house lawn, and supplant it with a modern drinking fountain. The petition has almost a hundred signers.

CONFESSES OTHER THEFTS.

Van Wert, O., June 24.—Sheriff Herman Gunsett has returned from Columbus where he had taken Millard Matthews to the Ohio penitentiary to serve an indeterminate term. On the way down, Matthews told the sheriff the inside of a number of thefts that have been pulled off in Harrison township, and as a result Mr. Gunsett, accompanied by former Sheriff H. B. Wilson, made a trip to that vicinity to investigate Matthew's story.

Genesis 27:15-28.

15 And Rebekah took goodly rainm ent of her eldest son Esau, which were with her in the house, and put them upon Jacob her younger son:

16 And she put the skins of the kids of the goats upon his hands, and upon the smooth of his neck;

17 And she gave the savoury meat and the bread, which she had prepared, into the hand of her son Jacob.

18 And he came unto his father, and said, My father: and he said, Here am I; who art thou, my son?

19 And Jacob said unto his father, I am Esau thy firstborn; I have done according as thou badest me: arise, I pray thee, sit and eat of my venison, that thy soul may bless me.

20 And Isaac said unto his son, How is it that thou hast found it so quickly, my son? And he said, Because the Lord thy God brought it to me.

21 And Isaac said unto Jacob, Come near, I pray thee, that I may feel thee, my son, whether thou be my very son Esau or not.

22 And Jacob went near unto Isaac his father; and he felt him, and said, The voice is Jacob's voice, but the hands are the hands of Esau.

23 And he discerned him not, because his hands were hairy, as his brother Esau's hands: so he blessed him.

24 And he said, Art thou my very son Esau? And he said, I am.

25 And he said, Bring it near to me and I will eat of my son's venison, that my soul may bless thee. And he brought it near to him, and he did eat: and he brought him wine, and he drank.

26 And his father Isaac said unto him, Come near now, and kiss me, my son.

27 And he came near, and kissed him: and he smelled the smell of his rainment, and blessed him, and said, See, the smell of my son is as the smell of a field which the Lord hath blessed:

28 Therefore God give thee of the dew of heaven, and the fatness of the earth, and plenty of corn and wine:

The New Secretary of State

President Wilson's selection of Robert Lansing as secretary of state to fill the vacancy occasioned by the resignation of Mr. Bryan at a most critical time appears to be not only an excellent one from the standpoint of qualification, but we believe it will be immensely popular with the country at large.

The country is willing to admit that it has not known a great deal of Mr. Lansing, but what it has seen it likes thoroughly. For a good many years Mr. Lansing has been quietly and efficiently doing a lot of important work for Uncle Sam. He has not been in the limelight, but his familiarity with international affairs and international law is freely acknowledged, and he is a "big" man altogether out of proportion to the minimum of attention he has attracted.

It will be noted, also, that he has been chosen without having had the backing of powerful friends or especial political support. It is clear that the president selected Mr. Lansing solely upon the basis of efficiency, and not because of his "pull" or because of the belief that any particular section of the country should be accorded "recognition" of that sort.

The premiership of the cabinet is, in many respects, next in importance to the presidency itself. Just at this time the place in invested with especially important responsibilties and a complexity of intricate problems which do not attach to it in times when the world is at peace. Mr. Lansing will have the complete confidence of not only the administration, but of the country at large. It believes he is big enough for the job, and it rather likes the way he takes hold of affairs.

The case of Charles L. Goetz, former mayor of South Bend, whose death has just occurred at Hot Springs, Ark., after an illness extending over something like a year, is another illustration of the possibilities that may be seized upon by the apt young man. It is recalled that Mr. Goetz came to South Bend on a freight train, "beating" his way with scarcely a cent on earth. Twenty-nine years later he was inaugurated mayor of the city, and had acquired a fortune in the manufacture of cigars. Long prominent in politics and frequently mentioned for the governorship of the state, it was nevertheless a disappointment in politics that is believed to have hastened his death. Surmounting many difficulties and discouragements in life for himself, he was unequal to the task of smiling under a blow to his political hopes and aspirations for another whom he desired to succeed him in the mayoralty chair.

The elimination of the grade crossing of the Goshen road and the Grand Rapids and Indiana railway, just north of Fort Wayne, which has just been ordered by the public utilities commission, will remove a danger that has been recognized for many years. The Goshen road is one of the extensively traveled highway, used by hundreds of people daily in travel to and from the city, and the possibility of accident at the crossing is always acute. The grade separation will be worth all it may cost to both the county and the railroad in removing the liability to fatality at a most dangerous point.

Arguing in Washington over the proposed freight rate advances asked by western railroads, the attorneys have reached the issue as to who really pays the freight on grain—the farmer or the consumer, and the verbal contest seems likely to result in a tie. Neither side is disposed to yield a point beyond the reluctant admission that the railroad doesn't pay it.

An Indianapolis man was held prisoner in a telephone booth at Winona Lake for two hours because the self-locking door of the cabinet insisted on working overtime. The really interesting part of the incident, however, is whether or not the toll operator charged him up for the entire time the booth was occupied.

A good many of those young fellows you now see hustling along the street looking worried are doubtless from the new crop of college graduates seeking business men who are eager to award jobs to persons who ran 100 yards in ten seconds and jumped six feet two inches over a pole.

Harry Thaw has now gone on the witness stand in his own behalf and admitted that he is sane. And Mr. Thaw is clearly of the opinion that that ought to settle the thing without further unnecessary fooling with the testimony of the learned and bespectacled alienists.

SEEKING SOLACE, WOMAN RISKS LIFE IN PHILIPPINE JUNGLE.

Mrs. T. B. McClintic and daughter, Thomasia.

San Francisco, June 22.—After many exciting adventures in the southern portion of the Philippine islands, where she sought solace following the death of her husband, Mrs. T. B. McClintic, who before her marriage three years ago was prominent in Washington social circles, is in San Francisco today. Accompanied by her small daughter, Thomasia, she arrived on the steamer Mongolia.

Mrs. McClintic, who is the daughter of the late Charles F. Drexel, of Washington, early in 1912 married Dr. Thomas B. McClintic, of the United States public health service, who was one of the foremost experts in the treatment of fevers in this country. Her married life was brief. Two months after the wedding Dr. McClintic went to Montana to combat an epidemic of Rocky Mountain spotted fever and himself fell a victim to the malady and died. A year later Mrs. McClintic told her friends she would seek to forget in another country and left for the Philippines, where her brother is president of a bank.

During her stay Mrs. McClintic visited many of the wildest and most inaccessible points in the islands—places that no white woman had seen before. Many of her trips were by mule back.

"Most of the time I was on the islands of Mindanao and Jolo," said Mrs. McClintic, "but I also visited several of the smaller islands of the group where there are no white settlements.

"A good many advised me repeatedly that I was going into danger, but I never got into any serious difficulties. I think I saw the most primitive natives in the islands but they never molested me. The only way to describe the 'expedition' is that they were interesting."

TO DECIDE A CHILD'S FUTURE.

(Indianapolis News.)

Science progresses. Dr. Marion Pritchard von David, of Boston, has perfected a machine that determines the vocational tendency of a child. Potential doctors, lawyers, merchants, bankers, artists need lose no time hereafter in finding themselves. The machine does that for them. The child merely plunges his hands into cups of mercury, answers a few questions and rises from the test to receive a curve map showing irrefutably the sort of work toward which his entire system tends. He can not deceive the machine and the machine cannot deceive him. He may be satisfied or not, but his destiny is disclosed: he knows what he ought to do.

Harassed parents, confronted by doubts and perplexities as to a suitable career for eldest or youngest, boy or girl, will greet the new apparatus with delight. To them its value, if only for the relief it may afford, is incalculable. It relieves them of a tremendous weight of responsibility. It puts an end, moreover, to family disputes having source in the choice of a lifework for either son or daughter. There will be no denying the verdict of the machine. The world, too, will be better off for the invention, for, while it operates, there will be no misfits in business or professional life, no discontent, no regrets—nothing, in short, except blissful satisfaction in doing the work that one is by nature and inclination best qualified to do. Chance is eliminated; error descends to the irreducible minimum.

Still, though by no means intending to be discouraging, we wonder whether this machine, even granting it is everything claimed for it, will prove successful. Is it not, after all, contrary to human nature? May not Johnny, determined to become a circus bareback rider, rebel violently against the general perversity of things inanimate when the apparatus informs him that he ought to be a missionary to China? And what will fond and proud father have to say when, after building up a big business for his only son to take over and build bigger, the offspring dips his fingers into the mercury cups only to learn that nature has cut him out to be an imagist poet? We fancy that in such instances—which are the rule, in one form or another—the machine will not prevail. Things, in other words; will go on very much as they go on at present. Youth will find its way and find itself as it does now—by the general sifting, settling process of experience.

THAT JOLIET TRAGEDY.

(Grand Rapids Press.)

Joliet prison, which is to Illinois what the prison at Jackson is to Michigan, enjoyed the honor rule. The warden's wife is dead and her body scorched and mutilated as the result of a diabolical crime, in connection with which several trusties have been incarcerated pending investigation.

The conclusion of the average man would be that the system is a fizzle. That is also the conclusion of the 1,800 prisoners who, enraged at the atrocious crime and at the prospect of losing their privileges as the result of one man's refusal to "play the game on the square," sought to lynch the chief suspect.

Not so the warden. Bereaved and heartbroken the man declares his continued belief in the plan of placing committed men on their honor. Because his wife has been killed by a friend he is not willing to admit that all the constructive work they did together for the inmates during two years of "honor rule" penology has been so much wasted time. Even in his hour of direst trial continued faith in human nature comes to the rescue of Warden Allen. There speaks a man.

RIP VAN WINKLE WINS.

Mock Trial is Held by Sons of Veterans Wednesday Evening.

Rip Van Winkle was awarded damages in the sum of $5,000 at the mock trial conducted Wednesday evening by Captain James B. White camp, Sons of Veterans, in the G. A. R. hall in the Lincoln Life building. Attorney Frank Emrick presided as judge, with Attorneys Louis Crosby and David Hogg as opposing counsel. C. P. Josse and T. W. Blair acted as assistant counsel.

The title of the case was Rip Van Winkle vs. Herman Winkelmeyer, a criminal action involving the charge of putting knockout drops into the jug from which Rip drank and was put to sleep for twenty years. There was also a suit for damages involved in which Winkelmeyer, the saloonkeeper, was sued for $20,000 for being the cause of Rip's downfall.

Winkelmeyer turned out to be W. F. Geller, while Cyril Chandler played the part of Rip. Frank Chalfant took the part of Dr. George Washington, etc., Gugo, the celebrated druggist. Both sides pleaded their case most eloquently and forcefully and it was some little time before the jury could determine upon an equitable verdict. Finally, however, they found for poor Rip, awarding him damages in the sum of $5,000.

Music was furnished by Miss Elsie Josse and Aaron Huguenard, pianists.

Goodyear Fortified Tires
Cost Users $5,000,000 Less

Our last price reduction—made February 1st—will save Goodyear users about five million dollars this year. And that was our third reduction in two years, totaling 45 per cent.

Yet Note This

Yet Goodyear Fortified Tires embody many extras. Five are costly features found in no other tire. The rest are found in few.

If we omitted those extras, we could save on this year's probable output $1,635,000. We could add that to our profits, yet Goodyear tires would look as good as now.

This year's improvements alone will cost us $500,000 this year. All to give you extra wear. And we shall spend $100,000 on research this year to find more improvements still.

They Are Yours

These extras belong to you. They mean less rim-cuts, less blowouts, less loose treads. They mean more rubber, more fabric, more mileage, less trouble. Most tire users know that, so Goodyear tires far outsell any other.

Prove it yourself this summer. It will bring you tire contentment.

Any dealer, if you ask him, will supply you Goodyear tires.

Men are now adopting Goodyear tires faster than we can supply them. We have never seen anything like it.

Purpose of Flood Prevention Petitions

Some Fort Wayne citizens have suggested that unless the exact methods to be employed to obtain relief from flood waters are outlined by the leaders of the movement it will be difficult, if not impossible, to procure the required number of signatures to the petitions. It is pointed out that there are many taxpayers who will not support the project unless the particular method they favor is adopted. A moment of reflection will convince any person that the leaders, were they so disposed, could not indicate positively what plan will be followed. Reasons why they could not are plentiful and obvious. The very reason for the creation of a flood prevention board is to delegate authority for a comprehensive investigation to determine what method or methods will be the most effective, yet the most economical, to accomplish the end in view. Before the board can decide upon a plan it will be necessary for them to employ competent engineers who will study the flood problem as it affects the whole county and evolve a method which will solve it. Until the petitions are properly signed there is no body vested with authority or means to make such an investigation that is necessary before a definite plan can be outlined. The gentlemen who will comprise the board do not pretend to know just what plan will best dispose of the difficulty at the least possible expense. That is the big and intricate problem which must be worked out after a body commissioned to deal with the matter comes into official existence. The all-important feature of the flood prevention movement at this time is the signing of petitions. After that is done the responsibility will shift to the joint board. Boost the interests of yourself and the community by signing the petition.

SUMMER SCHOOL OF MISSIONS UNDER WAY

Daily Sessions to Be Held for Entire Week at Winona Lake.

Winona Lake, Ind., June 24.—The eleventh annual session of the Summer School of Missions convened here yesterday. Meetings will be held every day and evening for a week. The school is held under the auspices of the interdenominational committee of the central west for missions, and represents the women's boards of missions of seventeen denominations. About five hundred delegates are expected. The principal speakers will be Mrs. D. B. Wells, of Chicago; Mrs. J. F. Fisher, of Cleveland; Miss Angy Manning Taylor, of the Moody Bible institute, Chicago; Miss Ruth Shipley, of Wyoming, Ohio; Mrs. Abbie H. J. Upham and Miss Elizabeth I. Cameron. There will be a number of returned foreign missionaries at this school and they will take part in the meetings. Mrs. Winifred Wirtz Dague, a gifted leader of song, will direct the music.

Miss Elinor J. Atkinson, of Indianapolis, has opened the Swiss Terrace hotel, and will have charge of it during the season. This hotel is one of the headquarters for the school of mission delegates.

Capt. George Reddick, of Faribault, Minn., is on the grounds. He has opened up his cottage, the Tippecanoe, and he will be superintendent of admissions, as in former years.

Dr. Chas. Little and wife of Wabash returned to their home yesterday, after having spent a few days at the park.

The bowling alley will be under the management of Sam Graves this summer. The premises have been renovated and made attractive and Sam says no place of business will be the magnetic spot of Winona this season.

James Fristoe and family, of Decatur, are at home in their Winona cottage, the Frisleod, on Park avenue.

Miss Nelle Stuart has opened Bethany lodge and will be the matron of this building, which is used for a Bethany dormitory during the coming season.

No sooner had Captain Pine arrived at Winona than there were evidences on every hand of his artistic work. The bathing pier has been transformed into a miniature world's exposition. The pier is decorated from one end to the other with graceful banisters of stucco material. At the extreme end is a magnificent column surmounted by an American eagle. From the beak of the eagle floats a large Winona pennant, which is surrounded by electric lights. At the middle of the pier the captain has constructed a monstrous lion. Other embellishments on the pier and about the bathing house suggest the presence of the man who in former years created the scenic displays for the Winona venetian night.

Trustee Lloyd D. Claycombe is known to be the moving force back of the extensive improvements that are going on throughout the park, and visitors will be agreeably surprised when they arrive within the gates this year.

Mrs. Lincoln G. Dickey, who has been in the south for several weeks, traveling with Mr. Dickey on his Redpath circuit itinerary, has returned to her home at Winona. Prof. E. O. Excell has announced that Mrs. Dickey will be his principal solo singer for the coming season.

W. P. Carmichael and family have leased the Sunshine cottage on the island and are now occupying it.

Carl Beyer has resumed his old position of superintendent of the park. He has a force of workmen now engaged in building the platform for the Hiawatha Indian performance. Carl is a man of exceptional judgment in such work as will be his this summer. He studies to accommodate the people, while at the same time he carries on the general work pertaining to the park management.

Willis Melching and family, of Ossian, are visiting with Marshall R. A. Hatfield.

Evangelist Milford H. Lyon has closed his meeting at Terre Haute and is taking a week's rest at his home in Winona.

SUFFER FRIGHTFUL LOSSES.

Few of Princess Pat's Canadian Regiment Have Escaped Death.

Ottawa, Ont., June 24.—How the regiment of the Princess Patricia's Canadian light infantry suffered tremendous losses and was all but wiped out in the Ypres-St. Eloi Salient, is described at great length in an eye-witness account from Sir Max Aitken, the Canadian record officer, cabled to the military department here last night by the war office in London.

Sir Max Aitken recounts the activities of the regiment from Sunday, August 23, 1914, when it left Ottawa.

"Few indeed, are left of the men," the Canadian record officer says, "who met in Lansdown park, Ottawa, to receive the regimental colors nearly a year ago."

Grimsby, England, is the fishing capital of the world.

Wyatt—Steinbacher.

Miss May Esther Steinbacher, daughter of Mr. and Mrs. John Steinbacher, and Mr. Clarence Wyatt, son of Mrs. Mary Wyatt, were married at St. Patrick's church on Wednesday morning, by Rev. J. F. Delaney. A cousin of the bride, Miss Edith Diebold, of Arcola, and Mr. William Steinbacher, a brother to the bride, were bridesmaid and groomsman. The bride was gowned in a white crepe de meteor made with trimmings of chiffon and a bolero of lace. She wore a veil with a wreath of swansonia holding it to her hair. The bride carried a white prayerbook with marker of ribbon and swansonia. The bridesmaid wore a pale green silk trimmed with lace and velvet ribbon and a hat of white chiffon trimmed in pink roses. A bouquet of pink roses were the bridesmaid's flowers. After the church service the wedding party were served a breakfast at the home of the bride's parents, 418 West Creighton avenue. Covers were laid for twenty. The bride and groom are taking a short trip and will be at home as soon as they return in a newly furnished residence at 459 St. Martin's street. The groom is a machinist.

Schaper Family Reunion.

A reunion of the Schaper family was held on Sunday, June 20, at the home of William Schaper, four miles southeast of the city. This was the fourth reunion of the family and fifty-five members were present. In every way the meeting was a successful one, both in attendance and in enjoyment of the day. At 10 o'clock in the morning, the first event of the day, a ball game between the "scrubs" and the "dubs" came off. After the ball game a dinner was served and at 1:30 the athletic events took place. At 4 o'clock the business meeting was held and officers were elected for the ensuing years: President, Christ Schaper; vice president, Mrs. Fred Koenig; secretary, Miss Edna Nieter; treasurer, Wm. Schaper. There were present Mrs. Christ Schaper, Mrs. W. Hoffmeister, Wm. Schaper, Mr. and Mrs. Christ Schaper and family, Mr. and Mrs. Fred Koenig and family, Mr. and Mrs. Carl Schaper and family, Mrs. Lisetta Nieter and family, Mr. and Mrs. Ernest Herderhorst and family, Mr. and Mrs. Gottlieb Schaper, Mr. and Mrs. Lewis Weber and family, Mr. Fred Schaper, Mr. and Mrs. Arthur Finger and family, Mr. and Mrs. Gust Gick and family, Miss M. Sharpenburg, Arthur Koenig and Mr. Wente. The next meeting will be held at the home of Carl Schaper, near Woodburn, Ind.

Miss Sander's Pupils Play.

The following pupils of Miss Emma Sander, appeared in one of two recitals in Elks' hall, one on Tuesday evening and the other on Wednesday afternoon, to admiring audiences of friends and relatives of the children. There were a number of performers who manifested much natural musical feeling and ability to learn quickly that contributed to the success of their playing and everyone did as well as he or she knew how, which always counts for much. Mr. Simon, violinist, pupil of Mr. Bouillett, played violin obligatos to two of the piano numbers and Miss Ottilia Sander and Miss Miller did the most advanced work of the program. Those who took part Tuesday evening were Misses Billman, Biggins, Schaper, Katherine Myers, Bicknes, Lucas, Kanning, Audrey Stickley, Hollopeter, Miller, Heine, Randall, Kochlinger, Powell, Roussey, Mrs. Long, Mrs. R. Koerber, Alice Rabus, Francis Quidor, Emma Oetting and Esther Ortlieb played the sextette from "Lucia." On Wednesday afternoon the children who played were Melville Blaising, Hilda Auman, Norman Briggs, Kathleen Nelson, Blanche Romy, Helen Crum, Audrey Zeddis, Loretta Kickley, Alma Schele, Helen Mikesell, Margareth Heine, Robert Koerber, Olga Myers, Audrey Stickley, Elizabeth Powell, Sarah Grace Randall, Lola Billaman, Trilby Miller.

FINE PROGRAM AT ELKS' HALL.

Recital of Advanced Students Assisted by Bailhe-Stoeber Trio.

Advanced students and faculty members of the European School of Music, assisted at the close of their part of the program by the Bailhe-Stoeber Trio, gave a splendid program Wednesday evening in Elks' hall. Numbers for voice by Miss Pauline Heckman and Miss Marjorie Dailey, for the violin by Miss Georgette Bonelli, Miss Lillian Good, Miss Eunice Renner, Miss Clara Lange, Miss Christine Pepe and Charles Thornberg for the cello by Mario Mauri and for the piano by Henrietta Wasman, Jane Anderson, Mable Hiser and Helene Spindler, were all evidences of most thorough preparation in the direction of genuine musicianship. There was no sloppy work, in the way of blurred technique, indeterminate handling of chords, irregular and shallow tones on any instrument. Not every violin performer kept always to perfect pitch nor did all piano pupils always obtain the perfectly rounded and deep tone that the most of their work displayed. But there was in every instance evidence of clear thinking and a knowing how to do. The entire program was more than creditable. In the case of Miss Christine Pepe, for instance, there was a marked improvement in tone work. The St. Saens prelude with its long sustained legato melody was far more difficult to Miss Pepe than something with many runs, thrills, etc., and it did her friends good to hear her. All the singing was very good. Miss Heckman is from Decatur and her voice is pleasing and promising. Miss Dailey's attractive stage presence and sweet voice brought her an encore. Miss Lange showed marked improvement in violin work while young Mr. Alexander, whose talent has been in evidence for two years only, is doing fine work and continuing to progress in every way. Miss Good, Miss Renner and little Georgette Bonelli are other less advanced but musical and intelligent violin pupils. Miss Jane Anderson did beautiful piano work and won praise on all sides by her rendition of Chopin's first ballade. Miss Wasman played a Beethoven sonate very well. Miss Mamel Hiser, a teacher at the school, played an exacting and difficult technical number, and displayed a very well developed technique of wrist, arm and hand. Her runs were as clear as those of an artist. Miss Helene Spindler played the Moszkowski concert waltz in splendid style from every viewpoint of pianoforte accomplishment. A brilliance of execution and a rhythmic grace of expression in bringing out charming melody of the work were noted characters of Miss Spindler's playing. The audience was delighted with her performance. The Bailhe-Stoeber Trio closed the program by playing the extase by Ganne and the air de ballet by Chaminade, both of which were entirely artistic.

AT THE TEMPLE.

DUTY OR SELF INDULGENCE?

"The Third Degree" Hinges on Which a Woman Will Choose.

A conscience fully alive to its mission lashing her on to make a clean breast of the part she played in the suicide and self indulgence binding and gagging her into silence, Mrs. Howard Jeffries, sr., (Miss Alma Powell) the young stepmother of the youth wrongfully accused of murder in the Klein drama, "The Third Degree," which is being presented at the Temple by the Paycen Stock players, furnishes one of the interesting studies of this soul wringing drama.

The Paycen players are making a decided hit in Fort Wayne. W. B. Merrill whose life practically has been spent in theaters and who for several years handled a stock company in a big Pittsburg house, is particularly enthusiastic over the Paycen Players. "I've seen many a stock company in the cities, handled some myself in my twenty odd years in the theatrical business, and I remove my hat and make my best salaam to the Paycen Players. They are the best combination I ever saw," Mr. Merrill said.

MADAME SCHUMANN-HEINK'S ADVICE TO JUNE BRIDES.

"Can You Do What You Contract to Do When You Marry the Man of Your Choice?" Asks Most Beloved Singer.

The Famous Diva.

"Why do you 'pick on me?'" says the bride of June, with her cherry lips pursed up in a pout. "Does a sucressful marriage depend upon me entirely?"

"No, my dear child, the dearest chap in the world also needs to improve much before a perfect marriage (which is a heavenly state) can be attained. But to you I am dictating these articles."

Can you do what you contract to do when you marry the man of your choice?

Remember, if he fails in his part and does not support you, you have redress; according to law you can get a divorce for non-support, but if you do not spend judiciously the money that he earns, if you know nothing of the real duties of home-making and are careless; if you neglect through selfishness or want of knowledge the children that are born to you—he can do nothing. He can only grit his teeth and make the most of a bad bargain.

It is perhaps a most unpopular thing to say the truth—is usually unpopular—but it is, nevertheless, a fact that there are things more conductive to a happy marriage than love—respect, comradeship, friendliness, knowledge and acceptance of responsibility, trust, loyalty, forbearance, understanding, justice, self-sacrifice these are very necessary if you would carry out your part of the marriage contract.

And if to these you can add love with all its rapture, all its tenderness, all its unspeakable joy—then marriage will for you mean happiness that is rarely found on this somewhat unsatisfactory planet.

AT THE JEFFERSON.

"HYPOCRITES" AN ALLEGORY.

Paramount Drama at Jefferson Adopts Popular Style in Unusual Way.

The success of the allegorical drama upon the legitimate stage has prompted Lois Weber, one of the most efficient motion picture scenario writers in the world to adapt this popular form of dramatic expression to the screen, taking full advantage of those broader limitations made possible by the widened scope of the picture drama. In writing her epochal allegory, "Hypocrites," Miss Weber has departed somewhat from conventional lines, and instead of using symbolical figures like Intoxication, Frailty, Youth, etc., as in the stage success, "Experience," she uses her symbolic figures as expression of more spiritual motifs, centralizing the action of the drama around the character of "The Naked Truth." This role is given a most poetic interpretation by Marguerite Edwards, who has braved the criticism of the prudish element by appearing nude during the progression of the story.

CITY MOTHERS' BUREAU—CONFIDENTIAL ORGANIZATION FOR CITY'S WOMEN.

MRS. ALETHA GILBERT.

Los Angeles, Cal., June 22.—It remains to this city to have started a new civic betterment ball rolling in the establishment of a City's Mothers' Bureau.

The object of this organization is to prevent delinquency and protect dependents.

The city mother in chief, the first of her kind in the country, is Mrs. Aletha Gilbert, who has served, previously, as a police woman for years.

She is officially appointed by the chief of police and approved by the police commission and city council. She has an advisory board of eleven well known women who serve without pay.

This advisory board is called the City Mothers' Bureau, and while it is a branch of the police department, clothed with police authority, its offices are located away from the depressing atmosphere and environment of the police station.

It is a haven for troubled mothers and erring or ignorant girls who need advice or police protection.

The bureau is strictly confidential and does away with women having to face a morbid, curious crowd and the fear of publicity.

First offenses are reported to the home instead of the court. The conditions of wayward girls are bettered by placing them in private homes. Employment is found for those who wish it.

One of the greatest accomplishments of the organization which is just in its infancy now, is the establishing of a series of municipal dances given under the auspices of the bureau and chaperoned by the city mothers.

These affairs have caught the public fancy and apparently filled a long standing want, for the dancing parties held every Saturday night in the centrally located hall, are largely attended.

The next step will be to erect a free municipal amusement hall. Plans are being made to build an industrial school where young girls who are dependent, through neglect of parents, or who are without parents, can be taught to be self-supporting and take up any vocation to which they may aspire.

This place is intended to be a shelter, also, for the girl who has taken her first step in the wrong direction, but who is not really bad at heart. Mrs. Gilbert, who is a wonderful woman for the difficult position allotted to her, says she believes that the money for this school will be forthcoming when the scope and intent of the work of the City Mothers' Bureau is fully appreciated and understood.

"No definite limits are placed upon our activities," she says. "Our work extends along very broad lines. Where we see that conditions can be improved by a city ordinance, or a nuisance abated, we have been very successful in getting the city fathers to cooperate with us."

EMBROIDERY FOR THE YOUNGSTERS

ORIGINAL DESIGNS

Boy's Dombey Suit

By Madame Joan

THE best possible finish the proud mother can give her boy's suit— for the little fellows who are hovering between school age and babyhood—is hand embroidery.

The Dombey suit, a combination of shirt and trousers, usually fashioned of two shades, the waist white and the trousers of a contrasting color is especially adaptable to handwork treatment. Take a suit, for instance, of two shades of linen, the waist of white and the trousers of brown. The collar and cuffs are worked in brown of the padded design. Sometimes scallops are used for finishing the edges, sometimes the rolling edge is finished with a border of plain buttonholing.

Worn with white socks with a brown top and low shoes of either white buckskin or russet leather and a Milan hat, the small boy presents a picture which will be widely admired and approved for good taste and judgment.

(The above designs and more than 400 other transfer patterns from The World Famous Embroidery Outfit, with a complete equipment to make them, including hoops, needles, bodkins, stiletto and booklet, telling how to make all the stitches, can be secured from this paper at the nominal cost of 68 cents (7 cents extra for postage with mail orders) by clipping one Embroidery Coupon from this paper, coupon appearing in the paper every day.)

SPENDS DAY WITH HOUSE

(Continued from Page 1).

vine covered pergola where they entered and sat down.

During the stroll through the sunshine, the president and his host appeared to be engrossed in their discussion. The president asked many questions and listened in silence for long periods to Col. House's replies. No part of their conversation was divulged but it was generally known to members of the president's party that the topics were the European war and its developments, the attitude of foreign governments toward the United States, how the masses of the warring nations regarded the struggle and the prospects for peace.

What He Had to Tell.

What Col. House had to tell the president was gained from a trip started January 30, when he sailed from New York, and ended with his return here June 16, from Liverpool. During his stay abroad, Col. House visited Sir Edward Grey, the British minister of foreign affairs at London, and after a month's stay in London, departed for Paris, where it was reported he delivered a letter from President Wilson to President Poincare, of France. From Paris Col. House went to Berlin. He was received there by Ambassador Gerard and after a two weeks' stay called on the German imperial chancellor, Von Bethmann Hollweg. He then returned to Paris and later went to London. During his trip abroad it was several times reported that he was acting as President Wilson's personal emissary, but this was denied both by the president and Col. House.

It was recalled, in connection with the president's visit today that he had conferred with Col. House before the Mexican crisis of 1914. The information placed before the president by Col. House then was believed to have been considered carefully by the president in formulating his policy toward Mexico.

Visit Bryant Home.

Shortly before luncheon the president and Col. House, their arms linked, took a walk over the country road for a mile to the home of Harold Godwin, a personal friend of both, whose house was once occupied by William Cullen Bryant. The president was shown over the house. During the better part of their walk the president and Colonel House apparently were engaged in serious conversation. The afternoon was to be devoted to a resumption of the conference, varied by an hour or so of the president's favorite pastime, golf, or an automobile trip over the Long Island roads. Tonight the president was to resume his trip to Cornish.

Dr. Cary T. Grayson, the president's naval aide, accompanied him. Miss Margaret Wilson, his daughter, who was in New York, expected to join him at Roslyn later in the day.

BOYS JUMPING WAGONS KILLED

(Continued from Page 1).

are assisting the coroner in the investigation.

The Auer Accident.

Shortly before 7 o'clock the accident occurred that resulted in the death of Johnnie Auer, 8-year-old son of Mrs. Charles Lenz, 1433 Broadway, when he was crushed under the wheels of a wagon belonging to the Kaough Coal company that was being towed behind another wagon at Broadway and Wilt streets. The youngster's neck was broken and head crushed, death, it is believed, being almost instantaneous.

Noah Runnion, 1529 Franklin avenue, was the driver of the team and seated with him was Bruce Wachter, 1320 Marion street, his helper. They did not know that an accident had occurred until they were about seventy feet from the corner. Their attention was called to the boy by Eldon Leo Scott, a neighbor and playmate of the victim, who with the Auer boy's little six-year-old brother, was standing on the sidewalk.

A Morbid Crowd.

The body was picked up and placed in the rear seat of an automobile that had stopped in front of the residence of Dr. F. J. Schulz, and some one spread a blanket over it. In the course of five minutes a crowd of a thousand people had gathered, and traffic on Broadway was completely tied up.

Women with babies in their arms pushed against the side of the automobile bearing the broken little body, and lifted the coverlet that their own children should miss none of the details of the horror. The police surrounded the machine and although an occasional person broke through and peered at the body, the morbid crowd was kept a distance back.

Coroner Edward Kruse arrived within five minutes after the accident occurred and ordered the body removed to the Klaehn and Melching morgue.

Sister Died Recently.

Johnny Auer's year-old half sister died three months ago, and his father was killed on the Pennsylvania company seven years ago. One brother, the mother and the step-father, Charles Lenz, of the Electric works, survive.

Eldon Leo Scott and Johnny Auer were playing on the sidewalk together with Johnny's younger brother. The Scott youngster, who lives two doors from the Lenz home, rubbed his tear-reddened eyes and told of the accident.

"A Good Hop."

"We were playing on the sidewalk, the three of us," he said, "and Johnny saw the wagons coming. He said, 'Oh, there's a good hop,' and ran out in the street and climbed on in front of the second wagon. Then something broke and the front wheel runned over his head. I started to run over to him and he said "Help" very weak, and then the other wheel runned over him and he was quiet. He got whipped once for hopping wagons, and so did I."

Inquest at 4 O'Clock.

Coroner Kruse will hold an inquest at 4 o'clock Thursday afternoon over the body of the Lahey boy and will be assisted in the questioning by Prosecutor H. H. Hilgemann. The inquest over the body of the Auer boy will be held Friday afternoon.

A large number of witnesses have been subpoenaed for both inquests. From the evidence gathered up to the present time the coroner is of the opinion that both accidents were unavoidable. A report that the Wilding machine had skidded fifty-one feet was thoroughly investigated, but no evidence could be found that such was the case.

HAVEN'T ASKED FOR PEACE.

No Hostile Government Has Made Request, Says Berlin.

Berlin June 24.—(By Wireless to Sayville—The Overseas News agency today gave out the following:

"The official Nord Deutsche Allgemeine Zeitung declares that, notwithstanding reports to the contrary, during the whole war no hostile government has approached Germany, directly or indirectly with peace offers.

"The imperial government knows nothing of the readiness of hostile government to make peace.

"In political circles the fall of Lemberg is considered a crushing defeat, morally and politically for Pan-Slavism. Whether it will result in the breaking down of Russia's military operations is questionable. The Russians probably will attempt to concentrate fresh forces behind another line of defense further back.

"Lemberg suffered little damage. The only harm done by the Russians when they withdrew from the city was to set fire to large tanks containing naphtha and benzine.

"In Vienna the whole population turned out to celebrate the victory. The venerable emperor was cheered loudly as he drove to the cathedral to attend a thanksgiving service. Later he received a delegation representing the nobility of Galicia, which extended congratulations.

"In Munich there was a great public celebration. In the square before the city hall the mayor addressed a crowd, which paraded in front of the castle. The queen and princesses appeared on the balcony.

"Reports from the front say that at noon Monday, Austrian troops solemnly entered Lemberg amidst the enthusiasm of the people, who gave the soldiers flowers and refreshments. The Russian general staff reported officially that on that same day there was shell fire in the direction of Lemberg.

"A message from Vienna says Emperor Joseph received the Spanish ambassador, who delivered a cordial autograph letter from King Alfonso."

Official report from Berlin and Vienna announcing the fall of Lemberg fixed the date as Tuesday, June 22.

TRACING BOMB LEFT AT CARNEGIE'S HOME

New York, June 24.—Acting Captain Tunney, of the detective bureau, announced today that a large squad of detectives is working throughout the city in an effort to trace back to its maker, the bomb found last night inside the iron railing on the grounds of Andrew Carnegie's Fifth-avenue home.

Certain brand markings on the three sticks of dynamite which were bound together and formed the bomb gave promise that it would not be difficult to trace the explosive. The dynamite, to which was attached a fuse that had been lighted but had gone out, was found last night by servants. During Mr. Carnegie's absence from town at Bar Harbor, Maine, the house has been left in their care.

TWO HELD WITHOUT BAIL.

Fire Insurance Promoters Under Arrest at Gary.

Gary, Ind., June 24.—John H. Lucas and Charles Russell, of Chicago, fire insurance promoters, were arrested here yesterday and held without bail pending arrival of postoffice inspectors from Cincinnati.

Records seized showed companies promoted by the men have issued 1,100 policies covering risks of about $3,000,000. The police say letters demanding payment for fire losses were among the effects seized. Illinois, Indiana and many southern states furnished policy holders. Lucas says the companies are co-operative.

ASKS RECEIVER TO HELP RUN SALOON

Partner in New Haven Enterprise Finds Self in Bad Way.

Edward L. Girardot, a partner in the saloon of Girardot & Johns, at New Haven, has asked the superior court to appoint a receiver for his business associate, Joseph J. Johns, with directions to come into the place and help run it. The suit is for the appointment of a receiver and dissolution of partnership and it makes Joseph J. Johns, William L. Meyer and Amiel C. Gladieux, sheriff of Allen county, defendants. Meyer sued Johns and got a judgment against Johns' interest in the business, which he will sell to satisfy the judgment if not interfered with. Girardot says the business is suffering from the litigation and wants to unload Johns as a partner and have his share in the business sold and his interest in the license transferred.

Notes of the Courts.

In the suit of the J. W. Butler Paper company, of Chicago, vs. the Indiana Printing company, of Fort Wayne, J. M. Rothschild has petitioned the superior court for an order upon the receiver of the defendant company to employ an accountant to audit the books of the concern.

The suit of Archie Reynolds vs. the Berghoff Brewing association has been dismissed from the superior court.

The appellate court of Indiana has denied a rehearing to the appellants in the suit of Hanna Pottlitzer, et al., vs. the Citizens' Trust company, of Fort Wayne, a cause that was tried in the Allen superior court and appealed to the higher tribunal.

The circuit court jury that has heard the testimony in the suit of Esther A. Smith against the city of Fort Wayne for damages for personal injuries received because of a defective sidewalk, retired at 2 o'clock Thursday afternoon.

Judgment for $996 was given the plaintiff by the superior court in the suit of M. C. Smith vs. the Hampton Stock Farm company, in an action for garnishment.

WILL INSPECT THE COUNTY FARM.

Amos W. Butler, secretary of the state board of charities and corrections, and Dr. J. N. Hurty, secretary of the state board of health will come to Fort Wayne Friday morning to inspect the new Allen county farm and the institutions already established upon it. Accompanied by County Auditor Johnson, who has made the arrangements for the trip, Judge John W. Eggeman, of the circuit court, the members of the board of county commissioners and the county council, the visitors will leave at 10 o'clock for the farm. The recently established home for boys and girls and the colony for the tuberculosis patients will be the special objects of the visit. Upon the recommendations of the visiting officials will largely depend, it is believed, the early provision of suitable buildings for both institutions, which are now quartered in farm houses that were acquired with the land of the new county farm eight miles north of Fort Wayne.

JOHNSON HAS A NAROW ESCAPE

Interurban Car Hits Auto Driven by Poor Farm Superintendent.

W. H. Johnson, superintendent of the Allen County Poor farm miraculously escaped serious injury and possibly a sudden death at 1:45 o'clock Thursday afternoon when the 2 o'clock limited interurban of the Bluffton division of the Fort Wayne and Northern Indiana Traction company struck his automobile reducing the rear end to splinters and hurling it aside in a deep ditch.

Mr. Johnson was just leaving the institution and had nearly gotten across the tracks when the heavy interurban car struck the back of the machine and threw it a distance of twenty feet beside the road. Luckily no one was in the rear seat and Mr. Johnson, who was the only occupant, clung to the steering wheel and suffered nothing more than a few very slight bruises.

The interurban car stopped and when the men in charge saw that no one was hurt they proceeded to the city. The auto is damaged beyond repair the only thing remaining is the engine, one wheel and the fore part of the body.

NO BAD WORDS WERE USED COURT FINDS

A dispute over a line fence was aired in the court of Justice of the Peace Henry J. Grabner Thursday when Charles Fletter was tried on the charge of profanity preferred by his next door neighbor, Mrs. Mary Grimm.

Mrs. Grimm and Fletter have lived on adjoining lots on Hale avenue for a number of years. On June 4 Fletter went out to measure the posts and the ground preparatory to erecting a new fence, when, according to the testimony, Mrs. Grimm came out and ordered him to quit. But Fletter didn't quit. Instead, he kept singing while Mrs. Grimm kept talking. Mrs. Grimm alleges that he called her a vile name, but six other witnesses testified that no profanity was used, with the result that the court found Fletter not guilty.

OSBORNE BREAKS IN EIGHTH AND LOSES

Six Runs Pile Up Against the Big Fellow in One Inning.

Wheeling, W. Va., June 24.—Arch Osborne, whose portside paddle has broken up the hitting streaks of a score of Central leaguers in the past couple of weeks, spent seven and one-quarter remarkable innings on the mound for Fort Wayne. Then the Smokes got to him and before he could recover consciousness six runs had piled up in the frame.

Scoreless and almost hitless up till the sixth, both teams worked furiously and in that inning each tallied one. Then came another pair of frames with nothing doing and then the Wheeling aggregation spilled the beans. Osborne hit Johnson, and was so unnerved that he walked O'Day and Nespo grounded. Reilly singled and Johnson scored and Meister doubled to left, scoring O'Day and Nespo. Anderson scored Meister with a single. Anderson was sacrificed to third and scored when Withrow singled. Johnson, up for the second time in the inning, went out.

Holderman and Hartle got in with a double and a single in the ninth and attempted to rally the slumping Cubs. Holderman got home safely, Hartle being caught off first. Score:

COBB WILL STEAL 100.

Clyde Milan, of Washington, holds the modern base stealing record with 88 thefts, acquired back in 1912.

But this record is almost sure to fade unless Ty Cobb drops a leg somewhere between now and October. Cobb collected 38 steals in 56 games. At this same impetus he will lay in a supply of pilfered bases well over 100.

The two fastest people in the American league are Bert Shotten and Fritz Maisel. Both are batting around the much admired .300, which shows how often they are getting on. Yet Cobb has stolen nearly as many bases as Shotten and Maisel together.

Among others endowed with speed and the batting eye, Cobb has stolen almost as many bases as Collins, Speaker, Jackson, Milan and Strunk put together—and only one less than the combined steals of the three leading base runners in the National.

GEORGE WILTSE GETS TINWARE

New York, June 24.—George Wiltse, former pitcher of the New York Nationals, was unconditionally released as manager of the Jersey City club of the International league. Wiltse was made manager of the club last winter. It is said President Barrow has been dissatisfied with the bad showing made by the Jersey City club. The new manager, it is reported, will be a former manager of an American association team. Joe Yeager, an infielder procured from the Montreal club, is acting manager.

BELL LOSES OUT WITH SMOKES.

(Wheeling Daily News).

Rebel Bell is to be let out, along with Bero and Mullaney. Shriver was forced to cut down his club and from early indications he is doing the right carving.

A large class of candidates will be initiated next Monday evening by Camp No. 4167, Modern Woodmen of America, in Aldine hall.

COULD YOU BE A CRACK HIGH JUMPER WITH ONE LEG? HERE'S ONE!

This boy is the sensation of interscholastic athletic meets this year. He's R. Kriss, of Shaw high school, East Cleveland, O., who, regardless of the fact that he possesses only one good leg, has proved himself a high jumper nearly the equal of the best.

Kriss, who lost his left leg nearly up to the knee by flipping cars when just a little fellow, can do 5 feet 6 inches over the bar. Of course, high school athletes frequently go over the 6-foot mark, but Kriss' showing is quite remarkable anyway.

He hops speedily up to the bar, then his right leg springs him for the jump. He takes the weight of the fall on his one good leg and rarely loses his balance coming down. Picture above shows him clearing the bar and below, alighting on the ground.

HERE'S NEW WAY OF DOPING THEM

(By Hugh Fullerton).

Anson used to say "If every man on any team runs out every hit as hard as he can all season that team will win five or more games than it does."

This spring I commenced to keep some odd dope on baseball. I confess I started it merely to see whether the players were going to loaf as they did last season, or whether they were going to hustle and try to make the games interesting. Each day I get the papers of each big league city and read the accounts of the games. Here are some figures:

AMERICAN LEAGUE.

Detroit	1	St. Louis	1
Chicago	4	Boston	9
New York	3	Cleveland	11
Washington	7	Philadelphia	7

NATIONAL LEAGUE.

St. Louis	5	Chicago	11
New York	8	Brooklyn	13
Cincinnati	6	Pittsburg	3
Boston	4	Philadelphia	3

FEDERAL LEAGUE.

Brooklyn	8	Kansas City	8
Chicago	9	Pittsburg	11
Newark	7	St. Louis	2
Baltimore	12	Buffalo	12

These figures are the number of times the newspaper reports have charged that players failed to run out hits that they might have beaten. Of course, there may have been many more instances in which the failure to run out hits did not seem important enough to mention and again one reporter may be more critical than another.

However, Detroit's scribes are rather severe on such things and Cleveland is not unduly severe or critical. The fact that only one man, and he a pitcher, is accused of loafing, shows that Detroit is hustling and on its toes.

That Boston is accused in nine cases is bad enough in itself, but the figures show more than that. Seven of the Red Sox' nine offenses were committed during the discouraging early season slump.

A Mistake Made By Many.

Don't wait for rheumatism to indicate diseased kidneys. When you suffer pains and aches by day and sleep disturbing bladder weakness by night, feel tired, nervous and run down, the kidneys and bladder should be restored to healthy, strong and regular action. It is a mistake to postpone treatment. Foley Kidney Pills put the kidneys in sound, healthy condition and keep them active and strong. Begin taking today. Good results follow the first dose. PITCHERS WHO HIT ARE USEFUL ARTICLES

But They're Just About as Scarce as Umpires Who Can See.

(Kansas City Star).

Nothing is half so useful, after all, as a pitcher who can hit—a pitcher who can bat 'em out and even win his own games by stepping into that old ball when hits are badly needed. Such a pitcher gives the team employing him advantage over a team with a hitless hurler—it amounts to matching nine men against eight, and, in addition, handicapping the eight, with a drag on their machinery—a ninth member who not only cannot smite but will insert a strikeout or a double play into whatever rallies the eight are trying to spring.

Long ago it was one of Uncle Anson's hobbies to have pitchers who could hit. He maintained that the game was played by nine men on a side, and that the whole nine should be able to crack that pellet when required. Many a time uncle turned away some clever pitcher simply because he could do nothing but pitch.

Nowadays that's all most managers ask of a pitcher—that he shall be a fancy specialist in his own particular line, leaving the batting to the other fellows. Not so with Anson. He never in all his long career could see things that way, and to the very last insisted that his pitchers must do their share of the whacking. And uncle seemed, somehow or other, to get pitchers who could do it, too, and not fall away in their own department, either.

When Luby won the twenty straight in 1890 the fact that Luby also led the league in batting helped materially along the road. Ad Gumbert, another of Anson's pitchers, was a terrific hitter. John K. Tener, now president of the National league, could bat with royal vigor. Seldom did uncle have a pitcher who fell below .220—and a pitcher who can hit .200, comparatively light as that may seem, is going to help win a lot of games that would be lost by some fellow hitting only .120.

ONE FOR PERSONAL LIBERTY SQUAWKERS.

When several of the cigarette-smoking members of the Nationals opened their salary envelopes a few days ago they were astounded to find a ten dollar note missing and a notice explaining that Manager Griffith had inflicted a fine because of the use of cigarettes. It seems that ever since the edict against the cigarettes was issued last spring some of those who have found it hard to quit have been taking a draw on the quiet, but none of them got away from the Old Fox. He, however, was mum on the subject for the purpose of making the offenders more bold, which they became, but the fining of $10 a crack is sure to bring about a remarkable reform.

Queen Mary, of England, writing in a confession album, records that the quality she most admires in a man is that of modesty.

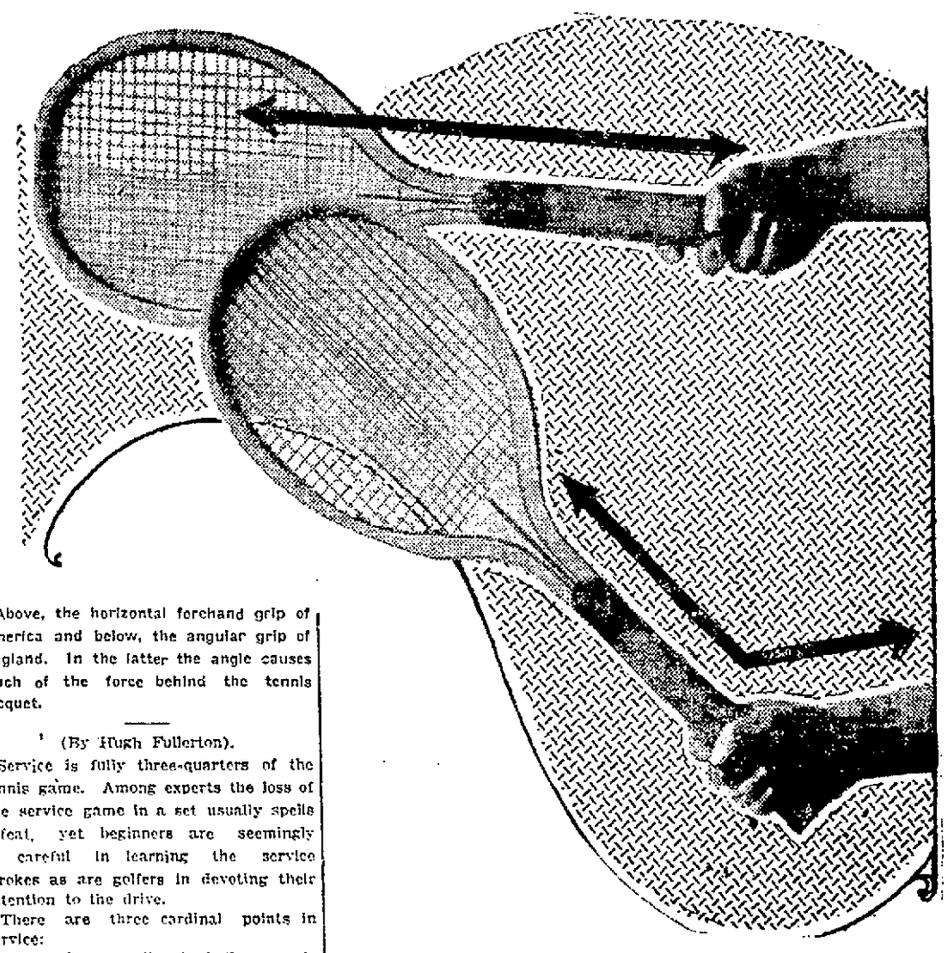
IT'S SERVICE THAT COUNTS IN TENNIS! GET STARTED RIGHT.



Above, the horizontal forehand grip of America and below, the angular grip of England. In the latter the angle causes much of the force behind the tennis racquet.

(By Hugh Fullerton).

Service is fully three-quarters of the tennis game. Among experts the loss of one service game in a set usually spells defeat, yet beginners are seemingly as careful in learning the service strokes as are golfers in devoting their attention to the drive.

There are three cardinal points in service:

First—Always strike the ball as nearly with the exact center of the racket as possible.

Second—Do not try to drive the ball downward at an angle into the service court.

Third—Keep the ball above the net and make the errors over the line rather than into the net.

Save against remarkably expert players the one serving should win almost all his own service games. To lose on faults is bad service. A ball two feet above the net will strike inside the service court, and with practice the stroke may be lowered to a few inches above the top of the net.

To drive properly hold the ball between the thumb and two forefingers of the left hand, and toss it into the air so that it is on a line with the left eye, directly above the upturned face.

As the ball descends strike it squarely with the wrist, arm and racket held in a direct line, finishing the sharp sweeping stroke with a follow through that brings the racket almost to the ground.

The stance in service is important. Stand on the ball of the right foot. As the ball is struck shift the left foot forward and throw the weight onto that foot, aiding the follow through stroke.

The forehand cut service is the "out curve" of tennis. The ball is struck as in straight service save that the racket is drawn across the ball at an angle at the instant of contact, causing it to spin in the air, and when it strikes the ground it takes the "reverse" and breaks at an angle.

Probably the most effective of all the service strokes is the upper cut, commonly referred to as the American service. The ball is struck with a sharp upward cut.

The introduction of this American stroke caused a loud guffaw from the British experts at first because of the peculiar posture of players who bent far backward in striking the ball so as to draw the racket more sharply across the ball.

It was used with every variation of the positive and the reverse cuts, and before long was adopted by many of the English, and practically all the Australian and Canadian players.

What Causes Sore Feet?

Aching, Burning, Sweaty Feet, Corns, Callouses and Sore Bunions.

Science has proven that nearly all foot troubles originate in the common cause of injured or congested tissues. The thousands of victims of daily foot torture will welcome this information of a simple home treatment (known to best foot doctors) that acts through the pores, removes the cause, and gives instant relief. "Dissolve two spoonfuls of Calocide compound in a basin of warm water. Soak the feet in this, gently rubbing the sore parts." The effects are marvelous. All pain goes instantly and the feet feel delightful. Corns and callouses can be peeled right off; bunions, aching feet, sweaty feet, get immediate relief. Don't waste time on questionable remedies; get the genuine Calocide from any drug store, but don't be persuaded to take something else instead. There is nothing even similar to Calocide. A twenty-five-cent package is said to be enough to cure the worst feet. Medical Formula Laboratories, Dayton, O.

NEW PREMIER OF U.S. IS OLD HAND AT GAME

Lansing Has Long Taken Uncle Sam's Side in Foreign Controversy.

Washington, D. C., June 24.—For twenty-three years fighting Great Britain has been the job of Robert Lansing, who has just been selected by President Wilson as secretary of state. He has been Uncle Sam's lawyer in almost every piece of arbitration required between England and the United States since 1892. Since that time, when he was appointed associate counsel for the United States in the fur seal controversy he has been almost constantly in the service of the United States government.

More than that, he is generally acknowledged to have a longer and broader experience in international tribunals than any other living lawyer.

Lansing was born at Watertown, N. Y., October 17, 1864, entered Amherst college in 1882 and graduated in 1886. He studied law in Watertown for three years and then organized, with a cousin, the law firm of Lansing & Lansing, with which he was connected until 1907.

In 1890 he married Eleanor Foster, only daughter of John W. Foster, who succeeded James G. Blaine as Benjamin Harrison's secretary of state. In 1892 Foster appointed Lansing as associate counsel for the United States in the Behring sea arbitration, the difference arising with England over the rights of seal hunting.

He was counsel for the United States before the Behring claims commission in 1896 and in 1897 and later in 1903 was associated with Elihu Root, then secretary of war, as counsel before the Alaskan boundary commission in London.

He attended the session of the international tribunal in Paris in 1893; in 1894 served as counsel for the Mexican and Chinese legations at Washington. During the years of 1898-99 he represented private parties before the Canadian joint high commission and in 1900-01 again served as counselor for the Mexican and Chinese.

He acted for private clients in the Venezuelan asphalt disputes of 1905 and as counsel for the United States in the Atlantic fisheries arbitration at The Hague in 1908.

He continued to serve as agent of the United States before the American and British claims commission until his appointment as counsellor of the state department in March, 1914.

Lansing now is in his fifty-first year, hale and vigorous. As a state department official he has developed a direct, decisive manner of dealing with public questions. Known as a hard student of international law, his impress has been felt on all questions that have come up in the stressful period since he became counselor for the department.

His first duties were connected with the shaping of diplomatic policies arising from the successive events in the revolution in Mexico. With the outbreak of the war in Europe the position which Lansing had taken became one of the highest importance in the conduct of our foreign policies. With his aid a complete reorganization of the state department was promptly undertaken and every resource available was offered for the consideration and disposal of many trying problems that arose.

The use of submarines, aeroplanes, wireless telegraph, the many novel problems in regard to neutrality, communication and transportation, and all the manifold developments in a world catastrophe with nearly a dozen nations involved made the tasks devolving on the chief law and diplomatic officer of the state department gigantic in scope and responsibility.

Through all the vicissitudes of the war year Lansing has been a most dependable quantity in the state department. President Wilson has looked to him officially and privately for help continually. Night and day he has been at the president's call.

Only a Few Can Go.

Those who are so fortunate that expense does not have to be considered are now going to health resorts to get rid of the impurities in the system that cause rheumatism, backache, swollen, aching joints and stiff, painful muscles. If you are one of those who cannot go, yet feel that you need relief from such pain and misery, try Foley Kidney Pills. They restore the kidneys to healthful activity and make you feel well and strong. Dreier Drug Co.—Adv.

STRANGER SISTERS MEET.

Had Never Seen Each Other, Though Living Only Few Miles Apart.

San Diego, June 24.—Living less than five miles apart for several years, and each in ignorance of the existence of the other, and finally to meet at the home of a mutual friend, is the unique experience that has been enjoyed by two sisters, Mrs. Frank Barber, of San Marcos, and Mrs. George Burnham, of Temecula. Mrs. Burnham came to California from Ohio before her sister was born. For a time she corresponded with the family, and then letters ceased. Recently Mrs. Barber visited at the home of Mrs. J. E. Putnam, also a friend of Mrs. Burnham. The discovery of the relationship of Mrs. Burnham and Mrs. Barber was made by Mrs. Putnam in the course of a conversation. Keeping the two sisters in ignorance of their relationship to each other, Mrs. Putnam invited them to a house party. For more than half a day the two sisters fraternized before Mrs. Putnam made her discovery known. Now the two are making plans for a joint visit to the old home in Ohio.

To Sleep Well in Summer.

Slight inflammation of the bronchial tubes causes a distressing cough and makes refreshing sleep impossible. Foley's Honey and Tar Compound covers raw, inflamed, irritated surfaces wit a soothing, healing coating and stops that annoying tickling, relieving the racking, tiring cough. Take this splendid cough medicine with you on summer trips. It is good for coughs, colds, croup, bronchial affections and la grippe coughs. Dreier Drug Co.—Adv.

Several local Red Men will attend a picnic to be given at Riverside park at Eaton, Ind., next Sunday.

Stage Letter.

HELEN CLARKE DANCING IN "NOBODY HOME" AT THE MAXINE ELLIOTT THEATER.

New York, June 19.—There's "Nobody Home," at Maxine Elliott's theater.

In its syncopated skittishness the Broadway silly season simmers over. There's no reason to the libretto, and certainly little enough rhyme; but there are many pretty girls, clad—to a certain extent—in the prettiest costumes of the early summer fashion.

With dress, dance, lightsome music, and girls, what more does Broadway in hot weather want?

Besides, there's the Charlie Chaplin chorus, a unique stunt which was just waiting to be pulled, and the producers of "Nobody Home" deserve credit for the laughter-winning way in which they've done it.

PENNSY ANNOUNCED MORE CHANGES

E. T. Whiter Becomes Assistant General Manager of the Lines West.

News from Pittsburg today announces three changes in the ranks of the general officers of the Pennsylvania, with a probability of other changes soon. E. T. Whiter has been appointed assistant general manager, a newly created office; W. C. Downing has been appointed general superintendent of the Northwest system, succeeding Mr. Whiter, and Isaac W. Greer has been appointed general superintendent of the Central system, succeeding Mr. Downing. These appointments leave the office of superintendent of the Cleveland division, held for some time by Mr. Greer, open, and the transfer or promotions that may follow the appointment to that position may extend away down the line and affect several men.

SEMI-ANNUAL INVENTORY.

Pennsy and G. R. & I. Start the Work Tomorrow.

The semi-annual inventory on the Pennsylvania and Grand Rapids and Indiana roads starts tomorrow and will be conducted along lines which governed the work in previous years. The men engaged at it handle the work on some other division than that on which they are employed. C. P. Cherry, division storekeeper of the Western division, has taken charge of the inventory work at Denison, Ohio; Shop Clerk J. H. Hobrock, of this city, will take charge of the work at Logansport, and G. Wonnell, of the Panhandle, at Columbus, will have charge of the work at Fort Wayne. The Fort Wayne division of the G. R. & I., which has no general store department at Fort Wayne, will send a party over the line on a gasoline motor car. This work will be under the supervision of J. A. Jaques, assistant engineer of the Akron division, and with him will be Supervisor E. R. Wright and Chief Clerk A. M. Hoffman, of Division Engineer C. L. Barnaby's office.

HAMLET ELEVATOR BURNED.

Structure Completely Ruined and Loss $65,000.

The large elevator at the side of the Pennsylvania tracks at Hamlet and owned by Farmers' United Grain & Elevator company, was completely consumed by fire which started in the boiler room at 10:45 o'clock yesterday. The meagre fire fighting organization at Hamlet being unable to handle the fire, called upon the Knox fire department, six miles from Hamlet, which promptly responded. The flames had gotten under such headway when the Knox company arrived that the best they could do was to prevent the spread of the flames. The east end of the Pennsylvania depot building and the sides of several residences near the scene were badly scorched by the heat. The elevator and its contents, it is said, were valued at $65,000, with some insurance.

TO MICHIGAN FOR BRIDE.

Willard A. Stockbridge Surprises His Associates.

The associates of W. A. Stockbridge, electrical engineer of the Pennsylvania motive power offices, were greatly surprised this morning when they heard that he had gone to Constantine, Mich., for a bride. The marriage ceremony was performed this morning and Mr. and Mrs. Stockbridge immediately left Constantine on a wedding tour which will include visits at Richmond, Va., Washington, Philadelphia and New York. They expect to return to Fort Wayne about the 10th of July.

FORMERLY LIVED HERE.

Edward Frease, blacksmith at the Pennsylvania shops, will go to Warsaw tomorrow to attend the funeral of his relative, Howard Miller, who was dragged by a runaway team until he was fatally injured. The story of the accident was told in the Sentinel yesterday. Howard Miller formerly resided in Fort Wayne and for a year was a clerk in the Pennsylvania blacksmith shops, where he became well known and was well liked by the employes.

CHARLEY HALL HERE.

A welcome visitor at the Pennsylvania shops this morning was Charles A. Hall, general foreman of the Pennsylvania shops at Allegheny. His mission was business with the motive power and mechanical department, but he found time to meet a number of the shopmen, with whom he is well acquainted. Prior to going east to take a foremanship, Mr. Hall worked in the local shops as a journeyman machinist and later a foreman of one of the departments.

SHIPPED BOILERS TO MILLERSBURG.

The Bass Foundry and Machine works yesterday sent two boilers to Millersburg, Ind. The department is about ready to ship out a lot of other products, including tanks and boilers.

Y. M. C. A. MEN GOING WEST.

Sixty-five members of the Cleveland Y. M. C. A. will pass through the city over the Nickel Plate next Monday enroute for California, where they will attend the two expositions. The three sleepers the party will occupy have been chartered for the entire trip.

INDUSTRIAL NOTES

H. W. Seibert, a cabinetmaker at the Pennsylvania shops, is sick and off duty.

Wabash Trainmaster C. E. Wells was in the city awhile this morning.

Henry Stutte, job card clerk at the Pennsylvania machine shop, and H. F. Telley, also a clerk, will spend the week-end in Chicago.

Pennsylvania Engineer P. J. Riderick, who was sick a week, resumed work on the road this morning.

Two boilers were shipped yesterday from the Bass Foundry & Machine works to Topeka and Millersburg, Ind.

Factory Manager H. J. Grosvenor, of the Bowser plant, is spending a week at Clear lake.

Henry Kortum, a heater at the Bass blacksmith shop, is off duty on account of the wedding of his daughter.

Otto Rosiner, assistant file clerk at the Pennsylvania motive power offices, is sick and off duty.

Walter Seibert, billing clerk of the Bass Foundry & Machine works, resumed duty today after spending a week at Clear lake.

R. E. Neireiter, who had an eye injured some days ago, reported for work at the Pennsylvania erecting shop this morning.

Peter Butzen, passenger business hustler for the Northwestern, was a caller at the local ticket offices this morning.

J. B. Kelty, night clerk at the G. R. & I. trainmaster's office, attended the funeral of a relative in Plymouth today. Carl Schnee, of the day force, worked in Mr. Kelty's place.

Misses Clara and Vivian Powell, daughters of John Powell, helper in the Wabash blacksmith shop, will go to Cecil, Ohio, today for a visit with relatives.

J. E. N. Dillon, of the Pennsylvania motive power office, and Mrs. Dillon went to Chicago this morning to attend the commencement exercises at the Armour institute, at which one of the graduates is their nephew.

W. E. Wartenbee, a blacksmith at the Pennsylvania shops, has been transferred temporarily from the Lafayette street shops to the round house of the Pennsylvania, to take the place of a man who is sick.

Clerk J. C. Brake, of the Pennsylvania road foreman of engines' office, showed up there for work this morning, though he still suffered from the cold which kept him from work several days.

Today A. B. Criswell inspected 200 car wheels at the Bass Foundry and Machine works for the B. & O.; tomorrow S. W. Hall will inspect 200 wheels for the New York Central, and Saturday, John Otis will pass upon 100 wheels for the Erie.

A. C. McMillan, the Pennsylvania engineer who had been in the hospital for an operation for relief from appendicitis, has gone to his home, 1701 East Pontine street. He is making rapid progress towards recovery and will soon be handling the throttle again.

Two Knitting mills girls were slightly bruised and scratched last evening when they were struck by an automobile on West Main street. The driver of the machine stopped and took the girls to the Hutzell drug store, where their wounds were dressed. No names were given out.

Robert R. Muir, of San Francisco, Cal., is spending a few days with his brother, Mechanical Supt. J. J. Muir, of the Bass Foundry and Machine works. Robert Muir is mechanical engineer for the Union Iron works, at San Francisco, one of the largest plants of its kind in the west.

Blacksmith William Dryer and son, Elmer Dryer, of the Pennsylvania shops, went to the country this morning to witness the marriage of Mr. Dryer's son to Miss Kruse, the daughter of highly respected people. The ceremony took place on the farm of the bride's parents, seven miles out on the Leesburg road.

BOY OF 9 SAVES LAD OF 7.

Jumps Into River and Grasps Drowning Friend by Hair.

Philadelphia, June 24.—When nine-year-old Johnny Mullaney saw another boy fall into the Delaware river from a railroad pier, at Noble street, he didn't lose a second diving after him.

He caught hold of the boy's hair as the lad, Hslerk Lazynsky, seven years old, was sinking, and with sturdy one-hand strokes swam with him to a ladder running up the piling. There he rested a moment, and then, tugging with all his might, drew the boy after him to the understructure of the pier.

Ten minutes later a patrol wagon, summoned by companions, clanged up. The cops found Johnny vigorously rolling the other lad in an effort to resuscitate him. It took doctors at the Roosevelt hospital three hours to complete the job, but they give all the credit to Johnny's first aid.

The little rescuer lives at 532 New Market street; the rescued, at 608 North Front street.

SPECIAL NEED FOR FLOOD COMMISSION

If Government Co-operates Must Have Legal Body to Work With.

With the prospect of government co-operation and aid in the huge task of creating means to prevent floods in Fort Wayne and Allen county the need of creating a drainage district and flood commission, as provided in the recent act of the legislature, is more than ever imperative. If the government is going to co-operate it must have some legally constituted body to work with and the law very definitely provides for that. Of course the government could co-operate with the city of Fort Wayne but that would mean a rather cumberous arrangement and the necessity of the city to issue bonds and bear the entire burden of the cost save what the federal government may assume. Under the law the cost will be distributed over a much wider district and the burden will fall heavily upon nobody. This is the view taken at the city hall.

TO PAVE SOUTH CALHOUN.

Board Will Adopt Resolutions at Its Meeting Thursday Evening.

The principal business of the board of works at its meeting Thursday evening will be the adoption of a resolution for paving Calhoun street from McKinnie avenue to a point 921 feet south. The cost of this improvement will be borne entirely by the interests promoting the new Lafayette Place addition on the east side of Calhoun street and the Harrison Hill addition on the west side of Calhoun street directly opposite. A strip of land 150 feet wide fronting Calhoun street between McKinnie avenue and a point 921 feet south has just been annexed to the city by the council for the purpose of permitting the paving of Calhoun street.

The board will confirm assessment rolls for the paving of Wilt and Harmer streets and Savilla avenue, which have been completed, and for the building of a sewer in the Pfeiffer Place addition in the north part of the city.

COLLECTING PUMP FEES.

The city is now prosecuting a campaign for the collection of the $5 fee required under an ordinance for maintaining gasoline pumps on sidewalks, a license measure that had been more or less a dead letter for a good while. Police Lieutenant Harry Grimme and Building Inspector Clerk Andrew App are making the collections. A list is being made of all drug stores, groceries and other places that are still maintaining the old wooden cabinets that recently were outlawed by ordinance by the council. These will have to be removed.

OFFERS 'GATOR FOR ZOO.

The park commissioners have under consideration acceptance of an offer of Fred G. Mensch, agent for the Wells Fargo Express company at Houston, Texas, to present a six-foot alligator to the zoological garden that is designed for the city. The tender came in a letter to Charles J. Steiss, secretary of the park board, from Mr. Mensch, who is a son of Frank Mensch, a grocer in Bloomingdale.

THE BIRTH RECORD.

HURT WHILE PLAYING TENNIS

A FEW DAYS AGO an article in these columns called attention to the fact that many people receive serious personal injuries at this time of the year for the reason that it is during the vacation period that we do the things which are unusual and which subject us to increased liability to accidental harm.

The former article told of one man who was badly hurt while on a vacation in Michigan; another was hurt at an amusement resort; one was thrown from the seat of a breaking plow; another was hurt at a game of amateur baseball, and another received severe injuries while diving.

Fortunately, all of the men mentioned in the former article carried insurance in the Fort Wayne Mercantile Accident Association. Mr. L. H. Ransom, secretary of the Mercantile, referring to the condition, said:

"Yes, each spring and early summer brings its story of disaster. In this connection, it may be well to say that we do not accept professional athletes, nevertheless we pay a good many claims to persons who are hurt during the playing of games.

"Over at North Dover, O., for instance, Fred Beach was severely hurt while playing tennis. He slipped and lacerated the tendons and muscles of his ankle. Dr. Gustave Hausser, of Cincinnati, collided with another player during a football game and fractured several ribs. E. S. Hammond, of Chicago, with Swift & Co., slipped while bowling and was severely hurt. These are but few of the recent claims we have paid to people who were hurt during their play spells. We would urge everyone who is eligible to become a member of the Mercantile, which provides the best protection at the lowest cost."

The Mercantile phone is No. 2494.

CHICAGO GRAIN AND PROVISIONS.

Chicago, June 24.—Wheat ran up in price today on account of heavy rains and winds in the southwest, making harvest progress more and more difficult. Opening prices, which ranged ⅜@1½c to 1⅝c up, were followed by a little reaction and then by an advance that in some cases reached higher than before.

The close was heavy at ⅝c to ⅞@1c net decline.

Corn hardened with wheat. Professional speculators, however, were free sellers on the upturn. After opening unchanged to a quarter and ¾c higher, the market receded to a moderate extent but again became firm.

The close was steady at ⅜c to 1½c 1⅛c under last night.

Oats showed relatively less strength than wheat and corn. Cash concerns led the selling.

Provisions tended to sag. Demand was not at all urgent.

THE DAY ON WALL STREET.

New York, June 24—United States Steel was the only stock to show so much as a fractional gain at the outset of today's trading, all other leading shares recording declines. Canadian Pacific was especially weak, soon falling two points to 147, its lowest quotation in seven years. United States Rubber was the heaviest industrial, losing over three points on fairly large offerings. Bethlehem Steel and General Motors were among the few specialties to show resistance to the declining tendency. High grade railways and coppers also were lower. The general list reacted further toward the end of the first half hour.

There was a further decline in rubber to almost six points from yesterday's close on intimations of a reduction of the dividend and allied stocks, including Goodrich, and the motor shares were down one to two an one-half points. The market evinced a disposition to break away from this depressing influence before midday, Reading and some other representative issues making full recovery. Bonds were irregular.

Selling became general in the last hour, coppers and specialties leading the decline. The closing was heavy.

"TRADE" HUSBANDS; ALL NOW FRIENDS

Cincinnati, O., June 24.—Probably the last chapter has been written in Indiana's prize marital mixup, in which Cupid's darts broke up two prominent Harrison (Ind.) families and then united the members into two new families through the process of double elopements, double divorces and double weddings. Yesterday the Court of Domestic Relations here completed the smudering of old love ties between Harry E. Burk, Harrison's druggist, and his wife, Mrs. Burk had eloped to St. Joseph, Mo., with Dr. O. D. Maddux, an Indiana veterinarian. The Kansas City (Mo.) divorce previously obtained by Mrs. Burk was discountenanced by today's court action. The former Mrs. Maddux was a witness for Burk. She had been the first to sue for a divorce, having been granted a decree last July in the courts here. Mrs. Maddux is now the wife of Burk and Mrs. Burk is the wife of Dr. Maddux. The Madduxes have removed to Washington Court House, O. All parties to the new marital arrangement are again declared to be good friends.

OFFICIAL FORECASTS.

For Fort Wayne and vicinity: Showers this afternoon or tonight, warmer; Friday fair.

For Indiana: Showers this afternoon or tonight, warmer; Friday fair.

For Ohio: Probably showers tonight and Friday; warmer tonight.

For Lower Michigan: Showers this afternoon or tonight, warmer; Friday fair, warmer.

WEATHER CONDITIONS.

The pressure is low in the extreme northeast, and a troug hof low pressure overlies the western slope of the Rocky mountains. High pressure prevails over the central valleys and off the Pacific coast. This distribution of pressure has given local thundershowers in the western plains states, upper lake region and northeastern sections, also in the extreme northwest. Except in a few localities the changes in temperature have been unimportant. The weather is warmer than the seasonal average in northern Utah and the south, but in the districts in the northern half of the country east of the Rockies temperatures are low for the time of year.

From the conditions prevailing this morning showers may be expected this afternoon or tonight, with higher temperature tonight. Friday will be fair, with no marked change in temperature.

P. M'DONOUGH,
Local Forecaster.

WHAT IS ISSUE IN INDIANA POLITICS

"What is the Issue in Indiana Politics?" is the subject to be discussed at the meeting of the Fort Wayne Civic Forum at the auditorium of the South Wayne school, Sunday afternoon at 2:30 o'clock.

The subject will be presented in various phases by leading speakers as follows: "There is no Issue," Louis Ploet; "The Issue Is—Reform in Taxation and by Prohibition of Liquor Traffic Through the Republican Party," David Hogg; "The Issue Is—Progress Through Success of Wilson-Bryan Democracy and Overthrow of Bossism," Glen Smiley; "The Issue Is—Good Government vs. Corrupt Politics Which Exists Because of Spineless Citizens," W. E. Clapham; "The Issue Is—Where will the Progressives Go?" A. M. Groves; "The Issue Is—New Constitution for Indiana," Clayton H. Johnson.

The subject will be open for general discussion and many well known citizens have stated their intention to participate. Everybody is invited.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

JORDAN HARD ROAD THROUGH INDIANA

Walter Weingartner, of Cleveland, O., bought a second-hand automobile in Lafayette and started to wheel home. He equipped his machine with a hand-made front tag of the dealers' license breed, cranked his machine and whirled away on the upper course of the well-known Wabash river. At Peru his delinquency in the matter of tags was noted by a hawk-eyed cop and he was arrested and paid a fine. Then he deposited money to be forwarded to Columbus, O., for a license and tags and again fared forth on his happy way home. The trip was without known adventure until Thursday morning when he tried to slip through Fort Wayne. Officer Earnest Paul lamped the badly tagged car and hit the trail. He found the car near the Scottish Rite cathedral, and not far away was Walter, who with the grace born of experience submitted to arrest in a quiet way. He will try to explain to Judge Kerr Friday morning.

REMARKABLE OPERATION.

Guy Popp is on the Road to Recovery as a Result.

A remarkable operation was recently performed on Guy Popp at the St. Joseph hospital by Drs. McKeeman and McOscar that has proven successful. Popp was recently injured in the rolling mill when a piece of block was hurled by the machinery, striking him in the abdomen. The blow resulted in the rupture of the bowel in several places and at one place the bowel had been torn for some distance.

The doctors placed the torn member in the form of a loop, after which incisions were made on each side below and the bowel joined together. In this manner a short circuit was made, the incisions permitting nature to do the rest. Popp is recovering rapidly and will soon be able to be up and around again.

ANNUAL FLOWER DAY.

Will Be Held Saturday for Benefit of Anti-Tuberculosis League.

The annual Flower Day will be observed in Fort Wayne next Saturday, the proceeds going for the benefit of the Anti-Tuberculosis league. A hundred or more girls will sell bouquets on the streets and every person approached with the request to buy a bouquet is urged to comply.

Any young lady who is desirous of assisting in the work may be enrolled by calling Mrs. J. R. Meriwether, 269 Black.

HINES LEFT TOWN.

Shortly after being released from the county jail Wednesday, after serving eleven days on a charge of vagrancy, Frank Hines was arrested on the charge of surety of the peace, preferred by John Lothamar and taken before Justice of the Peace August C. Nierman. The justice gave him his choice of being bound over to the circuit court, with the prospects of a year in the county jail, or leaving town. Hines left town.

PAIR OF POOLROOM GAMBLERS IN JAIL

William Bates and Leroy Johnson Quarrel and One Squeals.

"O, hum, it's dull. Ah wish Ah was in jail or sdmething," said William Bates, a colored man, to himself, Wednesday evening. Then he threw his share on LeRoy Johnson, another colored man, and they went to Monty Curry's Lafayette street saloon for colored men and began to play pool for two bits a game side stakes. Bates says he lost two games to Johnson and paid. Then he won three games of Johnson and that colored gentleman welched. Mr. Bates didn't like this and said so. He says that Johnson went out and got his gang and besides that displayed a knife. Then Bates turned a perfectly neat trick by calling the police, who arrested him and Johnson and charged them with gambling. Both pleaded guilty in the city court Thursday morning and each drew a fine of $10 and costs and went to jail for fifteen days.

"Got yourself arrested, didn't you?" queried Prosecutor Callahan of Bates.

"I suah did and jes' done wished mahself in jail," said Bates, as the pair were taken back to a cell.

Young Cochran Pays Heavy Fine.

Wilbur Cochran, the 18-year-old youth whose degenerate conduct at his boarding house on Killea street caused a mob to gather Sunday afternoon and threaten him with summary justice, was up Thursday morning on a continuance and testimony for the defense was heard. His uncle and aged grandmother were present from Burket, Kosciusko county, to testify to his good character at home. It was developed that his father is dead, his mother an invalid and that his grandmother has reared him. She is assisting in paying his expenses in a business college here and the boy works at a restaurant for his board. Cochran denied the story told by residents at Killea and Harrison streets but there was no doubt of his guilt and Judge Kerr fined him $25 and costs, which the grandmother paid. The lad was taken home by his relatives.

Stole a Valuable Robe.

Frank Touhey was fined $10 and costs and given thirty days in jail on his plea of guilty to a charge of petit larceny. He stole a valuable fur robe from the livery stable of Mertz & Durraw on Harrison street, and was arrested by Detective Sergeants Immel and Rundell. He said he intended to return the property, which is worth about $20.

Fined for Selling Bad Fruit.

Jared Voors, who resides on the Maysville road about three miles from the city, was found guilty of selling decomposed fruit and was fined $1 and costs, which he paid. The case was prosecuted by the city health department on complaint of Henry C. Myers, the well known horseman, 302 Douglas avenue, who bought a crate of cherries of Voors and found that a large part of them were in a bad state of decay. A similar charge against Moses Jacobs, a city fruit vender, for selling decayed strawberries, was continued to Monday. Dr. George Fry, chief inspector for the health department, and Charles Jones, his chief deputy, brought about both cases and were important witnesses.

Other City Court Cases.

Wesley France, 504 Locust street, charged with assault and battery on his wife, was continued for a few days, it being reported the woman was too ill to leave her home.

Steve Kickrig, the foreign youth who was arrested some nights since while prowling about the Pennsylvania pay car as it stood on a side track and got his head split in an encounter with Pennsylvania Policeman Strasser, was fined $5 and costs on a vagrancy charge. It was thought that there was an attempt to rob the pay car. Kickrig's companions escaped.

Curtis Fryback, held on a loitering charge and suspected to be a deserter from the United States navy, was again continued and went to jail in default of $100 bond.

John Jones, a drunk, who neglects his family, was fined $1 and costs and went to jail for eleven days, and Elmer Hart, another drunk, who raised a disturbance on the street at 1 o'clock in the morning, was given a chance to be good and turned loose.

Hilda Walker, charged with adultery with Bill Hensinger, a parol violator, who has gone back to Jeffersonville, was shown mercy and the case continued indefinitely.

George Ottney, Ray Orth and Phil Saincome, arrested for loitering, were turned loose to get out of town.

POLICE NOTES

The Ford automobile owned by Councilman Harvey M. Brown, of Columbia City, who drove here Tuesday night with some friends, was found on the streets, where it had been abandoned by the joy-riders, who stole it. The car was taken from in front of the Lyric theater.

The theft of a gold watch from the basement of the James H. Smart public school, is reported by Prof. S. H. Pettit, the owner of the timepiece.

Gustave Lindemann, who was recently awarded the contract for the new Moose building, to be erected at Wayne and Webster streets, announced Wednesday evening at the regular meeting of the Loyal Order of Moose, No. 22, that he will start work on the new structure next Monday. Dictator James E. Ford will dig the first shovelful of dirt and David C. Ste—, secretary, will throw it onto the wagon.

The trustees of the lodge, Wednesday, gave Samuel M. Foster a check for $40,000, the price paid for his property.

Try This For Removing Hairs

Hairs on the face, arms or neck can be very easily and safely removed by a simple solution that dissolves them entirely, leaving the skin soft and smooth as velvet. Get an ounce of sulfo solution from your druggist, apply with finger tips, keeping the hairs moist for a few minutes, you will soon see them shrivel up and dissolve away. Any druggist will sell you sulfo solution; it is a little expensive, but one ounce will be all you will ever need, as the hairs very rarely return after this first application.

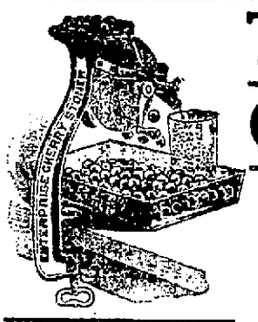
FALLS FROM LADDER.

Paul Hecht, five-year-old son of Mr. and Mrs. W. H. Hecht, 322 East Pontiac street, fell from a ladder which had been left in position by workmen engaged in the construction of a new residence near the Hecht home, Wednesday evening, sustaining a compound fracture of the left leg.



The Enterprise Cherry Seeder

Does Not Crush the Fruit Nor Waste the Juice.

$1.00

This is indeed the perfect cherry seeder. It drops the whole fruit into the pan and rolls the seed into a separate receptacle. Does NOT crush the cherry meat thereby making a pulpy mass, but keeps the cherry whole, thereby conserving the juice and attractive appearance of the fruit. You should have one of these cherry seeders for this year's canning season.

SUES PRINCE FOR DEATH OF HUSBAND

Widow of Man Killed by Car is Asking Damages in Sum of $100,000.

New York, June 18.—Prince Pignatelli D'Aragon, who is being sued by Mrs. Alice O'Connell, of Brooklyn, for $100,000, alleging her husband, Edward B., was killed last July when a car drives by the prince ran into them, was a witness in the supreme court at Mineola. He told the jury it would have been impossible for him to have caused the accident, as he was not going more than eighteen miles an hour and the O'Connell car ran into him.

The new princess watched the proceedings with interest. With a bored air, the prince related his story, occasionally scanning his perfectly manicured nails and referring to his wrist watch, as though anxious to keep an engagement. He said he had lived in Merrick two and one-half years. He left the Watson house, Babylon, after having one glass of beer, and started slowly for Merrick. He saw the O'Connell car coming and the next he knew it was directly in his path. He said that he was never intoxicated, but once. He is a stock broker, member of Oppenheim & Company, but had done no business for a year.

On cross-examination he admitted he was held up as undesirable when he came to this country, but said the immigration officer apologized and took him to luncheon. He staid stories published about his running a gambling house were not true. He had been arrested for speeding once in Manhattan and once in Cedarhurst.

Dr. William May, of Babylon, said he knew the prince well, never saw him drunk and thought him a good fellow.

Alphonse Gondern, of Babylon, said he knew the prince very well and had never seen him drunk. When asked by Mrs. O'Connell's attorney if he would lie for the prince, he said: "Yes."

Asked what he would lie about, he said:

"Well, I am a married man."

SEASON OPENS IN NORTHERN MICHIGAN

Hotels Receiving Guests and Cottagers Are Getting Located.

Petoskey, Mich., June 25.—Petoskey, the Little Traverse bay region and hotels and boarding houses everywhere are opening for the early season guests.

The Cushman house, Perry, Clark's tavern and all of the smaller places are entertaining guests while the New Arlington will be opened within a few weeks.

At Bay View every hotel and boarding house is now open and doing business while nearly every cottage has been leased for the season. Bay View season opens earlier than that of any other northern Michigan resort, although the real assembly and university season do not open until early in July.

At Harbor Point every cottage is taken and the clubhouse will be opened within a day or two for guests.

At Walloon Lake where are so many southern Michigan folks the hotels are open. At Oden, Conway and Burt Lake where the southern Michigan folk go for fishing the season opened today and a large number of cottages are already opened and the hotels have many guests.

SEEKS MOUNTAINS BENEATH THE SEA

That is Part of Unusual Job of Dr. Jones With Uncle Sam.

Washington, D. C., June 25.—The job of turning a scientific "high brow" branch of the government into a popular service has been entrusted to Dr. E. Lester Jones, who has just assumed the office of superintendent of the coast and geodetic survey.

Although the work of this bureau of the government affects the safety of every man, woman or child who sails on a steamer in or about the harbors or coasts of the United States and its overseas possessions, and of every dollar's worth of merchandise coming into or going out by sea from the ports of the United States; and although every farmer in the country is dependent on the work of this bureau to locate his fence corners, little is known of its work by the public at large.

"More than half of our work," says Dr. Jones, "consists of the plotting and surveying of our coast waters, seas and bays; every approach to the coast in continental United States as well as Guam, the Hawaiian islands, the Philippines and Alaska. On that work of protecting our coasts depends the safety of every vessel, be it foreign or domestic, which comes into our ports. Every mariner has in his pilot house one of the coast and geodetic charts, and he is being aided by information as to light houses, buoys, reefs, and most of all, by the depth of water indicated on the chart.

"That work of charting is going on constantly and we are developing new methods of doing it more accurately. In the past, this work of determining the depth, has been by casting the lead. But the numerous wrecks, especially on the Alaskan coast, where vessels have struck what we call a submerged pinnacle rock—in other words, a submerged mountain peak—has caused us to adopt new methods in some cases. For unless the lead happened to strike the particular spot where such a pinnacle rock protrudes from the surrounding ocean bed, it would not be charted.

"To avoid this we use what is known as the wire drag, hauled by three tugs. The bottom of the drag extends a certain number of feet below the surface and is supported by floats containing flags. Whenever any portion of the horizontal drag strikes a submerged rock, the flags on top dip, the vessels halt, find the exact spot, and immediately place a buoy and enter the obstruction on the chart."

Dr. Charles J. Rothschild has returned from a business trip to Chicago.

YALE TAKES SECOND VARSITY EIGHT RACE

Regatta Course, Newlondon, June 25.—Yale won the second varsity eight race by one-third of a length over her rival, Harvard, in a snappy two-mile contest over the Thames course today.

The official time of the contest was: Yale, 10:40; Harvard, 10:43.

The Yale men led from start to finish and though Harvard made a game rally in the last quarter of a mile the Crimson crew could not overcome Yale's lead.

Yale caught the water first and with a faster stroke, opened up a lead of a length at the half mile mark. The two crews rowed an even stroke and there was little splashing. Harvard increased her stroke and came up on nearly even terms with Yale.

Yale shook off the challenger and at the mile had a lead of nearly a length. Near the finish Harvard came strong and cut down Yale's advantage foot by foot. Yale, however, shot over the finish line with one-third of a shell's length to spare.

GRAND JURY INDICTS DR. A. T. SWEETLAND

Dr. A. T. Sweetland, formerly of Fort Wayne and well known here, has been indicted by the grand jury of Fayette county on a charge of practicing without a license. He is a chiropractor. Sweetland is now under arrest and will be tried at the next term of the Fayette circuit court.

Dr. Sweetland left Fort Wayne about six months ago, having practiced here for about a year and a half, going to Connersville, where, it is understood, he has built up a practice of considerable proportions.

SEE FOR FIRST TIME FARM OWNED 2 YEARS

Goshen, Ind., June 25.—Vice President and Mrs. Thomas R. Marshall reached here by motor yesterday afternoon and after spending the night at the home of Robert Hudson, former Columbia City friend, proceeded to Lafayette today, where the vice president will be one of the speakers Saturday at the Indiana Society of Chicago outing to be held on the Tippecanoe battle field. Just before coming into Goshen the vice president and Mrs. Marshall saw for the first time their 102-acre farm in York township, Elkhart county, near Middlebury. They made the acquaintance there of Mr. and Mrs. Elvin Leer, their tenants, and Mr. Marshall's namesake, Thomas Marshall Leer, who was born July 26, 1914. A silver cup was sent to the boy soon after his birth. Although Mr. Marshall's real estate agent traded Columbia City property for the farm two years ago the vice president had never seen either the land or the farmer. The Marshalls have been touring Allen, Steuben, Noble and Elkhart counties by automobile.

WONDERED THEY GOT THERE.

Grandma—They didn't teach sports in school in your father's time.

Bobby—Gee, I thought you told me Pa never missed a day.

DECATUR NEWS.

Decatur, Ind., June 25.—The children of the Zion Lutheran parochial school gave a surprise for their pastor, the Rev. Arthur Hinz, yesterday, he being twenty-five years of age. They had a dinner at the school, a program and presented him with a pair of silk socks, a tie and pin.

Dr. and Mrs. Fred Patterson were Fort Wayne visitors.

Mrs. Milo W. Hilyard, of Chicago, who is visiting with her parents, Mr. and Mrs. B. F. Breiner, for several weeks, will return home next Tuesday. They will visit Sunday in Fort Wayne.

Mrs. Dr. Burt Mangold went to Fort Wayne to visit with her sister, Mrs. Earl Waterman.

City Mail Carrier Harve Rice today began a four days' vacation. He went to Berne to visit with his son, Edward, aged three years, who is making his home with his grandmother, Dr. Christena Kuntz. He will probably bring him here for three weeks.

D. I. Weikel, of Fort Wayne, was a business visitor here.

Sam Wyatt had a narrow escape when he backed his automobile and it ran nearly over the river ledge, being caught only by a pile of brush on the fifty-foot high bank.

Miss Goldie Roth, of Monroe, went to Fort Wayne for a visit.

Mrs. John Lahey accompanied her nieces and nephew to Kendallville to join their mother, Mrs. Susie Deems.

Mrs. Belle Johnson is quite ill of pneumonia at the home of her son, William Kist. Mr. Kist is foreman of the Democrat job department.

Charles Ross and family will arrive from Chicago for a visit for a month with relatives here.

Miss Ida Brandyberry left for Fort Wayne and Grand Rapids, Mich., and will spend the summer in northern Michigan. She was accompanied to Fort Wayne by Bessie Burkhead. Miss Brandyberry has returned from Indianapolis, where she has been attending the business college.

Mrs. John Myers has returned from St. Henry, O., where she visited with her daughter, Mrs. John Herman.

Jacob Martin and John Joseph will open a restaurant and bakery in the east room of the Haugk new building on Madison street, about August first.

Miss Victoria Stone left for Columbus Ohio, where she will spend two weeks with relatives and friends.

Mrs. Chris Hilty, of Berne, is here visiting with Mrs. F. H. Gerard.

Attorney D. B. Erwin was a Fort Wayne business visitor.

BUSINESS SLOWLY IMPROVING.

Monthly Trade Letter Is Issued by the Old National Bank.

Business conditions over the country are slowly improving, according to the monthly trade letter just issued by the Old National bank.

"Since the first day of the year there has been a persistent, even though somewhat unsteady advance in business operations, the totals of the great majority of lines having continuously increased, and having reached at this time in most lines a larger total than was recorded for the same period last year," the letter says. "Business totals in fact from the first of January to the first of June have in the heavier lines of trade exceeded the same period of 1913 as well as of 1914."

MOTORCYCLE SKIDS; RIDER BADLY HURT

Charles Gallogly is Run Over by Truck Just Behind Him.

Charles Gallogly, 18, residing at 1932 High street, and employed at the Fort Wayne Electric works, was seriously injured at 6:45 Friday morning at Harrison and Pearl streets, when a motorcycle carrying himself and his brother, Arthur, 21, skidded on the street car rails and dashed into the curb, throwing Charles under the machine, which was then run over by a heavy truck belonging to the Clark Fruit Commission house. Arthur Gallogly was not badly hurt, but Charles was almost unconscious when picked up and at St. Joseph hospital, where he was taken in the police ambulance, was found to be suffering from a badly wrenched neck, an injury to one of his arms and many bruises over the body.

The young men were riding tandem on the motorcycle going to work. At Harrison and Pearl streets they passed the truck, which was driven by R. D. Rose, and attempted to turn in toward the curb, when the motorcycle skidded as it struck the rails of the curved track at the intersection. Charles was thrown under the motorcycle and the big Clark truck was so close upon him that Rose had not time to stop and the wheels of the wagon passed over the machine. The motorcycle was much damaged.

FINAL MEETING HELD.

Memorial Day Committee Deeply Grateful to General Public.

At the final meeting of the committee in charge of the recent memorial day exercises in Fort Wayne, Thursday afternoon, the members went on record as deeply grateful to the general public for the participation in the services of the day and to the public-spirited citizens and business men who assisted in a financial way. The report of the finance committee showed that approximately $600 had been expended in the observances on May 30 and 31.

A vote of thanks was extended Superintendent Doswell, of the Lindenwood cemetery, for his assistance in locating and caring for more than six hundred graves of the soldier dead. A vote of thanks also was extended to Comrades Kickley, Hess and Beaber for securing evergreen for the wreaths; the Rumania society for its patriotic turnout; all the organizations who assisted in making the day a success and to the press of Fort Wayne for the publicity and support given the committee.

Uncle Sam Uses Them

The food testing laboratories of the U. S. Agricultural Department and the commissary departments; U. S. Hospitals, the Senate and House Restaurants, and many of the Battleships of the U. S. are equipped with

McCRAY Refrigerators

Actual tests have proved the superiority of McCray Refrigerators. This sanitary, dry-air, ice-saving refrigerator is just as practical for your own home. Built for ice economy and to keep food fresh as well as cold.

McCray Refrigerators cost a little more because they are made better but they pay for themselves in the ice they save—in the satisfaction of having food free from bad odors, and in the lasting quality of their careful construction.

Come in and see the McCray.
